Barrette, Miss A. McKay, Miss M. McKinnon, Mrs. M. C. Burnett, Jas. Robertson and wife, Miss L. M. Newsome, Mrs. J. Newsome, Mrs. S. Stanway.

AFTER well nigh thirty years of absence Thomas W. Dougan, a native of Donaldson, now of Victor, Colorado, is home visiting relatives and friends of former days. Mr. Dougan notices many changes since his departure and is enthusiastic in his praise of the country districts in which he notices great improvements since he last was here. He was always a clear and has succeeded well in the States. He is now foreman in a silver mine in Victor and is interested in many financial schemes the success of which will mean great financial gain to him. His many old friends are glad to see him and give him the glad hand. His wife, who is a native of Avondale county, Ireland, has been visiting in Donaldson the greater part of the summer, and she like almost everybody, thinks this province a pretty good place to visit. Mr. and Mrs. Dougan will return home about the middle of next month.

It would be impossible to make anything like a correct estimate of the amount of money that the fairs have made on the exhibition since the opening. Some made big hauls, while others got away with only fair sized amounts and are happy, while their poor victims have gone away minus fund—but with more experience than when they first attempted to tempt a shark at his own game. The big money winner was the spindle game, and people who are in a position to know say that the trio that operated this game walked off with \$3,600. This party came from New York, where they have been operating around the beaches, principally at Coney Island. They pulled up their stakes here Thursday night and the boss went back to New York while the other two, it is stated, have gone to Prince Edward Island and will probably be seen at the Charlottetown Exhibition next week. In addition to the principals in the game, there were eleven cappers, some of them well known local sports, who were paid by the day and made a fairly good thing out of the deal. On Thursday the party reached its highest point, when \$50 stood to win \$300. In less than five minutes one man dropped \$138, and his experience was that of many.—St. John Star.

Rapid calculations, arithmetic, correspondence, commercial law and orthography are taught at the Union Commercial College, 23 dw st.

Some Dealers Think They Have a Monopoly of Buying Furniture Let them think so, it does nobody any harm, and it pleases them. But for fear the public might be led away by their extravagant utterances, we humbly rise to remark, that we have been and are still buying from almost every manufacturer in this broad Dominion—and further we are content to sell at a much smaller profit than most people ask. We would like the opportunity of showing you our furniture, and would like you to compare, and we think we can convince you that what we say is true. John Newson.
