In place of the usual sermon this week The Guardian prints the annual report of the sixtieth anniversary of the Grand Division S. O. T. by G. W. P. Rev. E. S. Weeks of Bideford.

A well attended meeting of the "Tourist and 200,000 Club" was held last evening in the office of J. A. S. Bayer. The President, Hon. George E. Hughes, occupied the chair. A number of important matters of business were discussed and suggestions for future work were considered. The meeting adjourned pending preparation of further data with regard to some of the plans suggested and will meet again in a few days.

The presentation of Damon and Pythias at New Wonderland last evening, marked an epoch in motion pictures in Charlottetown. It was assuredly the finest spectacle ever produced here, and in every detail told in magnificent grandeur the story of an immortal friendship. This evening it will be shown for the last time and every one should see it. A late show will be put on at half past nine to enable business people to see it once more.

The last regular meeting of the cheese board was held in the usual place in this City yesterday. Laughlan McDonald, president, in the chair. The market is slightly improved. About twelve hundred cheese were boarded, most of which were sold to Mr. Spiller, the Secretary. He will submit his report of the year's proceedings in a short time. Factors wishing their names to appear on the pay list, will send in their checks to the Secretary at once.

The students of the City Colleges made things lively at the station yesterday. The trains were crowded with them, eager to get home to a taste of the Thanksgiving goose. The boys were doing some taunting to the merriment of the young ladies. The P. W. C. college yell only once resounded in the cold air while the business colleges didn't seem to be able to muster. Tuesday they will return much refreshed and ready for the remainder to the Christmas term.

Bruce Stewart and Co. are doing a rushing business. They have the following contracts on hand. The heating and plumbing of the City Hotel, the building of a flume, twenty-four inches in diameter and thirty feet long for Daniel Stee, Sturgeon. They also are doing a rushing business in the manufacture of gasoline marine engines. They are adding another new lathe to their already well equipped plant. This machine is an up to date one, having double driving back gears, and also a modern combination for thread cutting, etc. The machine was purchased some time ago in Montreal, and will be used for engine work. This speaks well for this up-to-date firm, who with an efficient staff of workmen, can handle any job from the large marine triple expansion engine, down to a lawn mower, and turn out the work perfect.

The marriage of Miss Isabel Elise Macdonald, daughter of John Macdonald of Cherry Grove, near Souris, to Prof. John A. Nuptial mass was celebrated and the impressive ceremony was witnessed by many friends of the bride and groom. The bride who was attired in a suit of London smoke broadcloth, with hat to match, was attended by her sister, Miss Tertre, who wore a costume of blue broadcloth. Dr. A. J. Donnelly of Cambridge, Mass., was best man. After the wedding breakfast was served at the Parker House, and in the evening Professor and Mrs. Macdonald left on the evening train for their home in Charlottetown, where they arrived on Wednesday evening.

By a telegram received last night it is learned that the remains of the late D. A. Lawson will not arrive home on Saturday night as expected, but will arrive Monday night. This will probably change all funeral arrangements which have been made.

The following clipping from The Wesleyan will be of interest here: "At Medicine Hat, snugly, with his son-in-law, Mr. Essery, the Rev. Joseph Parkins, who served the church with eminent fidelity in Newfoundland and Prince Edward Island and New Brunswick was found. Feebleness is increasing, but so is Bro.
