Two Noses

Nature never produced two blades of grass, two peas, two flowers, exactly alike. So in the physical kingdom, no two ears, eyes or noses, are precisely similar. Thus, in fitting "nose-glasses," each guard must have a distinct adjustment in order that it sets easily, securely and comfortably. Our Optical work excels in that we give these "little things" the same particular attention that we devote to the proper fitting of lenses.

Shall the MIGHT of the German Millions trample RIGHT underfoot?

Shall the Handful of Prussian Militarists who have already trampled the people of the German Empire underfoot Dominate the World at a Crisis Like This?

TEN PLAIN QUESTIONS to the People of PRINCE EDWARD ISLAND

1. If the lives of our Empire's finest manhood are not too precious to be spared in the campaign against Germany, is a Canadian Dollar so precious to be spared?
2. Do you seriously believe that you will reap any blessing by withholding that dollar or quarter which your conscience tells you you owe to your Country now?
3. We went to War with Germany because she said MIGHT WAS RIGHT, and trampled Belgium underfoot. DO YOU propose to allow the MIGHT of the German millions to trample Right underfoot? Do you propose to allow a handful of men who have militarism or the brain to dominate at a crisis like this—to jeopardise the destiny of the British Empire in order that their accumulation of gold shall go on undisturbed whilst millions of our best men are throwing their all into the balance?
4. Are you banking upon the good influence of the King's magnificent lead in voluntarily stopping intoxicants during the War to check the serious delay drink is causing in the manufacture of war material? Granting that his Majesty's noble example will be promptly followed by every loyal subject who has command of himself, do you seriously suggest that the money thus saved will be of any benefit. If you refuse to contribute what it represents to keep the boys at the front.
5. If the FULL STRENGTH of the Empire is imperative to crush German militarism, why do you hold back your contribution to the comfort and relief of the brave men who are sacrificing their all for you?
6. Do you seriously believe that you will reap any blessing by withholding that dollar or quarter which your conscience tells you you owe to your Country now?
7. Which would present the greater difficulty, the rebuilding of the trade after the war, if suspended in the meantime, or the rebuilding of the British nation and the re-establishment of British prestige if our cause should be lost through your lack of promptness and generosity in contributing to the comfort and relief of the hungry and wounded soldiers in the battle line.
8. Is it possible that interested parties have led you to believe that the War will soon be over, notwithstanding the costly advertising for recruits, the registration of women workers, and the new appeals for every available man to help in the production of war material?
9. Since the best men among us have cheerfully sacrificed the comfort and security of their homes for the wretchedness and peril of the trenches—since mothers have given up their sons, and wives their husbands, can you seriously doubt for a moment that the country is READY to sacrifice of its means cheerfully in order that the Britons shall be free? When a War tax was levied it was paid without a murmur. Were we asked to walk barefooted in the roadway to help the boys in the trenches we would do it willingly and gladly. At what do you value our patriotism in hesitating to call upon us to sacrifice a dollar for an Island Field Kitchen and Ambulance?
10. Are you aware that every little counts in carrying on a great War and that the sentiment behind a gift of this kind will be of infinitely more work than the intrinsic value of the gift?
