CHILD DIES FROM EATING TABLETS—The little daughter of Mr. and Mrs. Howard Waite of Tyne Valley died from the effects of eating some medicine tablets about an hour after she had taken them on Saturday, April 18th. Mrs. Waite had just returned from the Prince County Hospital and had placed her grip down. The little girl and an older brother were investigating the contents of the pill case and discovered the bottle of tablets, taking them for candy. They had both taken some into their mouths before they were noticed by the parents; but the older child had spat out the contents of the pills. The little girl not two years old had swallowed some. She was immediately taken to Dr. Stewart. On the way she took convulsions and died not long after. Much sympathy is expressed for the parents in their sad bereavement. The other child was very sick but is recovering. S.
