INSIDIOUS EYE STRAIN

We use this adjective advisedly. Sufferers from Eyestrain may have perfect vision and therefore do not suspect the presence of any eye defect.

The motive power of the whole human organism is eye energy.

Normal eyes, it is computed, utilize about 20% of this eye energy, but when eye strain is present, a much larger proportion is required.

Have your eyes examined. G. F. Hutchesson, Optometrist.
