4-25d8i. W. S. STEWART

Imported Hackney Stallion

The above photo is "Fashioner" taken at the Dominion Exhibition at Halifax, last autumn. It will be noticed that Fashioner is wearing a belt, attached thereto are the ribbons presented to him for winning sweepstakes in show classes for Hackney Stallions.

FASHIONER

Imported No (8468) (343)

Color Dark Chestnut, snip, near hind fetlock white, foaled 1902, bred by George Hodgson, Manor House Brandesburton Hull, England. Imported in July 1906 by Hamilton & Hawthorne, Ontario

DAM	SIRE
Tit Bits (10563)	Welbeck (7313)
Madame de Blandes (4270)	Sir Alfred Sands (3271)
Brown Bess	and Sire James (1564)
	Star of the East (798)
	Walkington

Fashioner imported No. (343) (8468), weighs 1250 lbs. Fashioner is sired by the noted horse Welbeck No. (7313). Welbeck sire of Fashioner is one of the greatest sons sired by the champion Hackney stallion of all England, Garton Duke of Connaught for which his owner refused the big sum of $20,000.00 Garton Duke of Connaught has sired more prize winners and high priced Hackneys than any other Hackney Stallion in Great Britain and has the high honor to be the selected Hackney Stallion for the services of the Hackney mares owned by his Royal Highness King Edward. Fashioner Dam Tit Bits, No. (10563) by the noted horse Sir Alfred Sands No. (3271) Tit Bit is the Dam of many prize winners at all the leading shows of England and has proven herself to be a great brood mare. Fashioner imp. (343) (8468) is one of the highest actors and fastest going Hackney stallion in Canada. He was shown at London fair Ontario 1906, and won the second prize against a strong field of good horses and first class judges pronounced that he should have won first prize. He was shown at the Dominion Exhibition Exhibition Halifax 1906 and won first and sweepstakes for the best Hackney stallion of any age. All breeders wishing to breed high classed harness horses should not fail to see this grand young hackney stallion before breeding their mares. It has been proven by first-class breeders that the Hackney stallion crossed over trotting or thoroughbred mares is the only way to produce the high class harness horses that sell for the big prices. Horses bred this way have been sold for $600.00 a pair to $5,000.00 a pair through Ontario and the United States. Trotting and thoroughbred mares crossed with a Hackney stallion like Fashioner with the size he has and the stylish way of going of and his conformation will be sure to produce horses that will sell for the big prices, and as well be good horses to work on the farm and not take all you raise on your farm to feed them.

Fashioner will be at Connor's Stables, near Essory's Livery Stable, every Market day.

TERMS :- 10 dollars cash for Season, or 12 dollars in Fall to November 1st, secured by note of hand at time of first service. Single Service 7 dollars cash at time of service.

All accidents at owners risk.

JOHN B. ROPER,
Owner In Charge.

CANADIAN WOMEN FIND RELIEF

The Case of Ellen Walby is One of Thousands of Cures Made by Lydia E. Pinkham's Vegetable Compound.

How many women realize that it is not the plan of nature that women should suffer so severely?

Thousands of Canadian Women, however, have found relief from all monthly suffering by taking Lydia E. Pinkham's Vegetable Compound, as it is the most thorough female regulator known to medical science. It cures the condition which causes so much discomfort and robs these periods of their terrors.

Ellen Walby, of Wellington Hotel, Ottawa, Ont. writes:

"Your Vegetable Compound was recommended to me to take for the intense suffering which I endured every month and with which I had been a sufferer for many years getting no relief from the many prescriptions which were prescribed, until, finally becoming discouraged with doctors and their medicines I determined to try Lydia E. Pinkham's Vegetable Compound, and I am glad that I did, for within a short time I began to mend and in an incredible short time the flow was regular, natural and without pain. This seems too good to be true and I am indeed a grateful and happy woman."

Women who are troubled with painful or irregular periods, backache, bloating, (or flatulence), displacement of organs, inflammation or ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising women free of charge. Thousands have been cured by so doing.

SHELTER FOR TUBERCLOSIS PATIENTS IN PORTO RICO.

Under American control systematic efforts are being made to stamp out consumption on the Island, and recently an isolation camp was established.

JEALOUS OF GIRL AND SHOT HER

PARRY SOUND, April 28.—Word has just been received here of a murder and suicide in the vicinity of Arnstein, a little village in the northern part of the Parry Sound district. In a farmhouse near Arnstein lived an old couple named Supelsea, the fifteen year old daughter of the husband and a son of the woman by a former marriage named Frank Varasko. Varasko was jealous of the girl speaking with any other of the young men of the neighborhood. Varasko and a number of other young men had been drinking rather heavily for some time. About three o'clock Monday afternoon the girl, Penny Supelsea was employed in a sugar bush, boiling sap, when it is believed Varasko shot her, and then going some distance into the woods shot himself, both being killed.

5000 FACTS ABOUT CANADA

A remarkable little booklet has been compiled under the above self-explanatory title by Frank Yeigh of Toronto, the well known writer and lecturer on themes Canadian. Perhaps no one in the Dominion is better qualified to make such a compilation. Its value is, as claimed, "worth its weight in Yukon gold or Cobalt silver." The idea is a clever one, viz:—a fact in a sentence, giving a wonderful mass of information in the smallest compass on every phase of our commercial and industrial life and our natural resources. The booklet is sold for 25c and may be had from newsdealers or from the Canadian Facts Publishing Co., 637 Spadina Avenue, Toronto.

Vapo-Cresolene

Established 1879

Whooping Cough, Croup, Bronchitis Cough, Grip, Asthma, Diphtheria

Cresolene is a boon to Asthmatics

Does it not seem more effective to breathe in a remedy to cure disease of the breathing organs than to take the remedy into the stomach?

It cures because the air rendered strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children.

Those of a consumptive tendency find immediate relief from coughs or inflamed conditions of the throat.

Sold by druggists.

Send postal for booklet.

Another Step in Advance

I am pleased to inform my patrons that I have added to my already up-to-date equipment two dozen folding chairs, which are very neat and comfortable. They are at their disposal FREE should occasion require.

G. D. WRIGHT

Billious Paleness, Now Easily Cured.

you are frequently billious or have feelings of nausea, there is a reason.

When the liver action is normal the bile is secreted in the proportions necessary to ensure the digestion of fats.

When liver action is irregular it is an evidence of impairment of nerve force.

When these derangements occur, an undue amount of work is thrown upon the liver and kidneys, they rebel—the whole system suffers, and ill-health follows.

Another dangerous result of derangement of the biliary function is constipation. Deadly disease results from this condition.

This is a hateful condition because it ensures two results—heavy dark rings under the eyes and a sallowness that's absolutely abhorrent.

These derangements if allowed to continue excite the formation of gallstones, cause jaundice, catarrhal inflammation of the bowels, and indigestion.

If you wish to get better, the very root of the trouble must be reached.

This can be accomplished only by Ferrozone—a remedy that strengthens the system, the blood, the liver and kidneys.

Ferrozone is a food for the nervous system.

It fortifies and strengthens it.

The nervous system controls all the functions of the body.

Improve its tone, you improve the tone of the whole body and this is what Ferrozone accomplishes.

Its first action is to fortify digestion—this means nourishment and more building material.

Ferrozone makes rich, red blood—lots of it, and this means the proper action of all the large and vital organs of the body.

Quickly there comes strength, vigor, endurance—that glow of feeling which we call health.

You are sure of robust health sure of strong nerves good appetite sure to look and feel your best if you use Ferrozone; try this great tonic, sold everywhere in 50c boxes.

THE GUARDIAN COVERS THE FIELD

The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.

With a daily circulation of its morning and rural edition now about 8,000 and growing from day to day, it has broken all records for a daily publication in a small community.

Charlottetown has a population of 12,000 and Prince Edward Islandhas 103,000 The Guardian's daily circulation is therefore as 1 to 1½ of population in the city in which it is published, or 1 to 13 of the population of the Province. This is, the management believes, unequalled by any daily newspaper published in Canada.

Take one or two comparisons with other leading newspapers in other cities and provinces

St. John has a population of 40,000 and the Province of New Brunswick 320,00 St. John has five newspapers and among these The Telegraph and The Sun are perhaps the foremost. Each claims a circulation of about 8,000, or say as 1 to 5 of the population of that city and 1 to 40 of the population of the Province.

Or again: Toronto has a population of some 250,000 and the Province of Ontario about 2,225,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 50,000. That is as 1 to 5 of the population of Toronto and 1 to 44 of the population of Ontario."

The point is this, that The Guardian covers the field of its circulation three and a half times as well, if compare with population of the city, and over three times as well, taking the population of its Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.

These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertisin patron alike. They have a right to know how completely their favorite Journal s endorsed by the reading public among whom it circulates and how completely it covers the field as an advertising medium in this City and Province

HUTCH A BODY BUILDER

When one eats food the nutritive part goes to make up the different tissues of the body. If there is any flaw in the process it will result in some disease of some one of the organs on the body. The digestion in this way plays a most important part in one's health. Hutch cures indigestion and all stomach troubles. It is composed of ingredients which are chemically combined to keep the digestion in good working order. Hutch will not allow any clogging or derangement Hutch is a doctor for ten cents

To The Farmers Of P. E. Island

GENTLEMEN:—I am on hand as usual with a full line of the CELEBRATED LONDON FENCE GOODS and would solicit a continuance of your patronage.

Wire fencing is being more generally used as time advances. Even where there are poles and lumber on farms, wire is found to be the cheapest.

Coiled spring fencing is admitted by all to be the right thing and by the use of THE LONDON FENCE MACHINE, you can fence your farms much cheaper than the old style rails. But it is important that you get good wire. There are many kinds of inferior wire on the market. But London spiral coiled spring steel wire (every bundle bears our special tin tag) is by far the best to be had and farmers will make no mistake in writing me for free catalog and prices.

J. W. BOULTER,
Manager,
Summerside, P. E. I.

Tenders For Coal

Charlottetown, Summerside and Georgetown; Also Hospital for the Insane.

DEPARTMENT OF PUBLIC WORKS,
Charlottetown, April 25, 1907.

Sealed tenders will be received at this office until noon on

Tuesday, May 7th, 1907

From any person or persons willing to contract to supply the Provincial Building, Law Courts, Prince of Wales College, Poor House, Queen's County Jail, Summerside Court House and Jail, and Hospital for the Insane, with coal at per ton of 2240 lbs, to be delivered in the vaults of the above mentioned buildings, at the cost of the contractor, by 1st. September next.

Weigh scales to be approved by the Department.

Full particulars as to the quantity and kind for each building, may be had at this office.

The names of two responsible persons willing to become bound for the faithful performance of the contract, must accompany each tender.

The Department does not bind itself to accept the lowest or any tender.

Tenders to be addressed to the undersigned and marked "Tenders for Coal."

L. B. McMILLAN,
4-27d9i Secretary of Public Works.

'VETERINARY DENTIST'

J. M. NICHOLSON, D. V. D.
(Graduate Detroit Veterinary Dental College)

Kent St. Ch'town,
Telephone 253.

The cause of numerous diseases and disagreeable habits, heretofore ascribed as constitutional, have been traced directly to the teeth. Blindness, drolling, frothing, loss of flesh, weak eyes, driving on one rein and pulling are very often due to diseased and irregular teeth. Rough edges and sharp corners of the teeth lacerate the mouth, and produce nervousness and irritability; uneven and elongated molars and incisors prevent the proper mastication of the food, producing indigestion and general debility. Decayed molars cause necrosis of the bone, abscesses, nasal gleet, etc. These causes should be removed. Decayed teeth should be removed by extracting or trephaning, sharp corners and rough edges should be smoothed down, and elongated and uneven molars and incisors cut off. The common float, or file heretofore deemed sufficient to accomplish this, will not suffice but special instruments devised for the purpose are necessary. 4-25dr1hm
