Sciatica Vanishes Instantly If Nerviline Is Used

CAN YOU BEAT THIS CASE?

No ordinary liniment will even relieve Sciatica. Nothing but the most powerful kind of a remedy can penetrate through the tissues and finally reach the Sciatic Nerve. You can always depend on the old-time "Nerviline." Nothing made today is as good for Sciatica as Nerviline was when first produced, about forty years ago. All this time the same old "Nerviline" has been curing Sciatica, Lumbago, Rheumatism, and is considered to be without an equal in relieving pain or soreness anywhere. "Nerviline" couldn't be made stronger or better," writes James E. Edwards. "The way it cures Sciatica is to me simply a miracle. For years I suffered frightfully. I ruined my stomach with internal dosing. I rubbed in gallons of oils and liniments—none were strong enough. One good rubbing with Nerviline relieved. I kept on rubbing and shortly was cured. My father cured rheumatism in his right arm and shoulder with Nerviline, and my mother cured herself of chronic lumbago with Nerviline. Our family simply swears by Nerviline and we are never without a 50c. family size bottle in our home. We find that for external pain, for coughs, colds, carache, such minor ills it is a veritable family physician."

On Saturday night the members of the Palmer Road Farmers' Institute waited upon Rev. Dr. Gauthier, in the hall there and presented him with a well-deserved and highly complimentary address accompanied by a purse of upwards of \$200, in recognition of his many services to the institute and community generally. The Rev. Doctor, who was taken by surprise, made an appropriate reply, acknowledging the assistance he had received in his work and the hearty co-operation on the part of all classes in the community which had resulted in the marked progress of the district in an agricultural way. The address was as follows:

Reverend dear Sir:—Your fellow workers in the Palmer Road Farmers' Institute approach you on the present occasion with feelings of gratitude the result of your earnest endeavors in our behalf covering a period of ten years.

Your advent found us a community backward in an agricultural way, which you immediately started to correct. Following the example of the illustrious Pontiff who occupied the Papal throne at the time you looked to the material uplifting of your people as an assistance to their spiritual evolution. Among us are men who are not of your faith, but who cheerfully bear testimony to the earnestness and temporarily to a degree that has no parallel in this Province, during your short incumbency.

Enumeration would be tedious, and facts if stated would savor of flattery; suffice to say that you have made the name of the Palmer Road Farmers' Institute known and respected wherever agricultural subjects are spoken of in this broad Dominion. As a feeble expression of our appreciation we ask you to accept this purse, and at the same time pray the Giver of all good that you may be long spared to aid us with your presence and counsel.

Palmer Road.

A CANADIAN SIGNALLER.—Much praise has been given Canadian Signallers for their efficiency and work done at the front. The following is an incident reported, which goes to show the stuff they are made of, and in this instance won a decoration for the brave boy. "Without waiting for an order, a young Canadian leaped over the parapet in broad day unrolling a new reel of wire as he ran like a deer through a perfect hurricane of shot and shell. How do these men escape. We saw him mend and break, and on his way back the beggar actually stepped in leisurely style to repair another. We held our breath, expecting each moment to see him drop. But he didn't. He came back unharmed, and flung aside the empty reel with a careless "I think it is all right now. Let's try it."

HOGS AND SHEEP.—For the last two or three days the Island papers have contained advertisements for light hogs for shipment to the pork packing houses of Ontario. Early in the season the Wm. Davis Company sent their representatives to the Province to see what could be done in this trade. He met with considerable difficulty in getting transportation for them across the straits and it was only through the good offices of Capt. Cameron that anything was done at all. A space large enough to accommodate one hundred and eighty hogs was set apart in the Empress. The first week only one shipment was carried; the second week two shipments and last week arrangements were made for three shipments. Mr. Marquis, the representative of the Wm. Davis Co., was delighted with the quality of our hogs, and the firm which he represents reported back to him that the first shipment arrived in good condition and were equal to Ontario Selects. Mr. Marquis is very enthusiastic regarding the prospects of trade for his company when the Car Ferry is in operation. He says that quite a number of hogs coming into the market are too heavy. Their firm wants them well fleshed at from 150 to 200 lbs. He is also very enthusiastic over the quality of P. E. Island lamb. It is easily the best in Canada, and when the Car Ferry is in operation it will be possible to make up a car load of hogs and lambs the end of August or the first of September and put them on the Toronto market when the price is at its best. This should induce the farmers to raise more hogs as well as more sheep. There is no doubt but that these two classes of live stock are most profitable on the farms and the good prices that are now prevailing and are likely to prevail in future should be an incentive to every farmer to produce all he possibly can.

A PERFECT SMOKE

Tobacco satisfaction is hard to attain for the discriminating smoker. If you are as particular about having the best as we are about making it, you should compare a

POLO BLOCK TOBACCO

with the brand you usually smoke—Nothing will do so much to convince you of its superiority.

"Polo" is unquestionably the best flavored smoke—burns longer—holds its fire better—is sweeter and more fragrant than most pipe-tobacco. It makes your old "corn-cob" taste like an expensive calabash.
