A VERY small yield considering the size of the bush. It takes about 6 1/2 bushes to yield a pound of ordinary tea—and about 10 bushes to yield a pound of Red Rose Tea, as only the tender shoots and buds are used to produce the distinctive flavor and richness which characterize this high-grade tea.

New Vitality and New Life for the Aged

IN the evening of life, when the strength is gradually decreasing, and the vital powers are waning, Wincarnis exerts a powerful influence in creating new strength, and in surcharging the body with new vitality, because Wincarnis possesses a four-fold power. It is a tonic, a Restorative, a Blood-maker, and a Nerve Food, all combined.

Therefore, Wincarnis creates new strength, new blood, new nerve force, and new vitality. And this four-fold power, acting upon the system at one time, promotes a feeling of new life throughout the whole body. That is the reason why over 10,000 Doctors recommend Wincarnis. And it is also the reason why Wincarnis is the one thing that elderly people should take to restore their decreasing strength, and to reinvigorate their waning vitality. Also, as Wincarnis does not contain depressing drugs, it can be safely taken by old people and the weakest invalid.

Wincarnis is a positive necessity for elderly people, because it promptly promotes new strength and quickly creates new vitality.

Your House Reflects Your Character

You are judged by the house you occupy as much as by the clothes you wear. An unpainted, shabby place, showing evidence of neglect, advertises the character of the owner and his family most unfavorably. It implies carelessness and a lack of self-respect. the Board for consideration. A communication was read from a western firm anxious to purchase crushed oyster shell, and wanting to know if it would be possible to purchase a shipment here.

Mr. Carter stated that there was no crushed shell available in any quantity in this Province and that his firm buys it in car-lots from the United States.

The Secretary was instructed to write a suitable reply.

Some discussion followed in reference to harbor improvements.

Messrs B. R. Holman, P. W. Turner, Charles Earle and S. C. Moore were nominated for membership in the Board and elected by the casting of a ballot.

Mr. J. O. Hyndman referred to the great advantage of such an industry as that of Bruce Stewart & Co. to the City. The Board of Trade and its members and all who can do so, should, he declared, do all they can to boost this company, help them to get their new stock and plantations.

In regard to fisheries Mr. McEwen said he wanted to see the fishermen get full value for their labour. "It is for us," he said, "to work out some kind of plan to ensure that they will get that value of their labour, and start things humming."

Mr. E. T. Higgs suggested that it would be well to get in touch with the steamship company, which it is understood will run a steamer between Boston, Halifax, and St. John's Nfld., and endeavour to get them to make Charlottetown a port of call. It was decided to act on this suggestion.

It was announced that an offer of \$25,000 had been made by a firm in Quebec for the steamer Harland. Mr. Hyndman in reference to this announced that the deal was off, the offer being declined.

Meeting adjourned.
