# THE GUARDIAN SHORT STORY

## The Rejuvenation of Chilton Forester

By Constance D'Arcy Mackay  
Copyright, 1900, by E. C. Parcells

Olivia Forester descended from her auto and looked about her helplessly. As far as she could see the road stretched away dusty and desolate. It was the hazy season. Farmers were busy with their crops and passersby were few. Olivia's car stood half in and half out of the wayside ditch, and it was beyond her power to move it. There was nothing to be done but wait. If deliverance in any guise approached she could readily signal it, for she stood on the crest of a hill.

Below her the countryside lay like a green map. The clear air mocked distance and brought things wonderfully near—the cluster of houses that formed Oakdale village, beyond these the gray gables of her own home and still farther away the shining roof of Willoughby manor.

It was at the latter that she looked with the most interest, for the Forester-Willoughby feud, beginning about a land line, had continued for two generations. The elder Willoughby had died, but Broughton Willoughby had returned from college and the manor was reopened.

The villagers, who took a lively interest in the two families, declared him to be a fine, sensible young man, nor was Olivia a whit less popular. People liked to wait for her smile and nod as she galloped past. Recently her motor had taken the place of her horse, a course of which her father heartily disapproved, for he hated modern innovations.

His role of hostile neighbor was only one of many idiosyncrasies. Trains filled him with a horror unspeakable. It was his boast that he had never ridden in a sleeper. He loathed the bustle of a city and clung tenaciously to his New England homestead, whose inaccessibility rendered it doubly dear to him. Olivia often teased him by saying she was sure he would like to keep her at home beside a spinning wheel.

"Anything," he cried, "would be better than what you have chosen! With such a hideous, smothering thing as that how can you expect to come to anything but grief? And, though Murray, the groom, is an excellent fellow, do you call it—chauffeur, you insist in going about the country alone. You are a modern, Olivia, and I wash my hands of you!"

Yet now, as Olivia was experiencing her first breakdown, she recalled her father's words with a twinge of apprehension, and it was a relief to hear another machine approaching, a relief which turned to consternation when she saw its occupant, Young Willoughby coolly ignoring the embarrassment of the situation.

"I beg your pardon," he said pleasantly, "but can I be of some assistance?" "Thank you," answered Olivia confusedly. "It won't move either way, and I can't find out what's the matter with it." Nor could Willoughby when, after twenty minutes' work, he managed to get it from the ditch.

"There doesn't seem to be any help in sight," he observed cheerfully after looking up and down the road. "Will you let me take your motor in town?" Olivia hesitated. "But what had a family feud to do with a breakdown?" "If you will be so good," she murmured, and gathering her dress about her, she stepped into her own car.

She leaned back with a sigh of relief. At least she would not have to talk to him. Then the absurdity of the affair struck her. She realized how she would look, whirling through the village streets as if taken captive by Willoughby. Instantly her pride was up in arms. At the edge of the village she called to him and he slowed down immediately.

"I think," said Olivia, "I would rather you left me here. I'm sure some farmer's team will be passing and take me the rest of the way, and I am most grateful to you for the assistance you have given me."

"It was the greatest pleasure," said Willoughby, raising his cap, "to assist you. But Olivia was sure that the farmer's team which came to her aid would be of no use to her, and she took pleasure in mentally recalling each incident. Indeed, so much did Willoughby occupy her thoughts that she was scarcely surprised when, a few days later, surriding home against a wind that pranged a storm, a turn in the road brought Willoughby into view. He was on his knees in the middle of the road apparently investigating his gasoline tank.

"The speaker doesn't connect," he said in answer to her question, "quickly accepted her offer of assistance. They started homeward in complete reversal of the parts they had played before. Now it was Olivia's motor that went gallantly ahead, while Willoughby and his car trailed in the rear. They were still some twenty miles from Oakdale, the wind was steadily rising, and a few great drops of rain began to fall.
