Big Chaplin Feature
At Prince Edward

"A DOG'S LIFE" is the title of Charlie Chaplin's latest laugh-maker now being shown in three big chapters at the Prince Edward Theatre. This comedy is the first picture that Chaplin has turned out under his new \$100,000 contract with the First National Exhibitors Circuit. Close to eight weeks were required to film the story, and while it is a trifle longer than the usual subject, forty thousand feet of celluloid were used in carrying out the idea. It is the star's original creation. Chaplin has extended himself to the utmost degree of his ability with the result that he has produced a swift-moving vehicle filled with rapid-fire comedy situations, with added touches of pathos, creating a wholesome and human story.

At the opening of the story, Charlie is awakened from his outdoor sleeping quarters in a fence-corner by the tantalizing odor of steaming viands offered for sale by a passing hot-dog vendor. This leads to a number of

Girls! Girls! Try It!
Stop Dandruff And
Beautify Your Hair

Hair stops falling out and gets thick, wavy, strong and beautiful

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a small bottle of Knowlton's Danderine from any druggist or toilet counter for a few cents.
