LIQUOR BARRIER IS DOWN AT U. S. PORTS.

WASHINGTON, Oct. 30.—Pending a final interpretation of the statute by the Supreme Court, probably late next month or in December, enforcement of the U. S. prohibition law under the rule holding it to prohibit possession of liquor on foreign ships within U.S. territorial waters will be withheld, according to the indicated policy of administration officials.

It was after the decision to defer enforcement of the law as construed by Attorney-General Daugherty had been formally communicated to Associate Justice Brandeis, of the Supreme Court, yesterday, that he denied the writ of superseas sought by various shipping lines to stay enforcement of Federal Judge Hand's decision at New York dismissing their petition for a permanent injunction against application of the Volstead Act.

This decision was announced by Secretary Mellon in a statement explaining a formal order issued to customs officers and prohibition agents under which foreign ships are permitted to continue to carry liquor within American territorial waters under seal as heretofore.

Makes a Family Supply of Cough Remedy

Really better than ready-made cough syrups, and saves about \$2. Easily and quickly prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2 1/2 ounces of Pinex, pour it into a 16-oz. bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is 16 ounces of really better cough syrup than you could buy ready-made and saves easily \$2. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma, there is nothing better. Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs. To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

A HOT FOOT RACE.— An interesting exhibition of speed was given at Montague a few days ago by a prominent professional citizen, whose long-windedness has hitherto been appreciated only in the political field. A close second was another older and even more prominent professional citizen and from his exasperated and determined aspect it would appear that the race which extended from the Post Office to McLean's Hotel, was the outcome of a disagreement rather than a sporting bet. At all events, no blood was spilt.

SOURIS NOTES.

C. Milligan, Summerside is in Souris on business. Halloween Supper Souris—The Halloween tea given by the ladies of the Presbyterian church on Saturday evening was a big success. Quite a sum of money was realized and everyone went home feeling that Halloween should be a daily visitor instead of once a year. They reported a rough passage.

lous accident happened at Bridgetown when a sedan with one passenger skidded and hit the end of the bridge. The car was considerably damaged but no harm was done the driver. WINNEPEG, Oct. 30.—A gang of nine robbers made an unsuccessful attempt to loot the branch of the Royal Bank at Pipestone, in southwestern Manitoba. It is reported that information had been received that a robbery was planned and that a posse of armed citizens and constables was waiting for the bandits when they attempted to break into the bank premises through the back door. Shots were exchanged and the robbers fled, making good their escape, presumably in motor cars. Previously they had cut all wires leading into the town, and it is difficult to secure definite information on the occurrence.
