

SERVICE TO THE NATION DEMANDS GOOD HEALTH

War is bringing home to every man, woman and child the fact that service to the nation is not a matter alone for the soldier and sailor and munition worker.

There is work, necessary work, for everyone to do, in the way of the production and distribution of the goods which are essential. Each one must be doing his part and progress is slow if any one is lagging.

The most common complaint during these days is indigestion. It is a sign that the system is not working properly. It is a sign that the system is not working properly. It is a sign that the system is not working properly.

The quickest and surest relief from indigestion is a treatment with GIN PILLS. GIN PILLS are the tested specific for the relief of the kidneys. Anyone who wishes to perform his or her full duty to the nation in these strenuous times will benefit from backache in GIN PILLS.

Cost by all dealers—50c a box, or 0 boxes for \$2.50. Money back if you are not satisfied. Free sample on request to National Drug & Chemical Co. of Canada, Limited, Toronto, or to 125 St. St. Buffalo, N.Y.

WEDNESDAY

SPECIAL MEETING CITY COUNCIL.—A special meeting of the City Council was held last night for the purpose of considering a revision of the by-laws and taking into consideration a number of matters laid over from previous meetings. The full council was present and good progress was made. A number of clauses which the government will be asked to amend having been disposed of.

A P. E. I. SCHOONER.—Having discharged her cargo of molasses at the Black and White wharf, the schooner Albarata moved on Sunday to Silver's wharf where she will be for the West Indies, says the Halifax Herald. The schooner "Albarata" shifted from Silver's, where she has been all up all winter. Lo Central wharf to finish discharging her cargo of potatoes which has been in her hold since she arrived here from Prince Edward Island.

Many in this city will regret to learn of the death of Mr. James Quinn which occurred at the P. E. Island Hospital yesterday morning. The funeral will take place today at 8.45 a. m. to St. Dunstan's Cathedral, thence to the Roman Catholic Cemetery. Mr. Quinn was fifty-two years of age; he was well known through out Charlottetown and was a quiet, unassuming citizen. He was friendly with all and although suffering from ill-health for some time past, yet he bore his afflictions cheerfully and was kindly regarded by all. He had gone to his reward, after having done "the best he could in his lifetime."

The death occurred Saturday evening of one of the oldest and most respected citizens of Grand Tracadie in the person of Mr. Michael Ready.

The deceased who was 84 years of age resided in Corran Ban for the past fifty years and was known as a land mark of old standing noted for his kindness and hospitality to strangers passing through that part of the country.

His funeral which took place this morning to Corran Ban Church where High Mass of Requiem was sung by his pastor Rev. Fr. Murphy was very largely attended testifying to the high esteem in which he was held by his neighbors.

Besides an aged widow he leaves to mourn two daughters, Mrs. John Abbott and Miss Margaret at home.

THE BRITISH RED CROSS ACKNOWLEDGMENT.—Col. S. R. Jenkins has received a letter from Mr. Robert Hudson, chairman of the finance committee of the British Red Cross Society, stating that he has just received particulars of the response made by Prince Edward Island to the "Our Day" 1917 appeal for funds and he conveyed to Dr. Jenkins and through him to the members of the Prince Edward Island branch and to the organizers and workers concerned, the deep gratitude of the British Red Cross Society and the Board of St. John, for the generous and welcome help they thus received to wards their work for the sick and wounded of the Empire and her allies. It is as he feared, they shall be compelled again this year to appeal to the Prince Edward Island branch, he sincerely hoped that they would again commend the appeal and give to the all-essential support of their influence.

ENTERTAINMENT AT KELVIN.—A very enjoyable lecture and entertainment was held at Kelvin on Monday 8th April under the auspices of the Ladies Red Cross work of Kelvin. The meeting was opened by the following program. Remarks by the Chairman, Mr. Robert McMurdo; Chorus by the choir; Solo by Mr. Hugh Morrison, Kensington, endorsed; Pectitation by Marion Casley; Solo by Mr. Lyndal Sample, Kensington, endorsed; Chorus by the choir. Mrs. Hugh Morrison acting as organist for the evening. The program concluded the speaker of the evening Rev. T. W. Goodwill of Kensington was introduced to the audience by Mr. Robert McMurdo. The Rev. gentleman chose for his subject some serious and important features of the war both present and past. At many points in the course of his address Mr. Goodwill referred to the pieces of the Holy Scriptures with the great events that are transpiring at the present day. In all it was a most instructive and interesting address and the Chairman voiced the sentiment of all present when he heartily thanked the speaker for his splendid address. At the close of the address a large number of boxes of home made candy was auctioned by Mr. Hugh Morrison, which was quickly purchased by the large audience present. Notwithstanding the fact that the building was packed the best of order prevailed and a snug sum was collected which goes towards purchasing yarn to knit comforts for our boys at the war. The meeting closed by singing "God save our splendid men."

IS PROUD OF HER FINE LITTLE GIRLS

Why Madame Pepin is Grateful to Dodd's Kidney Pills
Quebec Lady Tells How Her Children Were Cured of Childish Weakness and Made Strong and Well.

St. Honoré, Chicoutimi Co., Que., April 19.—(Special)—"I have two fine little girls, thanks to Dodd's Kidney Pills, and I can't tell how grateful I am."

It was out of a full heart that Madame Pierre Pepin, a well-known resident of this place, uttered these words when she gave Dodd's Kidney Pills to my two little girls," she added "and now they sleep well and do not wet the bed. They are perfectly cured."

Whether or not kidney disease is hereditary, the fact remains that many children suffer from weak kidneys that are unable to do their full work of straining all the impurities out of the blood. The result is that many parents whip their children, when what they really need is a remedy for their kidneys. Dodd's Kidney Pills have been used in Canada for over twenty-five years as a kidney remedy. If you don't know of the great work they are doing, ask your neighbors.

THE ISLAND RED CROSS AMBULANCE.—The Red-Cross Ambulance, donated by Prince Edward Island is still doing excellent work at the front. In fact, it carried no fewer than 296 lying cases and 34 sitting cases, or an average of seven per day for the month of January.

SOLDIERS COMING.—Miss Nellie Gillispie, Secretary of the Returned Soldiers' Commission, received the following telegram yesterday from Halifax dated 16th, which announced that M. Green, Notify J. W. Green, Montie McKinnon, notify Hugh McKinnon, Neil Taylor notify Joseph Taylor 76 Chestnut Street, Sydney, Edward, Sydney Street, were leaving that day for their homes.

THE SABLE I.—Steamer Sable will be delayed a few days in getting away from Halifax on her first direct trip to St. John's, Nfld., it having been discovered, just when she was ready to sail, that her propeller is loose, no doubt, caused by the ice on her sealing trip. Half a day on the marine railway at Dartmouth will suffice but she is obliged to wait for the cradle now occupied by the steamer Stanley.

NEW RED CROSS COMMISSIONER.—Col. the Hon. S. R. Jenkins, M.D., Honorary Secretary of the Red Cross here has received a telegram from Col. Noe Marshall, Toronto, intimating that Col. D. Baylock has been appointed Chief Commissioner Overseas in place of Col. Hodkett's resignation. Colonel Baylock has had considerable experience in France and has earned a great reputation for organization and executive ability.

KILLED IN ACTION.—The sad message was received by Mr. and Mrs. J. McCoubrey, Summerside, on Saturday stating that their son Roy had been killed in action. Private McCoubrey enlisted with the reinforcement of the 10th Batt., about a year ago, leaving for France last Nov. with the 26th Batt. He leaves two brothers besides his parents, one sister, Mrs. Morris and a sorrowing wife to whom is extended deepest sympathy.

HOME FROM ENGLAND.—Major Louis McNutt and Mrs. McNutt were among the passengers who arrived at Halifax from England Monday. Major McNutt who has been on service since the beginning of the war, went on to Montreal and Mrs. McNutt is expected to arrive here on Thursday evening as the guest of Mr. and Mrs. E. McNutt, Grafton Street. Mrs. E. McNutt left yesterday for Halifax to meet her and accompany her to Charlottetown.

SOLDIER REMEMBERED.—The many friends of Mr. Raymond O'Halloran of Campbellton, Lot 4 met at the home of Mr. Michael McMillan, Elmfield St., on the eve of his departure for Charlottetown to go to a training camp and presented him with a handsome wrist watch as a token of the high esteem in which he was held. Ice cream and cake were served by the ladies present, and the remainder of the evening was spent in singing Patriotic songs, music and recitations. A large number all dispersed to their homes wishing Raymond a safe and speedy return.

THE GASOLINE DANGER.—What might have been a disastrous fire was narrowly averted on Saturday evening at Mount Herbert. Mr. Ernest Mutch was operating his gasoline engine in his barn when suddenly it broke into flames. With great presence of mind Mr. Mutch pulled off his coat, and wrapped it round the blazing engine, somewhat smothering the flame. As he was alone, and finding it impossible to extinguish the blaze which threatened to fire the barn, Mr. Mutch tried the "backfire" method, which he had learned from a half a ton outside, where with the help of some near neighbors the fire was put out. It may be noted that during this last winter two barns have been burnt from similar causes, and it may perhaps interest the farming community to know just how this particular fire occurred. On starting the engine, after 2 or 3 explosions it missed fire and consequently "flooded." Mr. Mutch held the air valve open while he expelled the oil, and the fire (contrary to all his experience in the past 5 years) flashed out of the air valve and ignited the oil on the body of the engine. It was suggested that these engines are better operated from the outside of the barn, or if this is not possible, the operator should make sure that no inflammable material, such as chaff, etc. is lodged about the engine, and that it rests on a concrete rather than a wooden foundation.

On April 9th, 1918 there passed away from the excruciating pains of this life Elizabeth Laving, aged 62, beloved wife of Mr. Mark McGillivray, of Cardigan parish. For about a year she had been suffering from what the doctors pronounced "cancer of the stomach" and in spite of their learned skill and the tender affectionate care of her husband and daughters, she gradually succumbed to the dread ail disease. Mrs. McGillivray was a bright, well-educated and refined lady. As a school teacher she won laurels which few others can claim. Invariably did she win the love and affection of the pupils and invariably the school she controlled was the better for her being the mistress of it. Her marriage life was so well passed—a faithful wife, as "true as gold" and a mother tender and affectionate. She guided her children in the way they should go, as long as they were under the maternal control. At her bedside during her sickness her pastor was frequently round and administered the last sacrament a few days before her death. The funeral took place on Wednesday, April 11, to All Saints' Church, Cardigan, when the pastor, Rev. Dr. Bernard Gillis, offered up the Holy Sacrifice of the Mass, and performed the services at the grave, when all that remained earthly of a good wife and a tender hearted mother was consigned to the dust, to await the judgment call. She leaves to mourn their loss a fond husband, and the following daughters: Mrs. Mary Mahar, Guysborough, N.S., Mrs. Andrew Bernard, Chelsea, Mass., Mrs. Henry Arsenault, Egmont Bay, Miss Charlotte, Chelsea, Mass., and Miss Isabelle, at home. May her soul rest in peace.

Where Life Itself Depends On A Clean Shave

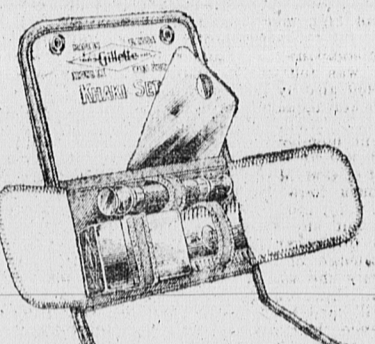

The man who faces a 1918 gas attack with a mask that does not fit quite tight, comes out a casualty—if he comes out at all! Even a two or three days growth of beard under the rubber facing of the mask will let in gas enough to be dangerous—it can be fatal!

That's why clean shaving means more to our boys than comfort—more even than morale—it means life!

Keen as our own troops are on shaving, our American Allies are going us one better. Every soldier under the Stars and Stripes will be supplied with a Safety Razor.

What about your Soldier boy? Has he a razor that will give him a clean and comfortable shave right in the firing line, where his life depends on perfect protection?

The one razor that has stood every test of active service is the Gillette. It does a quick, clean job anywhere. The men who are Gillette-equipped swear by it—and the rest envy, or borrow! Until your boy gets a Gillette Safety Razor, his personal equipment is not what it should be?

Gillette Set No. 19 Khaki Soft Roll-Set

GILLETTE SAFETY RAZOR COMPANY OF CANADA, LIMITED, Office and Factory: Gillette Building, Montreal.

Have You Ten Cows?

To every farmer and dairyman, the Dominion Government gives the following advice: If you own ten or more cows, install a Mechanical Milker and save labor, time, money and drudgery.

EMPIRE MILKING MACHINES

Have been tried, tested, and proven for three years by the Government and are now installed in the Experimental Farms from coast to coast.

Don't worry about the hired men you can't get—install an Empire Milking Machine, it will do the same work as the men milking by hand and in the same time.

Easy to operate, economical and doing the work with uniformity, the same at every milking—Empire Milk-ers will solve your labor problem.

Write us for special testimonials and information.

FROST FENCE FIRST

There are four important things that should be considered by every person when buying fencing this season.

- 1st—The reputation of the manufacturer.
- 2nd—The quality of his product.
- 3rd—The value.
- 4th—The length of service.

The higher the manufacturer's reputation the more jealously he guards against anything that would tend to injure it. A manufacturer with a continent-wide reputation for integrity, square dealing and the highest quality of his products, such as has been attained by the Frost Steel and Wire Company, is always eager to maintain his position as the leader in his line. The Frost reputation and leadership insures a safe fence investment to the buyer.

No other fence-maker in Canada or any other country puts more downright quality into his fence than the Frost Steel and Wire Company. Frost Fence is not made of ordinary commercial wire. We buy the raw material and draw it

into Frost Full Gauge No. 9 Hard Steel Wire. We put that elastic "give-and-take" into it that has made Frost Woven Fence famous for the strains it will bear. We also put that coat of pure zinc spelter on the wire that makes Frost galvanizing stand the Canadian weather as no other fence has ever been able to do.

Frost Fence has always been sold at a price that is eminently fair considering its superior quality. Frost Fence could be sold for less money if we used ordinary commercial wire and ordinary fence locks, and rushed it through the factory in place of weaving it slowly on our special machines, so that every stay stands up straight and true and the splicing between wires is always absolutely accurate. Every dollar invested in Frost Fence is a dollar wisely invested—one that buys years of service.

Many thousands of Frost Woven Fences have been erected in Canada. If you could see a Frost Woven Fence that has been doing service for several years and note how little it has been affected by the stress of weather and the strains of bearing cattle, you would have conclusive proof of the enduring quality that the name "Frost" stands for. Write and ask us for dealer's name and a copy of our fence catalogue showing styles for every farm fencing purpose, including ornamental fence and gates.

A style for every purpose.
