Roy Phillips, Kensington, performed an act of humanitarianism, import that challenges admiration. Five minutes after he had received the call, he with his Buick motor ambulance was on his way to answer a call. The patient was Mrs. Louis O'Connor, Chelton. She had been seriously ill, and the doctors advised immediate removal to the Chelton Hospital. Instantly Mr. Phillips was summoned, and, as stated, made his trip to her home, had the patient with the assistance of nurse and doctor, comfortably pillowed in the ambulance, and placed in the Hospital, in an almost incredibly short space of time. This ambulance is capable of supplying a service equal to what is given in large cities.

Give freely When your Children Cry for It. Mothers, who take one simple precaution, are seldom worried. With a bottle of Fletcher's Castoria in the house they can do what their doctor would tell them to do, when baby is fretful, feverish, colicky, constipated or stuffed-up with cold—give a few drops of this pure vegetable, pleasant-tasting preparation. It comforts Baby and soothes him to sleep in a jiffy. Use it freely—and as often as needed, specialists advise. A more liberal dose is all it takes to comfort and relieve older children when feverishness, bad breath, no appetite, colds, etc., show they need a good purgative. The mark of genuine Castoria is the wrapper. Look for it to avoid imitations.

LONDON TIRES OF THRILLERS. Theatre gods of London are becoming fed up on thrillers, declare the critics, who have been protesting for some time that chill-producers have had their day. There also has been a protest against the American brand of shockers. According to one writer "spines are becoming contemptuous" of shots, bricks and corpses.
