THE HARDIE MFG. CO. CHARLOTTETOWN SUMMERSIDE

THE ELMSDALE BETRAYAL

By J. C. Lewis

THERE is nothing in all the history of the Saunders government to date, so typical of its attitude toward the public as its flagrant, heinous, outrageous violation of the confidence of the people of Elmsdale and vicinity.

Probably there is no more progressive centre in any agricultural district in Canada. Here is located the largest and strongest branch of the Egg and Poultry Association, which has its headquarters in Charlottetown. Here also is the Elmsdale Shipping Club doing an annual business in the marketing of hogs and lambs running into the thousands of dollars.

In service last year was one of the very best Ayshire bulls in Canada, and in the stud to-day at Elmsdale, where he was foaled, and where he was always served, is the fastest horse ever raised in this Province.

The foregoing facts are mentioned, not in a boastful manner, but merely to show the reader that, after making all allowance for native pride, Elmsdale is on the agricultural map of this country.

Politically, its life, like many another rural centre, has been a turbulent one. In the past, it has been favoured upon by both great parties; it has been coaxed; it has been cajoled; it has been flattered. But it remained for Mr. Saunders and his satellites, to achieve the questionable distinction of wheeling the soul out of Elmsdale and then flinging it back as worthless because it had been so easily won.

Some time before the last session of the Stewart Government Mr. Tanton, Conservative member for this district, was asked by the farmers to try to secure for them a grant of \$500.00 to be used in aid of instituting a West Prince Exhibition.

A few weeks before the exhibition took place, Mr. Stewart came to the country on the issue of Government control. Mr. Saunders himself, was quite willing to come on the same issue, or, in fact, on any issue as long as he could thereby gain the Premiership, for Premierhips, my dear readers, are excellent stepping-stones to judgeships, and while the poor, half-starved judges of the Supreme Court are now forced to worry along on a miserable salary of nine thousand a year, they have been trying for a small range of six thousand, or eighteen dollars a day, giving them enough, as they say, to uphold their dignity, or about forty-five dollars a day. Now, Mr. Saunders considered he could maintain a great deal of dignity, if he were getting five dollars a day, he was more than willing to be about this time, however, he was paid a visit by a gentleman, the Rev. Mr. MacLeod, who told Mr. Saunders very emphatically that Prohibition was the stand for the Liberal leader, that, or the junk pile.

The people of Elmsdale and vicinity had been greatly interested in the campaign. True, they had always been a decent, hardworking class of people, not having much time nor inclination to meddle with outside affairs, and never realising, until told so by the preachers, that Government Control had ruined the majority of the Provinces of Canada. They had always believed that Ontario, Quebec and British Columbia were great and prosperous Provinces, and were willing to take a clergyman's word that this was not so. They began to sit up and take notice. Evidently, they had a lot to learn. Preachers, ordained and unordained, came to their homes, cried over their children, as they told in unctuous tones to the good farmers and their wives, the terrible fate in store for those children, if Government Control won the day. Messrs. Gordon and Blanchard swept through the district like avenging angels, exhorting and weeping. Mostly weeping. 'Twas easier than taking candy from a child.

After the smoke had cleared away, the churches cleaned out, and the Bible restored to its old place on the pulpit, people settled down and awaited, with a good deal of sagacity, for the coming of the millennium. They are still waiting. In the meantime, Elmsdale lost its exhibition. There are thousands of dollars available to buy tractors with to supply jobs for political heeled, but not one cent to encourage the rural communities. Since Shakespeare says ingratitude is a marble-hearted fiend, and since the deed of the act is at least deserving of as much opprobrium as the act itself, it must follow as the night the day (to quote Shakespeare) that there are a great many marble-hearted fiends in the local government.

'Queen Elizabeth' Receives Criticism

LONDON, June 13. — "Queen Elizabeth", a new history play by W. G. Hole, was produced recently at the Everyman Theatre after it had been refused by most of London's Theatre managers.

The drama goes to pieces half way through. The execution of Mary Queen of Scots, and Elizabeth's mental struggle between her desire to remove a cause of serious danger to England and her horror of being called a murderess make a telling climax. Elizabeth herself is well-drawn, but the scope of the drama does not allow any very subtle portraiture.

"The second half of the play is devoted to Elizabeth's infatuation for Leicester, but his character is poorly drawn. And several of the scenes especially a description of the Armada by a drunken sailor, break the action and hold back the interest. The play is written in decent blank verse, but it is not at all distinguished and is often a stumbling block to the action.

"Milton Rosmer has done wonders with the play, and I much admired the gradual fading out of the figure of Elizabeth at the end when she has heard of the death of Leicester. As to the acting, Nancy Price, Elizabeth had many good moments, but she was always Nancy Price. She was too intent on acting to be alive as Queen Elizabeth. Arthur Pusey's Leicester was too light and debonair and too young. Of the rest of the big cast Milton Rosmer's Burleigh was the most impressive."

The critic however says the play is well worth seeing.

U. S. Brook Trout Safely Transplanted

JASPER, Alta., June 13. — After a journey of at least two thousand miles the largest group of United States immigrants that ever settled in Canada has established its home in Jasper National Park during the week end 200,000 brook trout fingerlings all the way from Cresco, Pennsylvania, were placed in the waters of Maligne Lake. They came to Canada last winter as eggs aged for months they have been carefully nursed in a hatchery especially constructed here for them.

Herbert Davis one of the Park Warden, whose charge they watched them grow from eggs to fish, kept the cold water running at the proper temperature and when they were big enough to eat, fed them chopped liver. They were brought from Pennsylvania to Jasper by Canadian National Express and were transferred to Maligne Lake by pack horse wagon and automobile. There was no difficulty in these last 35 miles to keep the time in which they floated constantly moving and they made their journey without mishap. The water of the Lake was tested before they were lowered into it and they showed themselves acclimatized immediately. Oliver Bright of Dominion Hatchery at Fort Quappe, supervised operations and Warden Campbell kept watch over his pets until he saw them safe in their new home. The stocking of Maligne Lake with trout is one of the experiments being made here in glacial waters by the Dominion Government.

A Woman's Dream Runs Stock up

LONDON, June 11. — How a woman's dream sent the shares of the Channel Tunnel Company upward by 150 per cent was told at the annual meeting of the company held here the other day.

Baron Emile D'Eranger, the chairman, said a woman had a dream of the marvellous success of the company and next day instructed her brokers to buy heavily. The day after this became known the shares (which are of a 4s denomination) went up from sixpence to 2s 6d.

The company for building a Tunnel from Dover to France has been in existence for over 30 years. It has a capital of £2,000, but practically nothing has ever been done towards making the tunnel. The Committee of Imperial Defence has always pronounced unfavorably against the scheme, consequently governmental sanction has never been obtained.

Central Guardian

LADIES Gingham House Dresses. Special price 85c. Prowse Bros. Ltd. 5066-6-13-31

LADIES Indian Print and plain crepe dresses. Specially reduced to \$5.98. Prowse Bros. Ltd. 5066-6-13-31

CORNWALL SERVICES.—There will be services in the United Church of Canada on Sunday June 17th at Kingston at 11.00 a. m. West River at 3.00 p. m. and Cornwall at 7.30 p. m. These services will be conducted by Rev. T. A. Wilson, M. A. of Covehead. E. M. Aitken, B. A. Minister.

TO ATTEND ROTARY CONVENTION.—Mr. James M. Murley, Secretary of the Charlottetown Rotary Club leaves tomorrow for Minneapolis, Minnesota, to attend the International Rotary Convention, as the delegate from the local club.

DREDGE ARRIVES.—Dredge No. 2, Department of Public Works arrived in port yesterday at noon to assist in the construction work near the Hillsborough Bridge. The dredge sailed from Port Arthur about a month ago and was in Summerside on Tuesday.

APPOINTMENTS.—At a meeting of the Provincial Executive Mrs. Chauvin a former Supervisor was appointed temporary Supervisor of Women's Institutes till October 1st, Mr. C. A. Beer was appointed Fire Marshal, Vice E. H. Beer resigned and Mr. G. R. Holmes, Notary Public and Commissioner for taking acknowledgment of deeds, Mr. Malcolm Macdonald of Lorne Valley has been sworn in as High Sheriff for King's County.

READY-MULLINS WEDDING.—A very pretty wedding was solemnized at St. Dunstan's Cathedral Tuesday morning at eight o'clock by Right Reverend Monsignor Maurice McDonald, when Miss Mary Ready, only daughter of Mr. and Mrs. Edward Ready was united in marriage to Mr. Wendell Mullins, son of Mr. and Mrs. William Mullins. The bride, who was given away by her father, entered the church to the strains of the wedding march played by Mr. Albert Blanchard, and looked charmingly attired in white georgette with tulle veil caught with orange blossoms. She carried a shower bouquet of pink bridal roses and maiden hair fern. The bridesmaid, Miss Isabel Mullins, sister of the groom, wore shell pink georgette with hat to match and carried a bouquet of pink carnations and maiden hair fern. The room was attended by John Ready, brother of the bride. The ushers were Messrs. Alfred McKeamey and Michael Campbell. After breakfast at the home of the bride's parents, Mr. and Mrs. Mullins left on a wedding trip to the Annapolis Valley and other points in the Maritimes, followed by the best wishes of a host of friends. The bride's travelling dress was of old rose crepe de chene with white flannel coat and hat to match. Many beautiful presents of cut glass, china, linen, cheques, etc., testified to the popularity of the young couple. Among the number was a costly chest of silver from the employees of Prowse Bros., and a handsome cheque from the members of the firm, of which the groom is a valued employee. The Guardian joins in congratulations.

INSPECTOR DENIES THIRD DEGREE USED

LONDON, June 11.—Scotland Yard has denied today in the inquiry conducted this degree methods used by officers against Miss Savidge, the 22-year-old girl, in the 1927 Hyde Park shooting case. The inquiry was held by Sir Leo M. Collins who questioned Miss Savidge, who had previously denied that any undue pressure or handshakes were employed by him. He was emphatic in saying that she was entirely self-possessed and at no time appeared frightened or distressed.

PERSONALS

Mr. Willard Picketts, who has been seriously ill in the P. E. I. Hospital is slowly recovering.

Mr. J. MacDougall, Maritimes Manager of McKim's Ltd., Advertising Agency is at present in the province.

Miss N. Scott of Vancouver, has arrived on a visit to her home, 64 Pownall Street.

Miss Julia McMahon, formerly of Charlottetown, now of Saint John, arrived in the city last evening to spend a fortnight with Mr. and Mrs. Ray Pendleton, 5 Chestnut St.

Miss Alice Costello of Haverhill, Mass., motored to her old home in Green Bay in her new car. She was accompanied by her nephew, Fred Halloran, of Haverhill, Mass.

Miss Lena P. Eleumortier and Miss Eva H. Holmes, accompanied by a chauffeur, arrived in the city Tuesday, motoring from Eastport, Me.

Mrs. L. E. Prowse has returned from a pleasant visit with her daughter, Mrs. Harold Ritchie, in Ottawa.

Miss Julia MacMahon, formerly of Charlottetown and now of St. John, has arrived in the city to spend a fortnight with Mr. and Mrs. Ray Pendleton, 5 Chestnut Street.

Rev. and Mrs. D. E. Whitehouse, accompanied by their chauffeur, motored to the city from Berlin, N. Y., to spend a vacation in the province.

Mrs. Percy Landrigan and children left yesterday morning on a visit to Shediac. Mr. Landrigan accompanied them part way as he is a member of the rifle team which left for Halifax this morning.

Conservative Club

To Banquet Hon. R. B. Bennett

TORONTO, Ont., June 13.—Nearly one thousand tickets have been requested for the banquet to Hon. R. B. Bennett next Thursday, in the Crystal Ball Room of the King Edward, by the Conservative business men's club of Toronto. R. C. Mathews, M. P., President, will preside.

The head table will be reserved for the Presidents of the ward associations and members of the House of Commons. There have been a large number of requests from Women's Conservative organizations for tickets, but they are being advised that "this will be a stag party. It is possible that the Women's Conservative Association of Toronto will give a tea in Mr. Bennett's honor.

After the banquet, Hon. Mr. Bennett will meet the executive of the Toronto Central Conservative Association to talk over matters political and the local situation. On the last occasion of this character the executive sat mute and listened to a talk by the Rt. Hon. Arthur Meighen.

Crop Outlook Exceedingly Bright

MONCTON, June 11.—Rain was general over Western Canada again last week and as a result crop prospects are brighter than they have been for years. Areas which did not benefit from the heavy rains ten days ago, were visited by showers, making there is now sufficient moisture in the ground to last from ten days to two weeks, according to the sixth weekly crop report of the Canadian National Railways. Only two points report lack of moisture, one of these is Meacham, Saskatchewan, where there has been little rain fall since spring and the other is from Tappan toward low Alberta, where further rains would benefit.

Central and Northern Alberta, which produced excellent crops last year, are again looking forward to a banner season. These areas together with Manitoba have enjoyed ideal conditions and a reserve of moisture calculated to carry the crops through at least three weeks. While a number of points in Northern Saskatchewan and Southern Manitoba report some trouble with wild oats and that nowhere has any real damage been done to the growing grain. Wheat ranges from seven to ten inches above the ground, is strongly rooted and vigorous, with the exception of the locus. With the exception of the locus, where it was winter killed and has been removed to oats fall rye is thriving vigorously between Brandon and Kipling, fall rye is heading out. Cut worms and light frosts are reported from several points but have caused no damage and the general feeling is that conditions at the moment point to one of the greatest crops in record.

Prize Picture Puzzle

First Prize \$25.00 Second Prize \$10.00 10 PRIZES OF \$1.00 EACH SIXTH WEEK — BUT YOU CAN START NOW

The Competition is an easy one placed within everybody's reach by the publication in the first week's Charlottetown Guardian of the list of towns and villages, in which all the solutions are to be found. First Set appeared May 7th. Second Set May 14th. Third Set May 21st, Fourth Set May 28th, Fifth Set June 4th and Sixth Set below. Get the first Five Sets and start now.

Each picture represents the name of a town or village. Try your hand at solving them. You can check yourself by referring to the list of names. As you solve each picture in this Sixth Set write your answers in ink in the space underneath. Keep your Sets until next week, when we will give you the Seventh Set to solve, and so on for eight weeks in all. With the final set we will give full instructions for the sending in of entries.

Grid of 10 puzzle images labeled 31-40. Each image shows a different scene or object related to a town name.

There is no entrance fee. Rules which must be strictly adhered to. All solutions must be written in ink. Competitors may submit any number of attempts provided that each answer is written upon a separate coupon. Only complete series of pictures—i. e., Sets Nos. 1-8 inclusive—for each attempt will be accepted. Incomplete sets will be disqualified. Mutilated, altered or alternative solutions will be disqualified. No responsibility can be taken for delay or loss in the post or otherwise. Proof of posting cannot be accepted as proof of delivery. No correspondence can be allowed. Entries can only be accepted on condition that the Editor's decision is final and legally binding. In the case of a tie the Editor reserves the right to divide the prizes as he thinks fit.

New Readers

By ordering the first, second, third, fourth and fifth week's Charlottetown Guardian which contains the First, Second, Third, Fourth and Fifth Sets and the list of Towns you can start now.

- List of towns represented in puzzle form: Aden, Andover, Abneywood, Ashford, Ashwater, Ashbourne, Ashcott, Ashmont, Beasted, Barnstaple, Bagdad, Bouyp, Balkat, Borsay, Bearn, Broadstairs, Bacup, Blackwood, Boford, Bellevue, Belmore, Blackfeet, Bertham, Barmes, Battle, Burnham, Market, Bridgewater, Brookfield, Bridge, Bayhorse, Birds Hill, Catfield, Cokledge, Clock House, Cane Town, Coldstream, Cwediff, Cowes, Kele, Kenilworth, Kibbage, Kilmany, Kinswood, Clifton, Dye, Deal, Distant Hill, Eastchurch, Eagleside, Eagles Point, Lyochall, Ferybridge, Leadburn, Laphord, Ladysmith, Lucknow, Lymptone, Lockwood, Latchford, Longsight, Gatheshead, Goathland, Hart, High Brooms, Hassocks, Leashead, Hyde, Hardwar, Huncoat, Hatch End, Hawkshead, Harrow, Headcorn, Horsebridge, Highbridge, Hammersmith, Inches, Inverness, Idle, Ivybridge, Iron Bridge, Iron Springs, Jersey, Monkton, Middlewich, Motherwell, Maidstone, Maryland, Point, Kingsbridge, Kinghorn, Kidbrooke, Kildgrove, Knotty Ash, Lydd, Long Clawson, Nanthead, Nursling, Northwirth, Otterspool, Oldham, Oxenholme, Oxford, Oxshott, Pant, Pitsea, Parkgate, Poole, Plumtree, Paddock Wood, Port Elizabeth, Penistone, Pool Quay, Pipe Gate, Pyle, Quecnbury, Quarter, Quaker's Yard, Road End, Sheep Hill, Singleton, Skipton, Rock Ferry, Round Oak, Merivale, Ramsgate, Rapid City, Roman Bridge, Rothienorman, Ravenscar, Row, Silkstone, Runcorn, Rainhill, Reading, Rayne, Roade, Rams Head, Rockcliffe, Ryde, Sea Mills, Stairfoot, Stepps, Singer, Staines Street, Sirmalhaven, Sandford, Seaford, Scitile, Stoke Canon, Seven Kings, Sheepbridge, Shepherd's Well, Swine, Smyth Bridge, Sandside, Stone, Stoneywood, Sawtry, Staincross, Southend, Sandwich, Shankend, Springhead, Steep Road, Shoote Hill, Singleton, Skipton, Swansee, Sparrowee, Swiftourant, Shiplake, Steepoint, Saddleworth, Salfield, Sale, Silkstone, Stockingford, Swimbridge, Staple, Syston, Sparkford, Sway, Sittingbourne, Sparkbrook, Summer Seat, Trowel, Three Cocks, Twenty, Trench, Crossing, The Oaks, Triangle, Three Bridges, Tonbridge, Tipton, Taplow, Tyndrum, Topcliffe, Uphall, Velvet Hall, White Bear, Walsend, Walchet, Waterside, Wareop, Winslow, Woodend, Wigton, Wearhead, Woodford, Winchfield, Windmill End, Wool, Washford, Waterfoot, Winder, Witheall, Wistfield, Woodburn, War Boys, Wall, Waterside, Wall Grange, Whitegate.

effect on yields. It is desirable to obtain greater acre-yields and so to reduce the cost of production. The use of certified seed on many farms would double the yields now being obtained. The Division of Botany, Central Experimental Farm, Ottawa, will list applications for inspection, free of charge, of plots planted with Certified Seed potatoes, with a view to certification. Application must be made on the proper form provided, and be received for listing not later than June 15, in order to receive free inspection. Applications received after that date cannot be guaranteed inspection. Where possible, inspection should be granted late applicants, but only on their agreeing to pay all costs incurred by the inspector in connection with his visits. Application forms may be obtained from Mr. S. G. Peppin, Senior Inspector, Laboratory of Plant Pathology, Charlottetown, P. E. I., and will be accepted at the same address for listing for inspection. It is not the chief purpose of the Department of Agriculture to encourage growers to plant certified seed with a view to having their crops inspected for certification purposes, because every potato-grower has not the necessary patience and the time, or suitable location and equipment for growing certified seed. The object rather is to have growers plant certified seed obtainable for their commercial use and to help to keep down to a minimum destructive plant diseases with their resultant serious effect on yields. It is desirable to obtain greater acre-yields and so to reduce the cost of production. The use of certified seed on many farms would double the yields now being obtained. The Division of Botany, Central Experimental Farm, Ottawa, will list applications for inspection, free of charge, of plots planted with Certified Seed potatoes, with a view to certification. It is desirable to obtain greater acre-yields and so to reduce the cost of production. The use of certified seed on many farms would double the yields now being obtained. The Division of Botany, Central Experimental Farm, Ottawa, will list applications for inspection, free of charge, of plots planted with Certified Seed potatoes, with a view to certification. Application must be made on the proper form provided, and be received for listing not later than June 15, in order to receive free inspection. Applications received after that date cannot be guaranteed inspection. Where possible, inspection should be granted late applicants, but only on their agreeing to pay all costs incurred by the inspector in connection with his visits. Application forms may be obtained from Mr. S. G. Peppin, Senior Inspector, Laboratory of Plant Pathology, Charlottetown, P. E. I., and will be accepted at the same address for listing for inspection. It is not the chief purpose of the Department of Agriculture to encourage growers to plant certified seed with a view to having their crops inspected for certification purposes, because every potato-grower has not the necessary patience and the time, or suitable location and equipment for growing certified seed. The object rather is to have growers plant certified seed obtainable for their commercial use and to help to keep down to a minimum destructive plant diseases with their resultant serious effect on yields. It is desirable to obtain greater acre-yields and so to reduce the cost of production. The use of certified seed on many farms would double the yields now being obtained.
