ITALY LEADS IN SUBMARINE CONSTRUCTION Naval Powers Weigh Importance Of Undersea Craft In Building Programs.

(By Edwin S. Johnson, Canadian Press Staff Writer) LONDON, March 9.—The world powers, engaged in an unprecedented arms race, are giving particular thought to the importance of the submarine in their naval calculations. "In the name of the victory and our naval waters of all lands we call upon you to stop these trials and killings, to empty Soviet prisons of workers now languishing in them and restore the U.S.S.R. its rights as the vanguard of humanity marching towards a free, classless society and to the better day of Socialism."

During 1937 Italy added 17 submarines to her fleet, bringing her total to 81. With the additional 24, she surpasses the United States, the former leader, whose strength is now at 84 with 17 building.

Mindful of the efficacy of underwater craft during the Great War, the major powers today have under construction 91 submarines, while the actual number projected is not known. An unestimated number were also added to the various fleets during the past year.

This concentration of submarine building is disclosed in the 1938 edition of the British Admiralty's official returns of British and foreign fleets. It does not, however, embrace Soviet Russia's status, as her naval expansion program has not been divulged. The report shows Italy has outstripped all other countries which are accelerating submarine construction, with the completion of 24 vessels under construction, as she takes the lead in numerical strength for this type of craft.

GYRO MINSTRELS MAY 2nd. & 3rd. CHAUTEMP

(Continued from page 1) from Chautemps demanding in the most imperious manner an immediate answer. "The society group is perfectly aware that these things are being manoeuvred in order to throw the entire blame on it alone, blame which should be shared by the whole Popular Front majority—the coalition of Radical-Socialists and Communists, with some minor Leftist groups.

ROGERS MAKES (Continued from page 1) While Mr. Rogers said the government could not do anything to help him, he agreed with most of Mr. Boulanger's argument and as the sitting ended the latter withdrew his motion. To accept the proposal now said the minister would mean a serious dislocation in existing arrangements for social assistance such as unemployment relief, old age pensions and pensions for the blind.

MOSCOW TRIAL (Continued from page 1) be given any credit "in this country, or, indeed, anywhere outside the Soviet Union." "The very nature of the confessions," declares a bluntly-worded statement issued by the Soviet ambassador Ivan Malsky today, "the manner and technique of the trials and their preparation, and the inconceivable character of the alleged crimes not only fail to convince—they have an opposite effect."

"This is not working class justice. It is an insult and injury to all international working class interests and interests. It is not the prisoners who have been on trial in Moscow. It is the system of bureaucracy which has grown up since the time of Lenin."

"We know that in Britain the executions by firing squads and the suicides have only served to paralyze working class opinion on behalf of the U.S.S.R. and to strengthen in an unprecedented degree of the Chamberlains and the Halifaxes in their moves to isolate the Soviet Union." "In the name of the victory and our naval waters of all lands we call upon you to stop these trials and killings, to empty Soviet prisons of workers now languishing in them and restore the U.S.S.R. its rights as the vanguard of humanity marching towards a free, classless society and to the better day of Socialism."

41st Meeting Of Diocesan W. A. Yesterday

The 41st annual meeting of the Diocesan Board of the Women's Auxiliary opened with divine service in St. Paul's Anglican Church, Charlottetown, yesterday morning. The Rev. H. D. Raymond, assisted by Rev. Canon Malone, Rev. B. Fream, Rev. Harri-Davies, Rev. E. R. Bridgewater, Rev. C. Lancaster. Other clergy present were Rev. V. Spencer and Rev. W. J. Phillips.

Special speaker was Rev. G. R. Harrison who took as his theme the W. A. motto: "The love of God, the love of man and the love of the world." He said the night before our Lord suffered. He looked at the apostles and said "Ye are My friends." One can imagine the Divine Lord on the cross looking down at His mother and the beloved disciple and murmuring, "My friends." So as He looks on the Woman's Auxiliary one may hear Him say, "Ye are My friends."

The roll call showed all parishes represented. There was a large attendance of members from city branches. Mrs. H. D. Raymond extended a hearty welcome to all present. She said, "We are all co-workers—servants of Christ, and our task is to fulfil His command 'Go ye and be witnesses'."

Mrs. Moore of Kensington, in her reply to the address of welcome said it is always a pleasure to the country districts to attend the annual meetings for they are a source of inspiration and encouragement to carry on the great work.

Messages of greeting were received from the Dominion President and most of the bishops. The Rev. H. D. Raymond was a member from the Diocese of New Westminster and she extended greetings on behalf of that Board. The president then gave the annual address. Her words were ones of welcome to all those present. She then asked all to stand in memory of those who had passed to higher service during the year.

In reviewing the activities since the last annual meeting the president said all branches of work had been maintained, with some increase in the number of members. A new item has been undertaken by the Woman's Auxiliary—providing toys for isolated Sunday schools in the west. Full information on this work will be given when it is Mrs. Bell will pass it on to the branches.

In concluding the president said, "We need the missionary spirit of our members in order to keep our motto always before us." Reports of several departments of work were given at this meeting. These were all encouraging and showed lively interest in the work.

A most interesting address was given by Rev. Victor Spencer, M.A., of Nagoya, Japan. He said he was glad of the opportunity to visit the Rev. Edward Island, and to meet his prayer partner who resides in Kensington. The speaker said there are many problems connected with missionary work in Japan but he repeated that his work in the work. He said many new sects are being started and getting converts. Japan is ready to listen and waiting for something that will be truly satisfying. "We must show them Christ's religion—a religion of peace and love, not war, and teach them that man's first duty is to God. The new sects and may interfere in the Christian work. Will the Christians sit down willing to be suppressed or will there be martyrs for the Christian faith?"

Taschereau Deputy Called In Inquiry (C.P. by Guardian's Special Wire) QUEBEC, March 9.—Charles Lanctot, Deputy Attorney-General, will be called tomorrow as a witness before the legislative public accounts committee inquiring into public expenditures under the regime of the long-time Liberal government.

Lanctot, deputy to Taschereau all the years the former Premier held the portfolio of attorney-general, will be questioned regarding evidence given at a hearing in October, 1936, when a government auditor had deposited in his own name \$300,000 belonging to the province. Premier Maurice Duplessis announced in conclusion of a hearing he would summon Lanctot to explain testimony of Edgar Vezeina, provincial auditor, who claimed the deputy had "deposited over a period of five or six years a sum of \$300,000, which was deposited in the name of Charles Lanctot in trust."

Says Railways Appendage To Liberal Party BELIEVES GIRL SHOULD KEEP UPPER HAND

(C. P. by Guardian's Special Wire) OTTAWA, March 9.—The Senate today received notice from Senator F. B. Black (Cons. Saskatchewan) of a motion for the appointment of a special committee to investigate the railway problem. The regime of Sir Henry Thornton as President of the Canadian National Railways was described by Senator Meighen as a railway debacle.

As long as Governments continued to undo the work of their predecessors so long would the problem go unsolved, Senator Meighen said. Appeals to class prejudices thwarted attempts to get the railway out of politics and they were now back in the old rut of party patronage.

"I have lost a lot of confidence in the party ownership of anything," confessed Senator Meighen. No one was more disappointed than he. In England where a "healthier public opinion" prevailed, it had been found possible to amalgamate various railway systems, and this had been achieved without any displacement of labor. The same accomplishment could be brought about in Canada, if a similar healthiness of public opinion obtained. Senator Meighen was replying to a speech by Government leader Dandurand who spoke on the resolution of Senator C. B. Beaulieu (Con. Montreal) for immediate action on the part of the Government to solve the railway problem.

Senator Dandurand surveyed the story of the railway, recalling the various commissions appointed to investigate them. All had rejected unification as tending to the creation of a monopoly, which would be prejudicial to the interests of the people.

"We have never had the conditions under which the Canadian Pacific Railway would agree to unified management," said Senator Dandurand. Sir Edward Beatty, President of the C. P. R., had always asked there should first be agreement on principle with discussion of terms following.

Author Of Book To Make World Less Safe For Males Gives Formulae. By TED FARAH. Canadian Press Staff Writer NEW YORK, March 9.—Slender Hildegarde Dolson loiled in a chair in her Greenwich Village apartment tonight and affirmed that it is imperative for a girl always to "keep a lively white upper hand."

Miss Dolson is the fragile, ingenuous-looking author of a book on the unattached males, later in the unattached and -like-it; wake-up-and-live cycle. This one is called "How About A Man?"

Miss Dolson, a sort of stream-lined Dorothy Dix, not only puts her less effectively equipped sisters up to the nearest methods of persuasion but she tells them what to do after the male is caught, and the proper etiquette in case he subsequently should go running after the red-headed girlfriend.

She devotes a chapter to the live-white upper hand business. Briefly she explains that it means a girl should keep the balance of power so that she never is in a position of "begging" for a date or more attention. This takes some doing, it seems. Miss Dolson says she is 29 years old, although she could pass as a debutante. When she is asked if the material for the book came out of her own experience, she coughs slightly and explains: "I talked to a lot of men about it, especially when I was writing the chapter on matrimony."
