CAR ACCIDENT—A Charlottetown motoring party received a bad shaking up in a traffic accident near St. Peter's Wednesday night, their car being badly damaged, and one of the occupants receiving painful but not serious injuries.

Y'S MEN'S CLUB—The weekly dinner of the Y's Men's Club was held last evening in the Y. M. C. A. with Mr. Roddy Gillis presiding. Mr. H. C. Hague, late of South Africa, and at present engaged by the Prohibition Commission as detective, was the speaker, describing at considerable length phases of life in Southern Rhodesia. Locusts are a great pest in that territory. The natives are very mysterious and have voodoo societies. The speaker told of a trip up the Zambezi River, where he saw the Victoria Falls, the greatest in the world. Plans were made by the Y's Men for the holding of a picnic at Canoe Cove this summer. It was decided to invite the District Governor of the Club to be present at the last meeting of the season to be held the final week in May.

THE COLLEGE TIMES—The fifth and final number for the year of the College Times, edited by and contributed to by the students of P. W. C., was published this week. Unlike the four preceding numbers the last issue has the booklet form of past years, and contains a considerable amount of varied material. Throughout all runs the usual vein of collegiate humour, in jokes, poems and articles. The editor, Mr. John Gordon, is to be commended for the content of his well-written editorials, and the students in general are to be congratulated for the general excellence of the issue. "Prince of Wales College Fifty Years Ago," by Rev. J. A. Ford; M. A. of Seattle, Wash., a former student of P. W. C., is an article of more than usual interest. College activities of the season are reviewed in articles on sport, on the S. C. M., and on the Debating Society. Short, witty stories, most of which are written in humorous vein, have their place. The picture of the graduating class of eighteen members, accompanied by sketches on the personnel lend particular colour to the issue.

PERSONALS

Mrs. R. E. Mutch leaves this morning to attend the closing exercises at Mt. Allison University.

Mr. and Mrs. C. H. Black leave for Sackville this morning to be present at the graduation of their son, Mr. C. Fred Black, at Mount Allison University.

The Markets

(Canadian Press)

MONTREAL, Que., May 15—Produce trading was dull on the Montreal dairy and produce markets today with prices unchanged on all lines. The demand for butter continued slow with receipts at 482 boxes. Egg arrivals were again heavy amounting to 5,078 cases. There is a steady movement of eggs into storage. The cheese market was steady and receipts at 2,201 boxes. The potato market was again drab, but prices were not changed.

OTTAWA, Ont., May 15—Eggs—Canadian egg markets continue firm today with car lot prices again tending higher. Toronto. This egg market is decidedly firm today, but local prices are unchanged. Dealers are quoting country shippers for ungraded eggs extras 30 to 31 cents, firsts 28 cents, seconds 24 to 25 cents delivered, cases returned. Sales of storage packed prairie eggs are reported at extras 32 1/2 cents, firsts 30 1/2 cents, delivered. Ontario shipments are selling at extras 32 1/2 to 33 cents, firsts 30 1/2 to 31 cents, delivered, and British Columbia shipments at extras 33 1/2 cents, firsts 31 1/2 cents, delivered, and British Columbia shipments at extras 33 1/2 cents, firsts 31 1/2 cents. Montreal. Egg receipts here yesterday were 5,078 cases as compared to 4,185 cases on the corresponding day last year. The market today is unchanged. St. John. This egg market shows no change in prices. There is a good demand for eggs for storage and some small shipments are arriving from P. E. I. for current use. Prices of eggs to retail stores are extras 34-36 cents, firsts 32-34 cents, seconds 27-29 cents. Some small shipments of live fowl are now beginning. Halifax. There have been no changes of importance in this egg market during the past week. Receipts are running about equal to last week and prices are running unchanged. Chicago spot 20 1/2, Nov. refs., 27%.

LARGEST CARGO

Continued from Page 1

Acid Works, Inc., for the Prince Edward Island Potato Growers' Association.

The Winding Gulf is 400 feet long with a 55 foot beam, and a draught of 26 1/2 feet, and carries a crew of 39. The trip was made in a little over five days, the steamer having left port on May 9, and travelling 1,137 miles. Fine weather was experienced all the way, though the cold was noticeable after the temperature of 96 prevailing in Baltimore.

Many sections of Canada with which Captain Johnson is familiar are copying the progressive marketing and distribution methods of the Prince Edward Island Potato Growers' Association, which is preeminent in Canada, and meeting with quite some success—in New Brunswick, the New Brunswick Agricultural Societies, United, in Nova Scotia, the United Fruit Growers, and in the Captain's home province, Ontario, Mr. Burns, of the United Farmers' Co-operative Association, is developing quite a big business and bringing successful methods of distribution and money-making to his farmers. While these organizations are all copying the same methods, Capt. Johnson says, there are none that can compare with the Prince Edward Island Potato Growers' Association in size, service rendered to the farmers, and the wonderful distribution methods which they have instigated recently.

The water has so little effect on piles of flaming grain said the fire fighters that the blaze probably will smoulder for weeks before it finally burns itself out.

Firemen and police after a hurried survey of the scene said they were certain no one had been in the structure when the blast shattered windows for blocks around and sent the flaming grain high into the air in what looked like a fourth of July pyrotechnic display.

WATER HAD LITTLE EFFECT

The water has so little effect on piles of flaming grain said the fire fighters that the blaze probably will smoulder for weeks before it finally burns itself out.

Applications Of Returned Soldiers Will Be Heard

OTTAWA, May 15—The provision of machinery whereby every applicant for a pension will be afforded a full opportunity to be heard, and the establishment of tribunals to hear representations in open court, are the main recommendations of the special parliamentary committee on returned soldiers problems, which made its report to the House of Commons tonight. Appended to the report is a bill embodying amendments to the pensions act, the recommendations of the committee. The report, the unanimous decision of the committee, proposes to leave the pension board to perform, in the first instance, a duty identical with that with which it is now charged, that is, the duty of considering all applications made and of granting those which, upon the material available, it appears proper to grant.

SPRINGFIELD AND VICINITY

Our school is progressing favorably under the skillful management of Miss Verna Frizzell.

Mr. Horace McDougall was a visitor to Knutsford on Sunday last.

The Grand Parade

Different in many respects from the cut-and-dried picture romance, "The Grand Parade", now playing at the Prince Edward, featuring Helen Twelvretres and Fred Scott, is a story of blackface minstrelsy so popular forty or more years ago. It is distinctly a new type of entertainment on the screen, for in addition to its vital, forceful drama, it presents a complete minstrel show such as our grandparents delighted to see when they were young. Wonderful music, catchy songs, spicy jokes and the glittering pageantry of negro entertainment supplement the drama of this remarkable achievement in the field of audible films.

The story of "The Grand Parade" is real and vital. It deals with a minstrel singer who is constantly fighting his craving for drink. He falls in love with a beautiful woman who encourages his weakness until he finds himself in the gutter. Then a slavey comes to care for him and makes a man of him. This accomplished, the other woman again appears and to save himself the minstrel marries the slavey. But blow after blow strikes the adoring wife until finally—well, there comes an amazing climax which will leave spectators breathless. Back of the tense action is the music, nerve and merriment of the minstrel show—played at a tempo which accentuates the drama until the climax is reached.

His many friends regret that Mr. William Dymont is not in good health. Some time ago he complained of soreness in his mouth which the physicians diagnosed as cancer. Treatment was given but failed to have the desired effect. It is a regrettable fact that as Mr. Dymont is well-advanced in years the doctors cannot successfully treat this dread disease and all that can be done is to alleviate his suffering as much as possible. Although he fully realizes the seriousness of his condition, Mr. Dymont is brave and cheerful at all times.

Mr. Avarad Harris, of Knutsford, was among recent visitors to this vicinity.

Miss V. Frizzell and Mr. Herbert McWilliams, were among those who attended services in O'Leary on Sunday—Q.

O'LEARY AND VICINITY

The children of this vicinity will receive their first treatment for immunization against diphtheria this week. O'Leary has been selected as a centre from which surrounding districts will be served. Glenwood will be the centre from which schools in that section will receive treatment.

Mr. Charles McDougall has recently installed a new double Bundy gasoline tank. The work of Fundation was done by Thos. Johnston & Co. This tank will prove a great convenience and adds considerably to the appearance of Mr. McDougall's garage and show rooms here.

The death took place on Tuesday at noon of Mr. Archie Gay, son of Mr. and Mrs. James Gay at the age of twenty-three years. For many years the deceased had been a great sufferer and recently his condition became worse so that the end was not unexpected. Death at all times and under all circumstances is sad and although those who loved him best would not, if they could, recall him to a world in which pain and suffering was his lot yet the very fact that he required so much care and attention will for the present make his death more keenly felt in the home.

There are left to mourn besides his father and mother one sister, Mrs. Watson Silliker of O'Leary and three brothers, Leslie in O'Leary, Elmar and Hazen in Attleboro, Mass. The sympathy of the community is extended to those who mourn—Q.

WOMEN TURN TABLE: MEN MAKE IT GROAN

TORONTO, May 15.—Husbands and fathers laid the banquet table and cooked every detail of the meal when Rogers Presbyterian Sunday school held its first "Mother and Daughter" banquet in the church at Woodbine and Danforth Avenues on Saturday evening, with 160 mothers and daughters present.

TORONTO, May 15.—Attended by many members of the Silver Cross Chapter, the I.O.D.E. Mother's Day service, held last evening at Don Mills Road United Church, held special significance. Presided over by the minister, Rev. H. S. Lovering, the service was addressed by Mrs. W. R. Jackson, Regent of the Chapter. The choir was composed entirely of mothers, while mothers acted in the capacity of ushers.

Plant Iris

Of all the perennial flowers which can be grown in our cold weather states, there are many who will proclaim that the bearded irises are the most beautiful. And this beauty is joined with complete hardiness, freedom from disease, vigorous growth, and remarkable endurance under unfavorable conditions of soil and atmosphere.

They prefer a sunny location and it is absolutely necessary that they have good drainage. Therefore, the higher locations in your garden are best.

Loosen up the earth a full spade length before setting the plant and be sure that the rhizome is just under the surface. Irises grow naturally close to the surface and will not bloom well or thrive if set too deep. The first winter after planting it is desirable to mulch the ground after it freezes. This is done simply to prevent the heaving of the roots by frost. Once established, mulching is unnecessary.

Irises are at their best lining garden paths and drives, or in groups for the border. Their blooming season is late May and June, and, by choice of varieties, flowers can be had for four or five weeks. By using other species of irises bloom can easily be had for three months.

The best time to plant irises is in August and September, although spring planting gives satisfactory growth but few blooms the same season.

The abdication of the Begum in 1925 brought to an end a period of eighty years of female rule in the little state of Central India, which has a population of about 700,000. The Begum had ruled Bhopal for a quarter of a century with vigor.
