Growing by Leaps and Bounds

About the only business that escaped the depression of 1920-21 was the life assurance business. Turnover was actually greater than during the boom years of the war. And instead of stopping business written keeps on expanding, showing that the life assurance field is depression proof. For instance, in 1921 the total amount of business written in the States was \$6,730,000,000. In 1922 this enormous amount was further increased to \$9,500,000,000, a gain of \$2,770,000,000—more than three quarters of a billion dollars. You know that in your own business if you could constantly increase your sales, good years and bad, and at the same time consistently cut down your losses, that your profits would increase by leaps and bounds. That is the unique advantage enjoyed by the life assurance companies. Naturally life assurance stock is closely held and seldom comes on the market. It is only when a new company is being formed that there is a chance to secure a share in the tremendous profits, (ranging up to 100% per annum and averaging 14% in the case of the leading companies) earned by the life assurance companies. Such an opportunity is provided by the organization of The Maritime Life Assurance Company. This Company has already disposed of sufficient shares to make certain that it will be able to enter the rich field of the Maritime Provinces, and with the advantage of having more active, enthusiastic shareholders promoting its success than all other companies combined. No promotion stock has been issued. So in becoming a shareholder you will be coming in on the ground floor equally with the group of outstanding business men of the Maritimes who are furnishing their experience and money to insure the success of the Company. Informing prospectus on request.

The Maritime Life Assurance Co., Home Office: Dennis Building, Halifax, Gentlemen:— I am interested in your securities and would appreciate additional information, including prospectus. Name Address Or see our Representative CAPT. W. L. YOUNG, M.C., Victoria Hotel, Charlottetown, P.E.I.

Education is the stepping stone to progress and prosperity. You, as parents, know this and send your children to school that they may not be handicapped in future years. But do you know that about seven out of every ten school-children in this country have defective eyes? Do you know that defective eyes are frequently the cause of poor school work, even though the child is naturally bright? Have your child's eyes examined now and know what their condition is—do not guess. G. F. Hutchison Optometrist
