FURTHER PARTICULARS OF MULLINS CASE

(Continued from page 1.) They hurried him into a carriage and with him went a dress suit case that he had carried. The man protested. It availed nothing. Then he lost his courage entirely and sank back in the vehicle, saying hardly a word until the station was reached. When the dress suit case was after-

Loss of Appetite

No Ambition. Lack of Energy. Dyspeptic, Lanquid.

Under the beneficent action of Ferrozone core is quick and certain.

How common these conditions are! They are the outcome of fast life of our day, proving that waste is immensely greater than the power of our body to rebuild.

In order to cure, first reconstruct the blood—change white cells to red ones, fill the blood with nourishment—do this, and the result will be in your case just as it was with J. E. Vanborne, a prominent citizen of South Alexandria. Four years ago my health became very poor, I grew thin and yellow. I wasn't strong, lacked energy, and slept poorly. At breakfast I ate very little. My physician said it was a bad case of indigestion. I grew worse, and many said I would die. I tried everything and almost lost faith in medicine. My mother had been reading about Ferrozone and advised me to try it.

IMPROVED IN FOUR DAYS.

"The change brought about by Ferrozone was marvellous. In four days I felt stronger and had better appetite. I enjoyed my meals and felt no more nausea. My digestion improved steadily and my general health continued better than ever. Ferrozone made a new man of me and I know of no tonic has so good."

FEROZONE CURES INDIGESTION
When you take Ferrozone everything you eat tastes good—all your food is converted into nourishment that supplies vigor and strength to blood, nerves, muscles and heart. Can't you see just why Ferrozone cures? Not a case of weak stomach, heart palpitation, indigestion, gas belching, headache or languor that Ferrozone won't cure. It agrees with men, women, children, old and young, harmless and pleasant. Sold everywhere, 50c. per box or six boxes for \$2.50, at all dealers. Try Ferrozone—do so today.

"A FREE PRESCRIPTION."

It is a well known fact as spring approaches, it becomes absolutely necessary if health is to be maintained to make a complete change of diet or more strictly speaking something must be added to our bill of fare to nullify and counteract the tendency to biliousness accruing from a meat diet.

It is a significant fact that the doctors are advising their patients to use celery largely, but it must be remembered Doctors like Lawyers do not give advice free. We expect a large consignment of celery to arrive this week and advise not only the sick but the well to use celery if obtainable, the old adage.

"Preventive is better than cure" come in here.

MILLINERY OPENING LAST NIGHT

The millinery opening of James Paton & Co., which took place last evening was a most successful affair in every way. The whole building from top to bottom has been repainted, and owing to the large increase of rural orders a new office has been built wherein that branch of the business will be attended to.

An extensive showing of new silks was made, most of them being of satin finish, and self striped. Dress goods of all descriptions predominated, and ruffs mostly with broad flat effects were placed in a prominent position.

All over laces, fancy collars, new automobile veils, and Easter gloves were daintily arranged.

Silk net and muslin waists received a goodly share of attention, and the fancy gingham, and striped organdies formed a strong feature of the exhibit.

The millinery display naturally proved the chief point of interest and jet trimmed, black and colored straw hats looked very nobly. Regarding shapes the close fitting full egg crown mushrooms and the Russian large turban proved most popular. The shades were most artistic and drew forth much favorable comment.

Every person who attended was pleased with the efforts and ingenuity of a firm who have always been noted for their magnificent display.

OVERFLOW OF QUEEN'S COUNTY

The only word which can fittingly describe the floral exhibit of James Tait, Juror, is Fairyland. Upon entering the premises one finds oneself surrounded by flowers and plants of every description, some mere buds, and others in the perfect beauty of full bloom. The Easter Lilies and the Lilies of the Valley are worthy of special mention being exceedingly beautiful. Daffodils, Narcissus, Tulips and Hyacinths can be seen in the very pink of condition, and the green house is full of ferns, acaecias and other ornamental foliage plants. The display of cut flowers includes, Roses, carnations, lilies, lilies of the valley, violets, daffodils and tulips. Today, Friday and Saturday will be show days, and an invitation to pay a visit to this place of beauty is extended to all the citizens of Charlotte-town.

P. E. I. CLUB WAS ORGANIZED

A. P. E. I. Club has been organized in Seattle, and will doubtless be a great success, as Provincialists are noted for their enterprise abroad as well as at home. The officers of the ensuing year are: President, Alex. McDonald; Vice-President, Rev. C. S. McKinley; Secretary, B. L. Woodside; Treasurer, Dr. W. G. Moore; Physician Dr. D. Nicholson. "The club meets the second and fourth Tuesday of each month" says one of its prominent members "and lets me here extend an invitation to any member of your club or any P. E. Islander who can make it convenient to meet us and if we cannot show you the ost congenial, happy club you ever met, call me—Our entertainment committee, Mrs. A. J. Sharp, Mrs. Dr. Moore, W. W. Toombs, H. P. Worth and A. Wilson. The mention of their names is a guarantee that whatever goods they go after they are going to produce; hence the very pleasant evenings we enjoy in our club-rooms. Although less than two months old, we have a membership of sixty, which we hope to double when we become better known. Until the formation of the P. E. I. Club, there were former friends in Prince Edward Island living in this city unknown to each other, who had not met for 15 to 25 years. Just imagine such surprise, and we had quite a few of such to hand out. Therefore, we predict many pleasant meetings in the future for the members of the P. E. I. Club."—Maple Leaf, Oakland, Calif.
