

Today's Probabilities.

TORONTO, March 25—(Special)—Strong winds, cool, a few scattered showers or snow flurries.

DO YOU EAT TO LIVE?

Sensible people of all classes "eat to live." It should be borne in mind that the ordinary prepared breakfast foods contain too much insoluble starch and blood irritating ingredients.

Malt Breakfast Food keeps the blood pure and clean and always at proper temperature; it builds up solid, clean flesh, strengthens the nerves and clears the brain.

A Tick Killer

Is Ellis' Sheep Dip. Read the testimonial of one of the best farmers in King's County.

I can recommend Ellis' Sheep Dip, have used it for some years and find it as good if not better than other dips which I have used, and is very much cheaper.

JOHN A. ANNEAR, Lower Montague. Price Pint bottles 15c. Quart bottles 30c.

THE MINE FIRE IN CAPE BRETON.

During nearly a week past Number One Colliery of the Dominion Coal Company at Glace Bay, C. B., under lease to the Dominion Iron and Steel Company, has been on fire.

Under the general Mining Association the output was no more than from 12,000 to 15,000 chaldrons a year. So greatly had the present Company extended and equipped the colliery that last year the output was nearly 675,000 tons.

disastrous explosion of gas. Heroic and determined efforts have been made to extinguish the fire. Managers and men have ventured into the heated and smoking pit, where human endurance cannot permit a stay of more than half an hour.

An immediate effect of the fire has been to deepen the depression in both the coal and iron stocks, quite beyond the proportion of damage likely to be caused by the fire, even at the worst.

Be that as it may the Company have no thought of curtailing their operations, but rather of extending them on every hand. An instance of this is Colliery Number Two, which has now a daily output of 3,000 tons.

It will be seen from this and from the company having recently put in blast a third furnace which will add 50 per cent to their output of iron, now 600 tons a day, that the fire in a single one of their collieries is looked upon as an incident always liable to occur, but which cannot materially affect the general prosperity or their enormous and increasing business.

The French Shore question remains a perplexing one in Newfoundland and it seems a great pity that a settlement of some more satisfactory sort could not be arrived at between Great Britain and France.

the case and at the end of the year Newfoundland was asked to extend the modus vivendi. That was reluctantly done. The people were naturally impatient when the Legislature was again asked for a renewal this year and the measure has narrowly escaped defeat.

The Legislature loses a very competent, courteous and obliging Clerk by the resignation of J. A. Macdonald, whose position as Stipendiary Magistrate renders his retirement necessary.

TO CURE COLDS.

Don't dose the stomach with deadening mixtures—Use Nature's remedy Catarrhazone.

There is no remedy to compare with Catarrhazone for winter ailments such as cough, cold, catarrh and lung trouble.

If used occasionally Catarrhazone will keep the throat and lungs in a healthy condition and prevent them from taking cold.

Don't fail to try Catarrhazone. You will get your money's worth, and more. Colds last about ten minutes after Catarrhazone is breathed deeply into the lungs and exhaled through the nostrils.
