Meeting Of Summerside Trade Board

The Summerside Board of Trade held its regular quarterly meeting last night, the president, Mr. J. F. Arnett, presided. Reports were brought in from various committees.

Mr. Hancock stated that some progress had been made with the proposed fox show for Summerside and further details would be given at the next meeting. Donald Baker spoke for the agricultural committee, that there was some activity in that direction and he hoped to see the exhibition revived. Mayor Robinson replying to question regarding celebrations for Coronation Day said that he was waiting for some announcement from the provincial government as to what would be done.

Mr. H. T. Holman gave an interesting report on his attendance at Charlottetown in connection with the economic survey of P.E.I. John Campbell, reporting for the marine department, stated that he expected the improvement of the good Wharf would be started shortly and that plans were under way to install a pump to have a sufficient supply of fresh water available for all steamers. The usual amount of shipping is expected but charters were high this year.

Mr. W. E. MacDonald moved that the board of directors be congratulated on the improvement of the palace and also to express the board's appreciation of his assistance at all times in public welfare activities. Following the regular meeting a presentation was made to Mr. Beron E. Robinson, editor of the Pioneer on behalf of the Board of Trade music committee and the Town Council. Mr. Arnett in calling on Mr. Hancock to read the address and make the presentation congratulated Mr. Robinson on his promotion but voiced his regret at his departure. Mr. Robinson had taken an active interest in the town and it was with a better for it. Mr. Hancock read the address which was signed by Mayor Robinson, President Arnett and Lowell Hancock.

L. B. Crue, President of the band read an address from the boys which was accompanied by a suitable gift. Others voicing their regret at Mr. Robinson's departure were Mayor Robinson, councillor MacKay, H. T. Holman, John Campbell and Mr. Chaisson.

In replying Mr. Robinson was almost overcome by the wonderful sendoff he had been given. He had never been in a town where he had felt so much at home and he would always look back on Summerside as a happy home. Three cheers and a tiger was the parting shout in winning the cup, they had the honor of being second place in the finals. Keep the good work up boys.

Ancaster Girds New King with Historic Sword

(By Thomas T. Champion)
(Canadian Press Staff Writer)
LONDON, March 31—As Lord Great Chamberlain, the Earl of Ancaster will have special duties in connection with the presentation of the regalia when the King and Queen are crowned at Westminster Abbey on May 12.

The Lord Great Chamberlain is the sixth great officer of state, the office being hereditary since the grant by Henry I to the family of De Vere, Earls of Oxford. To this office falls the presentation of the Golden Spurs, emblems of knightly chivalry, with which the King's heels are lightly touched.

There is also the presentation of the sword in a scabbard. "Receive the sword about the King," says the prayer book, "brought now from the altar of God, and delivered to you by the hands of us, the bishops and servants of God, though unworthy," the Archbishop of Canterbury will say. The Lord Great Chamberlain will then gird the sword about the King.

The present Earl of Ancaster will be 70 in July. He succeeded his father in 1910. He was in the House of Commons for a number

Dr. Wood's NORWAY PINE SYRUP
The Cough That Sticks
The Cough That Hangs On
This is the cough it is hard to get rid of, the kind that bothers you during the day and keeps you awake at night.
Why not get a bottle of Dr. Wood's Norway Pine Syrup and see how quickly it will relieve you of this coughing condition. It acts promptly, going straight to the foundation of the trouble, loosening the phlegm, soothing the irritated air passages, strengthening the bronchial organs.
Your druggist will recommend "Dr. Wood's". It has been on the market for the past 44 years.

Ancient Thames Regains Glamour For Coronation

(By Thomas T. Champion)
(Canadian Press Staff Writer)
LONDON, April 1—Recalling centuries of British history when the Thames was the highway of travel through London for the barges of both great and humble, the murky old river will bear heavy traffic Coronation Day in accordance with established customs of the crowning.

Several peers and other officials of state are preparing to make the journey to Westminster by way of the Thames, hiring launches to convey them from up-river points to Westminster Pier, which lies almost immediately under the clock tower of the Houses of Parliament, and about 300 yards from the Abbey.

This practice was followed by several peers and others at the coronations of King George V and King Edward VII, and incidentally they saved themselves a drive through the crowded streets, with the chance of being obliged to take a much extended route.

Peers and persons will wear their coronation robes when they make the journey by water. On landing at Westminster Pier they will proceed through the subway which leads directly to the Houses of Parliament. From the House of Lords it is only a few steps across the road to the Abbey.

Of especial interest to many Londoners and their visitors will be the opportunity which is to be afforded of viewing the 30 warships of the Home Fleet to anchor in the Thames coronation week. The vessels will stretch from "the Pool" to practically the mouth of the river. Six battleships will be berthed off Southend—H. M. S. Nelson, flagship of Admiral Sir Roger Backhouse, Commander-in-Chief of the Home Fleet, and the Rodney, Royal Sovereign, Ramilies, Royal Oak and Resolution. The aircraft carriers Courageous and Fearless; the net-layer Guardian with various miscellaneous naval craft will form part of the fleet.

The cruiser Southampton, flagship of the 2nd Cruiser Squadron, the cruiser Newcastle and two destroyers will be seen off Gravesend. The Newcastle and Southampton are the latest additions to British cruiser strength, and will be making their first public appearance. Three submarines will be at Tilbury and various other craft at Greenwich, Erith, Woolwich and Greenhithe.

—The "floating hotels"—the liners and steamships upon which several thousands of visitors will be accommodated during coronation week—has already been worked out by the Port of London Authority. Most of the larger vessels will lie in Gravesend Reach, and probably the guests will also make the way towards the West End of London by river smallcraft.

CALGARY—Depression's corner is definitely rounded, says Fred S. Bailey, and his barometer are the products he sells—baby carriages. "We are selling 'em by carloads in the West," he said, "instead of just a few at a time as in other years."

HALIFAX, April 1—Arguments of oil company counsel against a bill designed to give the Nova Scotia Public Utilities Board power to fix the wholesale price of gasoline in this province was before a committee of the legislature tonight. The act proposed by Highways Minister A. S. MacMillan would give the board full control of the price of gasoline throughout Nova Scotia.

Queen Bess Made Peculiar Rights For Abbey Deans

(By Thomas T. Champion)
(Canadian Press Staff Writer)
LONDON, April 1—Special functions fall to the Dean of Westminster at the Coronation service on May 12. The Deanery of Westminster is what is known as a "Royal Peculiar," meaning that the Dean is responsible to the King alone, and does not acknowledge jurisdiction of any Bishop over himself or the other clergy of Westminster Abbey.

For ten years following the dissolution of the monasteries, Westminster Abbey was the "cathedral" of a Bishop of Westminster but Queen Elizabeth finally placed it under an independent Dean and Chapter, whose successors rule today. The endowments, incidentally, of this bishopric were diverted to St. Paul's Cathedral—hence the old saying "robbing Peter to pay Paul."

—Presenting the anointing and the presentation to the King of various pieces of the regalia it will be the Dean's duty to vest the King with the Armill and Royal Robe. "Armill" really means a bracelet, an ornament which has been specially associated with monarchs from time immemorial. King Saul was wearing one when he was slain in battle.

Nowadays "Armill" is a kind of stole. The royal robe corresponds to a chasuble or cope, and is ornamented with golden eagles symbolic of the sovereign's Imperial authority.

It is the Dean's duty also to bear the crown when the Archbishop of Canterbury moves from the High Altar to King Edward's Chair, where the Archbishop "reverently puts it upon the King's head."
