

FALSE TEETH ARE A GREAT INVENTION BUT KEEP YOUR OWN AS LONG AS YOU CAN

### Ten years too late... Most People Seek Protection

FALSE teeth are better than none, but if you prefer to keep your own don't wait for pyorrhea to make your gums spongy and swollen before giving your mouth the care it deserves.

A great British doctor is authority for the statement that many people actually have a pyorrhea condition in their mouths as long as ten years before the real havoc of this disease begins to tell.

As it progresses the gums soften, the teeth may loosen in their very sockets until extraction and false teeth are the last resort. Don't wait another day before taking protective action.

Go to your dentist twice a year

Everyone should pay a visit to his dentist at least once in every six months for teeth inspection. Between such visits start the habit now of brushing your teeth regularly twice a day with Forhan's Toothpaste. This scientific dentifrice was originated by R. J. Forhan, D. D. S., who for years specialized in the treatment of pyorrhea.

This toothpaste is unique in that it contains Forhan's Astringent, an ethical preparation developed by Dr. Forhan, which thousands of dentists use today in the treatment of pyorrhea.

A fine dentifrice for children

Even when gums are in the best of condition, Forhan's is a fine precaution. It is so pure, so mild, so free from harsh abrasives that it cannot do the slightest harm, even to the delicate tooth enamel of children. Forhan's Limited, Montreal.

False teeth often follow pyorrhea, which comes to four people out of five past the age of 40

### Ends Piles Quick

No Salves — No Cutting

Your itching, bleeding, protruding piles will go when you actually remove the cause—bad blood circulation in the weak, flabby parts—and not one minute before. Salves or cutting can't do this—an internal remedy must be used. HEM-ROID, prescription of Dr. J. S. Leonard, succeeds because it stimulates the circulation, drives out congested blood, heals and restores the almost dead parts. HEM-ROID has such a wonderful record right in this City, that Geo. E. Hughes says one bottle of HEM-ROID Tablets must end your Pile agony or money back.

MONTREAL, May 22—One of Montreal's landmarks, dating from the time it was a garrison city, is about to disappear, according to the declaration made recently by Ald. J. Allan Bray, chairman of the city executive

to the effect that the city is preparing plans for the expropriation of the old military cemetery in Papineau avenue. In Papineau military cemetery are the graves of veterans, some of them widely known, of past generations.

Among them is the tomb of Lieut. General Sir Benjamin D'Urban, a one time governor of South Africa, and in whose honour the town Durban in that country was named. He was Commander-in-chief of the forces of British North America at the time of his death on May 25, 1849.
