

Rallying Call Sounded For New Loan

Nothing Matters Now But Victory

Objective greater than ever before
But Islanders expected to uphold
And surpass notable record.

"Nothing Matters Now But Victory" is the rallying call, the slogan, that will re-echo across Canada from coast to coast, and around every fireside in Prince Edward Island, with the opening of Canada's Third Victory Loan a week from Monday next.

Sunday, October 18th has been designated as Victory Loan Sunday when the ministers of all denominations will be asked to lead their congregations in the concert of the war thus far; and impressive dedicatory ceremonies will be held in Charlottetown and other larger centres on that afternoon, with the military forces taking an outstanding part, at which all citizens will be urged to pledge their full support towards making the undertaking an overwhelming success.

At each of these opening ceremonies an actual Commando Dagger will be the important feature. The Commando Dagger has been chosen as the dramatic symbol of the Third Victory Loan and each community on reaching its objective will dispatch its Commando Dagger to some particular military unit which represents it overseas. Prince Edward Island has always been the forefront in attaining its War Loan objectives. This time the goal set is higher than ever before—one and three quarters millions of dollars to be wholly subscribed within the Province—and in addition the Province will be allotted a proportionate share of the national subscriptions of large organizations and companies which have branch establishments or do business here. But while the amount is immense the objective is attainable. Each and every one will want to do their full share. It will and must mean saving and scrupling and stretching—doing without all the unessentials—"For Nothing Matters Now But Victory."

The selling of the bonds will begin on October 18th. Preparatory work has been going on for weeks and throughout next week will be intensified.

Prince Edward Island will have a very complete and very enthusiastic group of workers as the following partial list of sponsoring organizations and working committees demonstrates. They will be on their toes till the finish bell rings and will assuredly have the full assistance and cooperation of record without any of the top-Prince Edward Islanders from East Point to North Cape.

Reviews Work Of Dependents' Trustee Board

Squadron Leader G. W. Dunn, Ottawa, executive secretary and member of the Dependents' Board of Trustees, Department of National Defense, Ottawa, visited Charlottetown yesterday and met the Provincial Advisory Committee of the Board, which is headed by Col. H. D. Johnson, M.D.

Problems affecting the dependents of members of the armed forces from this Province were discussed at length. Squadron Leader Dunn expressed much satisfaction with the work of the Committee. In a press interview, he explained that the Dependents' Board of Trustees is a body of public funds, and also the interests and welfare of service men's dependents. They are "trustees" in the sense of the term. The requirements for supplementary assistance from the Board are: dependents must be in receipt of dependents' allowances; they must be dependents of members of the service forces of the Province; and there must be evidence of need. These requirements being met, assistance is given not as a charity, but as a matter of right.

The provincial committee of the Board consists of ten members from various parts of the Province. Their work is done without remuneration. They have been instrumental in bringing many deserving cases to the attention of the authorities.

Potato Crop Shows Increase Over Last Year

OTTAWA, Oct. 9.—(CP)—The Dominion Bureau of Statistics, in its first estimate of the production of late crops, today estimated the Canadian potato crop this year at 43,047,000 hundredweight, almost 4,000,000 hundredweight above the 1941 production of 39,052,000 hundredweight.

Other production estimates in today's crop report were: Commercial sugar beets, 701,000 tons compared with 711,700 in 1941; turnips, mangolds, etc., 31,658,000 hundredweight compared with 35,400; fodder corn, 4,323,600 tons compared with 4,153,800; alfalfa, 2,935,000 tons compared with 2,728,800.

The potato estimate of 43,047,000 hundredweight represents the highest production for the Dominion since 1934 when a crop of 48,090,000 hundredweight was harvested.

The 1942 yields in Prince Edward Island are "notably better" than a year ago, while the Nova Scotia and New Brunswick yields are also heavier. In Quebec and Ontario the crop is slightly under 1941, and below the average yield for these provinces. The Manitoba potato crop is giving "the same yield as in 1941," while Saskatchewan and Alberta are digging the best potato crops in many years. The British Columbia crop is practically unchanged from a year ago.

Pasture conditions at Sept. 30 were appreciably below average in Nova Scotia and New Brunswick, and just slightly below average in Prince Edward Island, Quebec and British Columbia. In the Prairie Provinces and Ontario, pastures were better than usual at this date.

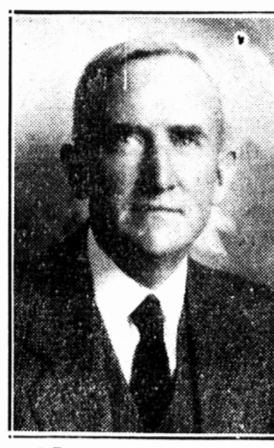

The production of potatoes this year was from 505,900 acres compared with 507,100 in 1941, yields per acre of 85 cwt. and 77 cwt. respectively. By provinces the production in hundredweight is estimated as follows (1941 figures in brackets): Prince Edward Island 4,773,000 (3,192,000); Nova Scotia 2,496,000 (1,887,000); New Brunswick 6,414,000 (5,738,000); Quebec 10,980,000 (11,475,000); Ontario 1,076,000 (1,570,000); Manitoba 2,810,000 (3,150,000); Saskatchewan 4,485,000 (2,585,000); Alberta 2,708,000 (1,950,000); British Columbia 1,495,000 (1,498,000).

Family Worship Most Necessary Speaker States

SAINT JOHN, Oct. 9.—"Family worship must be restored in every home," said Rev. E. A. Thompson of Toronto, speaking before the closing session of the Synod of the Maritime Provinces of the Presbyterian Church in Canada, last night in the Church of St. John and St. Stephen.

He urged that the church set out on a crusade against the forces of evil now rampant in the world. "The teachings of Christ are positive, he said. We must be ready to make an offensive against the powers of darkness, casting off all timidity and inertia, knowing that in the power of God there is nothing that is impossible."

He spoke of the glorious past of the Church of God, when it stood against strong creeds and vanquished the heretics of the day. Men like Livingstone, who gave their lives that truth should be made known to darkened corners of the world.

"Men must either be governed by God, or they will be ruled by tyrants," said Rev. Mr. Thompson, quoting the famous words of William Penn. He said that the church must be ready to storm the battlements of Hell in a great offensive.

Willkie Safe Despite Jab Bombing Effort

By J. REILLY O'SULLIVAN (Associated Press Staff Writer) WITH THE CHINESE ARMY IN NORTH CHINA, Oct. 9.—(AP)—The Japanese have failed again in what appears to have been a determined effort to get Wendell Willkie.

Thirty-five Japanese planes bombed the Home Province City of Lichang yesterday and machine-gunned a railway coach on a siding there which evidently they believed was the one carrying President Roosevelt's personal representative on his tour of the North China battle zone.

Six witnesses were on the stand yesterday as the hearing of Clarence Sanderson, charged with hit and run driving, continued before Stipendiary Magistrate G. T. Tweedy. The case was further adjourned until Thursday next.

Sanderson Trial Adjourned Until Oct. 15

Those testifying yesterday were Cyril Bir, Peaker's Station; Elsie McEwen, Morell; Allen Martin, Charlottetown; Floyd Johnston, (re-called) Murray River; Raulston Johnston and Doran Hynes (re-called).

Mr. Lester O'Donnell appeared for the accused while Sgt. K. W. Engel, R.C.M.P., handled the case for the prosecution.

and St. Stephen for the courtesy extended during the meetings here. The organist and choir were congratulated on their splendid contribution to the impressive devotional services.

The moderator, Rev. Dr. Samuel Rev. Allen MacLean, Harvey Davies, presided at the closing session. N. B. on behalf of the church and the Rev. Dr. Frank Baird of Charlottetown, N. B. was the clerk of synod.

Much War Work Done By C. W. L.

During the six months between April 1 and Sept. 30 a large quantity of war work was completed by the various Catholic Women's League groups in Charlottetown, working under the Red Cross.

Head's supplies distributed from every window brought thousands of troops of a Canadian armored division to camps of southern England from ports where they landed after a quiet crossing from Canada.

Glads to get their land legs again, the men whom Mal-Gen. F. F. Worthington commands soon made themselves at home in barracks already waiting for them. Without even pausing to plan for the landing leave awaiting them, they asked: "When are we getting going?" "Getting going" to these men meant resumption of training which the Atlantic crossing interrupted. They all wanted to know the tank strength of their division and look for their old friends who preceded them here to find out whether the tanks are similar to those on which they worked in Canada.

Several Canadians said their only wish was that "we will be part of that force which is going to open up the second front which we hear so much about."

More Canuck Troops Reach British Camps

SOMEWHERE IN ENGLAND, Oct. 9.—(CP Cable)—Long trains with soldiers hanging from every window brought thousands of troops of a Canadian armored division to camps of southern England from ports where they landed after a quiet crossing from Canada.

Glads to get their land legs again, the men whom Mal-Gen. F. F. Worthington commands soon made themselves at home in barracks already waiting for them. Several Canadians said their only wish was that "we will be part of that force which is going to open up the second front which we hear so much about."

The tanks came from many parts of Canada, but the majority was from the east. Many units were represented for in addition to the National formations there were reinforcements drawn from a score of battalions still in Canada.
