Legion Branch Organized At Morell

A new branch of the Canadian Legion—No. 26—was organized at Morell last night. William Gaudet was elected president. Other officers include: vice-president, J. G. Black; secretary, Carl MacAdam; members of the executive, Ted Anderson, Jerry MacAdam, Freeman Webster, Lloyd Compton, Robert Coffin and Cecil Eldershaw. John A. MacDonald of Cardigan, the King's County Legion zone chairman presided. The following Legion members of Charlottetown also attended and assisted: J. S. Walker, Provincial President; T. E. McNutt, N. W. Lowther, Don Grant and A. H. Peake.

After the Morell Branch officers were elected they were installed by Mr. Walker. Then with the business completed the members of the new branch entertained the visiting comrades and served refreshments.

The meeting was held in Morell Hall.

Ch'town Kinsmen Officers Elected

Mr. A. Walther Gaudet, barrister, was last night elected president of the Charlottetown Kinsmen Club at the Club's regular dinner meeting at the Charlottetown Hotel. Other officers elected to hold office on the executive were:

1st Vice President: Keith MacKinnon.
2nd Vice President: Ivan Sinclair.
Secretary: Brenick Sears.
Treasurer: Roy MacLean.
Historian: George Ayra.
Directors: Dr. L. Duffy, Ernest Lord and Ray Archer.
Honorary members elected: Lt.-Col. K. S. Rogers, Lt.-Col. W. W. Reid, D.S.O., Gordon Foster, Mac Irwin, Ralph Cameron.

Mr. Gaudet has been a member of the local club since its charter night in 1938 and served as Vice-President this year as well as acting president since the transfer of Otto H. Rose from the Canadian Bank of Commerce branch here to the branch at Kingston, N. S. in June 1945.

Due to a resolution passed at the national convention of the Association of Kinsmen Clubs of Canada held at Banff in September, the Kinsmen year shall now run from September 1 to August 31, rather than follow the calendar year as heretofore. Thus the new executive elected last night will serve from January 1, 1947 to Aug. 31, 1947, at which time a new slate of officers to be elected next June will take over for the succeeding year.

Last night's meeting was purely a business one with no speakers on the program as is usual. Ernest Lord presided while Barry Bugden was welcomed into the club as a new member. There was nearly 100 per cent attendance on hand. A box of delicious apples received by the club from former President Otto Rose now at Kingston, N. S. was distributed and enjoyed by all present.

Famous "Time Ball" May Find New Home

WALTHAM, Mass., Nov. 21 (AP)—The famous "time ball," used for many years at the Greenwich, England, observatory to signal 1 p. m., may find a new setting in Waltham.

Greenwich observatory, damaged by German bombing, is being dismantled and officials of the Waltham Watch Company have asked for the time ball for the purpose of installing it atop one of its factory buildings.

At Greenwich, the time ball was raised to the top of the observatory at 12:55 p. m. daily and permitted to "drop" at precisely 1 o'clock. Countless numbers set their watches to the exact second by the signal.

Development Work On Fido Is Dropped

LONDON, Nov. 21 (Reuters)—Development work on Fido—the wartime system of fog dispersal at Aldermaston—has been stopped owing to its cost and doubt that it will be much used in peace. It was stated in the House of Commons today. Radar, radar and instruments more likely would be used for the purpose.

Coming Events

- Show, Eldon, Monday.
- Moves at Borden to-night.
- Movies at Victoria tonight.
- Poultry sale at Holman's, Saturday, Nov. 23. Auctioneers C.W.L.
- Poultry—Buying daily live and dressed hogs Nov. 23. Market price. Davis & Fraser Ltd.
- Come to Cornwall, York Point Institute Poultry Sale at Holman's, Friday afternoon, November 22nd.
- Delivering Wheat Flour, Milled Barley Meal, Oats at Flour, George McDonald.
- Institute Dance, St. Patrick's School, Lot 22, Friday, November 22nd.
- Hunter River farmers, looking dressed hogs Nov. 23. Market price. Davis & Fraser Ltd.

- St. Andrew's Credit Union will hold its Annual Meeting in St. Andrew's School, Monday, November 25th. Resolutions are requested to attend.

Poison Responsible For Hunters' Deaths?

By Irving Whynot

BRIDGETOWN, N. S., Nov. 21 (CP)—Royal Canadian Mounted Police, investigating the deaths of Brooks Salsman 19 and Rupert Forsythe, 46, whose bodies were found here yesterday after a 13-day search, have been ordered to work on the theory that the Wolfville, N.S., hunters died from poison, it was learned here today.

The two-man Bridgetown detachment has been bolstered by four officers, two from the Criminal Investigation Department. They will continue the probe as directed by a coroner's jury which last night adjourned until Dec. 4 after viewing the scene where the bodies were discovered in the woods six miles from this Annapolis Valley town.

Clue To Mystery

Dr. L. P. Braine, Annapolis county coroner, said a clue to the mystery had been found near the bodies and now is in the hands of the R.C.M.P. It was known how he did not say whether this clue was the bottle of liquid found at the scene but he admitted that such a bottle was found and that it contained liquor not purchased from the Nova Scotia Liquor Commission.

Some of the contents of the bottle, about one-third full, burst into flame when tested with a lighted match. Woodsmen who conducted the search said they believed the bottle contained moonshine.

The contents were sent for analysis by R.C.M.P. experts. But police refused to say what might have been in the bottle or to suggest possible causes of death.

Mr. Molotov, the day Dr. R.F. Smith, provincial pathologist, arrived here to conduct an autopsy on the bodies. He made no statement afterwards and it was not expected his findings would be disclosed before the coroner's jury resumed the inquest.

Judging Is Completed At Fox Exhibition

The 16th annual live fox show came to a close at the Exhibition Grounds yesterday afternoon. It was one of the most successful in recent years, for although the entries or exhibits were not as numerous as in previous years yet there was a greater variety of new-type foxes and these created quite a bit of interest.

The Standard Platitudes Extra Light Adult Males was one of the first classes shown in the morning. It had a high entry list and was won by S.R. Johnston, D.O. Stewart winning the Adult Female and S.R. Johnston the Pup Male. Many were surprised that so few extra light platitudes could be shown, as these had made quite a large class in previous years. Just why the change is not known, unless it was because the pup male class was also won by S.R. Johnston. The Pearl Platitudes class that found few entries a few years ago, were right to the fore yesterday. S.R. Johnston won the Adult Male Light Class from ten other entries. J.R. Lockerby won the Adult Female in the same class from eight entries. Mr. Lockerby also won the Pup Male Class from eight entries, while T.G. Ives with Ives Ladv 172A topped 13 other entries in the Female Pup Class.

Extra Light Adults had only one entry in each, the male section going to T.G. Ives and the female to S.R. Johnston. The Pup Male Class Ives—again—scored with Ives 98A. He also won the Female Pup Class with Ives Ladv 98A.

Bevin Pleads For Peace Guarantee

By Clyde Blackburn

LAKES SUCCESS, N.S., Nov. 21 (CP)—Britain's burly foreign secretary, Ernest Bevin today pleaded with the United Nations to build up an armed security council that could "guarantee" the peace for 100 years.

On behalf of his government Mr. Bevin rejected the Russian proposal for a "four big powers" arrangement. He said his two resolutions, for arms curbs and disarmament, should be taken together, a stand the Russians so far have opposed.

Mr. Molotov and his associates listened closely as the British foreign secretary told of the price Britain had paid for disarmament and urged a "wholehearted" effort now to work together "in confidence and honor."

If this (Russian) resolution on arms curbs is taken as a single contribution we cannot accept it," Mr. Bevin said. "We will go along if the whole thing is taken together."

Earlier Mr. Molotov had argued that for the present the chief necessity, because of its "political significance," was for a disclosure of details on the forces and bases maintained abroad by the major powers.

Communists Win Romanian Election

BUCHAREST, Nov. 21 (AP)—The Communists, it appeared likely tonight, may take over in their own name the leadership of the Romanian government following the government bloc's overwhelming victory in Tuesday's parliamentary election.

An official communiqué said the government bloc—which includes the Communists, the Peasants' Front, Socialists and Disinherited Liberals—had received more than two thirds of the 6,823,928 votes cast.

Final results included: Government bloc, 4,760,630 votes; Jullu Manlu's National Peasants, 879,927; Hungarian Popular Union, 568,651; Constantin Bratianu's National Liberals, 299,206; National Peasant Democrats, 156,785; Independent Socialists, 65,528.

A total of 1,144,786 registered voters did not go to the polls.

Explains Changes In "Small Holding" Projects

(By The Canadian Press)

OTTAWA, Nov. 21 (CP)—The recent change in the Veterans' Loan Act increasing acreage requirements for "small holding" projects was made because the plan "unfortunately went off the rails" and became a vehicle for obtaining urban housing," Maj.-Gen. H. A. Young, vice-president of the Central Mortgage and Housing Corporation said today.

He told the Ontario Retail Lumber Dealers Association that "various troubles" had arisen. While the Department of Veterans' Affairs was pressing for decisions on small holdings applications, municipalities had been asking the corporation to approve projects near urban centres.

So the arrangement had been put back on the rails with the decision to increase the acreage requirement from 1/4 acre to as much as three acres.

There had been some adverse publicity but in general the new plan was working well.

Housing Shortage May Last Five Years

(By The Canadian Press)

OTTAWA, Nov. 21 (CP)—Canada's housing shortage started in 1930 when peak annual production of about 1,300 units began to wane and it probably will be "four or five years more" before present needs are filled, Maj.-Gen. H. A. Young, vice-president of the Central Mortgage and Housing Corporation, said today.

Gen. Young told a meeting of the Eastern Retail Lumber Dealers Association of the difficulties faced by the crown company he represents.

Shortage of construction in the '30s was the start of the present problem," he said. "By 1936, when construction in Canada was less than half of that in the United States and Britain. Migration of war workers had accentuated the shortage and the return of service men had meant a further complication. Present

Lewis Charged But Coal Strike Continues

WASHINGTON, Nov. 21 (AP)—A federal court cited John L. Lewis on a contempt charge late today but he made not the slightest move to call off the strike of 400,000 soft coal miners.

Justice T. Van Giesborough of the Federal District Court here issued the citation. It ordered Mr. Lewis to appear Monday at 10 a.m. and show cause why he and his Union should not be punished. If convicted after a trial, the Union might be fined and Mr. Lewis sent to jail, to stay until he yields.

Some hours after the order was issued, it had not yet been served on Mr. Lewis. Theoretically it was possible for him to avoid the action by staying at his Alexandria, Va., home, since the summons must be served in the District of Columbia, but officials said they were confident he would not do so.

Justice Department officials said arrangements have been made to serve the paper at United Mine Workers headquarters here tomorrow and that they "feel sure" the miners' leader will be available.

Lewis To Fight?

The general expectation was that Mr. Lewis would go into court Monday battling hard against the contempt charge.

One report of strike violence came at the end of the day from Welch, W. Va. L.J. Brindley, prosecutor's investigator, said two Union officials were shot as they tried to induce the operator of a small mine to close it. Officials have said that troops will be sent into the coal fields if necessary to maintain order.

Many Atomic Energy Problems Unsolved

(By The Canadian Press)

WASHINGTON, Nov. 21 (AP)—The Manhattan Project reported tonight that radio-activity's menace to life remains one of the great problems to be surmounted in harnessing atomic power to the needs of the power industry.

Maj.-Gen. Leslie R. Groves, chief of the United States Army project which directed manufacture of atomic bombs and which now is an agency of the Atomic Energy Commission, noted that present research efforts are toward using heat developed from an atomic pile for the operation of conventional steam or gas turbines.

"Although there is a remote possibility that in the future some of the energy available within the atom may be released directly through a medium other than a heat engine, such a device is not at present known," he said.

Under current research nuclear fission "is simply a new fuel" used in a conventional manner. Any thought that the solution to the problem of power generation from nuclear energy was solved when the first atomic bomb was exploded "has no basis in fact," said Gen. Groves.

Canada Studies German Scientific Development

(By Douglas How)

OTTAWA, Nov. 21 (CP)—Many of the triumphs of German industrial and scientific progress are under study in Canada and it is the prediction of official sources that some of them may eventually have a considerable effect on Canadian methods in various fields.

So far there has been virtually no penetration of domestic industry but officials of the National Research Council and the Reconstruction Department forecast that this may come to pass.

The study is a re-percussion of the visit to Germany last year of a team of some 35 Canadian experts representing the council, industry and universities and paralleling similar teams from the United States and Britain. Its chemists, physicists, electrical engineers, biologists and other personnel came home, some of them after a five-months stay, with numerous samples of equipment and pieces of information.

They came from heavy machine

Judge Critical Of Toy Guns For Boys

MONTREAL, Nov. 21 (CP)—Judge T. A. Fontaine, in sentencing two men today for attacking a taxi driver, said "there should be a law prohibiting the manufacture of toy revolvers and automatics."

Eugene and Charles Leo Bourassa were each sentenced to a year in jail. They attempted to rob the taxi driver with a toy revolver. One told the court he purchased it for his three-year-old son.

Addressing the spectators in court, Judge Fontaine said: "That's the way it is today; such toys are allowed to be made, parents purchase them for their children and in so doing unintentionally promote crime... there are other types of playthings that could be made for children which would be healthier for their young minds than toy revolvers and automatics."

TRINIDAD BUILDING GUTTED

PORT OF SPAIN, Trinidad, Nov. 21 (CP Cable)—Just days away from completion, Trinidad's new \$500,000 Planning and Housing Commission building was gutted by fire here today. Many documents, including records, surveys and accounts for building projects in the colony, were saved.

AIR SCHEDULE

Charlottetown—Moncton—Leave Charlottetown 8 A.M., 11:20 A.M., 5:15 P.M.
Arrive Charlottetown 6:55 A.M., 1:35 P.M., 5:55 P.M.
Charlottetown—Halifax—Leave Charlottetown 1:45 P.M. arrive Charlottetown 4:55 P.M.
Charlottetown—New Glasgow—Leave Charlottetown 7 A.M., 1:45 P.M. Arrive Charlottetown 11:11 A.M., 5:15 P.M.

CAR FERRY
"PRINCE EDWARD ISLAND"
Leave Borden at 9:05 A.M., 1 P.M. and 4:30 P.M.
