

Important Provincial News of the week for Saturday Subscribers

FRIDAY

The Earl Grey arrived in port yesterday from Pictou about eleven o'clock with thirty passengers one hundred boxes of mail and two cars mixed freight.

The following new names have been added to the membership roll of the Anti-Tuberculosis Society, each paying the fee of \$1. Dr. Blanchard, Mr. Blanchard, Mrs. Sterling, Mrs. W. D. Coffin, Mrs. A. B. Warburton, Mrs. Alex. McDonald, Miss Peole, Mrs. Murray, D. C. McLeod, Leith Brecken, Chas. Lyons, D. J. Riley, and W. J. Brown.

Yesterday morning the Earl Grey arrived in this city about eleven o'clock making remarkably fast time on the trip. She encountered a considerable quantity of ice on the way over. The Minto crossed from Georgetown to Pictou this morning and the usual trips will be made, the Earl Grey leaving this port and the Minto crossing to Georgetown.

This day forty-seven years ago, January 14th, 1863, James Chandler, brother of our esteemed citizen, William Chandler, lost his life while ice boating on the Hillsboro River. The funeral cortege was one of the largest ever seen in Charlottetown being under the auspices of the Volunteer Militia and of the Sons of Temperance. The following is copied from the Island Minstrel published at the time by the Island Bard and gifted poet John Le Page, and which is of historic interest.

The reports of the first and second year examinations in Medicine at McGill have been posted and the Provincialists who have passed are as follows: First year: In Practical Chemistry, Physics and Botany W. J. Grant takes honors and J. Mark Smith, W. Fred Taylor, A. D. Sharp, P. W. Fitzmaurice all pass in three subjects. Second year: In Histology and Organic Chemistry W. G. Jorris takes honors, and W. E. Williams passes. Third Year: Physiological Chemistry: Lester G. Houle takes honors and J. S. McLeod and F. H. McKay pass.

The Prince Edward Island railway is again resuming the customary order of things after the recent blockade. All the lines are now clear with the exception of the Murray Harbor branch. The train which has for days been attempting to reach this city, at an early hour last night was still stuck hard and fast near Uigg. A clearing train from this city, consisting of three engines and full crew and equipment for snow fighting, was working last night between Vernon and Uigg and it is probable that the snow bound south will be relieved of the unavoidable interruption in their train service, by this afternoon.

The pastors of the four Christian churches of Montague met on Tuesday morning at 10 o'clock in the Methodist parsonage to consider the advisability of organizing a Ministerial Association for Montague. After due deliberation organization was decided on and officers were elected. Rev. E. A. McPhee, Secretary. It is expected that much profit will result from a weekly consideration of matters related to the interests of the Kingdom of God.

One of those pleasant gatherings, which gladden the hearts of young and old alike, was held in the DeSable school house just a day or two before Christmas, during the closing exercises of the school, which was testfully decorated for the purpose, by both scholars and parents. A very nice program consisting of solos, recitations, etc. was rendered by the scholars, after which they were treated with candy by the teacher, Harry Yllett. At the close of the program the teacher was presented with a beautiful umbrella and also the following address which speaks for itself. The address was read by Abijah G. Inman. Dear Teacher: I have been requested by the boys and girls of this school to offer you a slight token of our appreciation and regard. I cannot tell you how delighted I am to be the means of conveying to you the expression of our united love. What we offer you is a poor symbol of our feelings, but we know you will receive it kindly, as a simple indication of our attachment which each one of us cherishes for you in our heart of hearts. You have made our lessons pleasant to us—so pleasant that it would be ungrateful to call them tasks. We know that we have often tried your temper and forbearance, but you have dealt gently with us in our waywardness, teaching us by example as well as precept the advantages of kindness and self-control. We will never forget you and shall look back to this school in after life, not as a place of penance, but as a scene of mental enjoyment, where the paths of learning were strewn with flowers; and whenever memory recalls our school days, our hearts will warm toward you as they do today. I have been requested by my schoolmates not to address you formally, but as a beloved and respected friend. In that light, dear teacher, we all regard you. Please accept with our little present, our earnest good wishes. May you always be as happy as you have endeavored to make your pupils and may they, nothing better could be wished for them be always as faithful to their duties to others as you have been in your duties to them. Signed: Daniel MacNevin, Elmer Tuman, Florence MacFarley, Ivan MacKinnon, Walter MacFarlane, Lillian MacKinnon.

By Our Formula We produce in Hood's Sarsaparilla a medicine that has an unparalleled record of cures of rheumatism, anemia, nervousness, that tired feeling, loss of appetite, etc. The combination and proportions of the more than twenty different remedial agents contained in Hood's Sarsaparilla can be no substitute for ourselves, so there can be no substitute for this medicine. This medicine makes healthy and strong the "Little Soldiers" in your blood, those corpuses that fight the disease germs constantly attacking you.

Thirteen tons of smel by James Morrison and thipped half tons butter shipped to a Dunk River factory were sent from Summerside yesterday. The case of McQuarrie vs M era occupied the attention of Supreme Court all day yesterday. The taking of evidence was concluded and judgment was held over.

A happy event took place at the home of Richard Edwin Bagnall, New Glasgow, Jan 12, when Miss Annette Grace Bagnall and Cyrus Sumnerland Smith were united in the bonds of holy matrimony, Rev H. R. Bell officiating.

The inward cargo of the Earl Grey yesterday was two cars of way freight. The outward cargo leaving this morning will consist of our cars dressed hogs, three of smelts, three of oats, one of hay and three of way freight.

On the evening of the 12th inst., at the Baptist parsonage, Summerside, Rev Fred S. Bamford tied the nuptial knot that united Miss Agusta Casley and John F. Taylor in marriage. The bride is a daughter of Mrs Charles Casley, Coleman, and the groom is chief Electrician of the Sun Electric Co., Summerside.

The trains East and West of Summerside are now getting back to business and regular traffic has begun. The train leaving Summerside Wednesday evening for Tignish reached its destination at an early hour yesterday morning. Returning it arrived in Summerside about noon and at two fifteen left for the East.

The marriage took place on the 12th inst at the home of Wm Esery, Hanover Street, Summerside, of Miss Carry W. Dammarrell, daughter of Robt Dammarrell, Freetown and Edmund Burns of the same place. The Rev Mr Gough, Kensington, was the officiating clergyman. Mr and Mrs Burns left by the afternoon train yesterday for a trip to the Eastern part of the Province.

The death took place at an early hour yesterday morning of Archibald Ramsay, Beach Point, Hamilton, Lot 8. Mr Ramsay was one of the oldest and most respected inhabitants of that section of the Province. He was born 84 years ago on the same farm on which he died. He was a son of the late Hon Donald Ramsay, and leaves two sons, Thomas at home and Norman McL who live on the adjoining farm. Mr Ramsay had been in failing health for his past few years, but was able to be around till about 10 days ago, when he took ill and gradually grew worse until the end came.

VESSEY-At York on Jan 10th, 1910, to Warren and Mrs Vessey, a son. THOMAS-Jan 8th, 1910, to P. L. and Mrs Thomas of Fredericton, N. B., a son.

Leading Editorials, Notes and Comments for Saturday Subscribers

TUESDAY. The Census and Statistics Monthly, issued from Ottawa takes note of a very serious potato disease lately discovered in Newfoundland. It is said to be identical with what is known in England as black scab or potato canker. The seriousness of the malady may be gathered from the statement that not a single sound tuber can be saved from a crop that is attacked, and the field remains infected for years.

In the fine new year edition of the Halifax Chronicle appeared an article from the pen of Hon Robert Drummond explaining why the price of coal has gone up in recent years. Mr Drummond explains that some old companies have quit working and others are barely paying expenses, that the equipment necessary to make the lives of miners safe costs money, that wages have gone up and so on. All of which does not explain why coal is delivered in Montreal from the Nova Scotia mines at lower rates than it can be bought by the consumer in Charlottetown or St John.

It is said that Montreal has forty resident millionaires. Among them is at least one of Island birth whose princely benefactions to the cause of education have made him famous throughout the Empire-Sir William Macdonald. There are others who have given millions for the public good. Among them is the Grand Old Man, Lord Strathcona, who the other day sailed from London, where he now resides, \$25,000 for the relief of the sufferers in the typhoid epidemic in Montreal, with an intimation of his readiness to contribute \$100,000 more toward a permanent fever hospital, in which he is greatly rich and an opportunity to be greatly useful to fellowmen, and the list of Canadian millionaires includes a number of those who earnestly embrace the opportunities for such

WEDNESDAY. THE UNITED KINGDOM'S TRADE IS BOOMING. In the volume of trade with other nations the United Kingdom exceeds all the great commercial nations of the world. The trade of the British Empire is a greater still, that is another story. The volume of trade in imports and exports of the United Kingdom in 1907 passed the record year down to 1909. It had been claimed by the opponents of the Government that the budget would have an unfavorable effect upon British trade. Such has not proved to be the case. Such has the Chancellor has made a trade returns for the month of December just closed. These show an increase of \$5,000,000 over December, 1907, when high water mark was reached, and \$25,000,000 above the year 1908. Moreover he set out the increase of imports has been in manufactures and raw materials and food. The coming year, he promises to break all records in British trade.

It will be seen from this that it is not only in protectionist Canada and the United States that trade and industry are booming. Free trade Britain shares in the expansion of trade by a very generous measure. But when the free traders or the tariff reformers are nearest right, Canadians generally will learn with satisfaction that the old firm of John Bull and Company is still doing an expanding and profitable business with all the world at the old stand.

Under the Roosevelt regime one Gifford Pinchot, who had long taken a great interest in forestry, was appointed first member of the National Forestry Association, and later was made Forester under the Department of Agriculture, which position he has held since July 1898. Mr Pinchot is a rich man, a millionaire in fact, as well as a man of talent and expert qualifications in forestry. It is natural that such a man should be more or less independent in his attitude. Not to go into details Mr Pinchot gave offense to President Taft, and the latter peremptorily dismissed him from office. A committee of both Houses of Congress is to be appointed to sift the matter. In the usual course of events the House of Representatives would have appointed a committee, but the House by a narrow majority of three has taken the appointment out of the Speaker's hands, evidently fearing that he would appoint a committee favorable to the

FRIDAY. The two vacant Senatorships for Nova Scotia have been filled by the appointment of Hon Edmund Farrell, Speaker of the Nova Scotia Legislative Assembly, and William Roche, ex-M.P. for Halifax, who suffered defeat at the last federal election. This may be an indication that the vacancy here caused by the death of Hon Donald Ferguson will also receive effective attention before long.

For some reason not quite apparent here there are signs of growing confidence in the ranks of the Conservative Unionists in the British elections. The betting at Lloyd's, which had hitherto favored the Government party, was yesterday reported to be about even, but slightly favoring the Opposition. This fact will increase the great interest that has from the first been felt in Canada as to the result of the great contest. We hope to give on Monday morning next the result of the first day's voting.

M. J. Butler, C. M. G. who is well known here, has resigned from the Government railway service to accept the position of Manager of the Dominion Coal and Steel Company. Mr Butler held the position of De-

President. Washington is greatly stirred over the matter and the end is not yet.

DEATH OF JAMES HANNAY, HISTORIAN. News reached this city yesterday of the death of James Hannay, journalist and historian of Saint John. Dr. Hannay was born in Richmond some 25 years ago, and was educated there where his father was a Presbyterian clergyman. Early in life he came to St John and studied law with his uncle, the late David S. Kerr, K. C. During his student days and after his admission to the bar Mr Hannay felt the attractions of journalism and literature. He did much newspaper work in connection with the St John Telegraph under the late John Livingston and Rev Dr Elder, and when still a young man wrote tirelessly the History of Acadia. In recognition of this valuable work and other literary services he was honored with the degree of LL.D. by Acadia University some years ago. Dr Hannay was associate editor of the St John Daily Telegraph for some time in the early nineties when the writer of this article was editor in chief and succeeded to the latter position in 1893, filling the position with credit. But his natural bent was toward historical work. Among his several books beside the History of Acadia, were a History of the Loyalist, a History of the War of 1812, and his life of Sir Leonard Tilley and his quite recently completed History of New Brunswick. All of these are reliable works and will perpetuate his name far in the future. Dr Hannay was in recent years engaged with the Canadian Archives Department in editing and cataloguing the manuscript records of early days in the Maritime Provinces, a work for which he was especially well qualified. At various times, along with his literary labors he was Official Reporter of decisions in the Supreme Court and Official Reporter of the House of Assembly. Many among his wide acquaintance will learn of his sudden demise with sincere regret.

THE OLDEST MAN LIVING. If asked about his horns would say they didn't bother him because he always used Putnam's Corn Extractor. For fifty years "Putnam's" has been the favorite because plainness and sure. Try only "Putnam's."

NOTICE. The annual meeting of the shareholders of the Dominion Cheese and Butter Company, Ltd. will be held by the Board of Directors on Friday, Jan 14th, 1910 at 11 a.m. A full attendance is requested. By Order, A. A. McDEATH, Secy.

Chapped Hands AND Cold Sores. Are your hands chapped, cracked or sore? Have you "cold cracks" which open and bleed when the skin is drawn tight? Have you a cold sore, frost bite, chilblains, or a "raw" place, which at times makes it agony for you to go about your household duties? If so, Zam-Buk will give you relief, and will heal the frost-damaged skin. Anoint the sore places at night, Zam-Buk's rich healing essences will sink into the wounds, end the smarting, and will heal quickly. Mrs. Yellen, of Portland, says: "My hands were so sore and cracked that it was agony to put them near water. When I did so they would smart and burn as if I had scalded them. I seemed quite unable to get relief from anything I put on them until I tried Zam-Buk, and it succeeded where all else had failed. It closed the big cracks, gave me ease, soothed the inflammation, and in a very short time healed my hands."

Zam-Buk. For WHOOPING COUGH, CROUP, ASTHMA, COUGHS, BRONCHITIS, SORE THROAT, CATARRH, DIPHTHERIA. Vapo-Resolene. Established 1879. For WHOOPING COUGH, CROUP, ASTHMA, COUGHS, BRONCHITIS, SORE THROAT, CATARRH, DIPHTHERIA.

JOHNSON'S ANODYNE LINIMENT. Bronchitis can be quickly relieved if Johnson's Anodyne Liniment is sprayed into the bronchial tubes several times daily. It is also a tried and true remedy for Colds, Asthma, Diarrhoea and most human ills. In most cases where internal use is necessary a few drops are poured on sugar or in sweetened water. For 99 years the Family Doctor. Always keep a supply in your home, because it is invaluable for applying to cuts, bruises, sprains, burns and scalds. It is the emergency remedy almost a century old. It never fails. Sold at 25c and 50c a bottle. Parsons' Pills for bilious indigestion and constipation. I. S. JOHNSON & CO. Boston, Mass.

MR. BALFOUR ONLY RIDING FOR A FALL. The Toronto World is strongly in sympathy with the Unionist opposition in the British election campaign, but frankly confesses it cannot see how Mr Balfour and his party can win at the polls. It concludes that Mr Balfour himself does not expect to win, but is riding for a fall. He will let the issue of the Lords' veto be decided in this contest and he will let the party enter upon a campaign of tariff reform.

WHAT IS NOW STIRRING IN WASHINGTON. Under the Roosevelt regime one Gifford Pinchot, who had long taken a great interest in forestry, was appointed first member of the National Forestry Association, and later was made Forester under the Department of Agriculture, which position he has held since July 1898. Mr Pinchot is a rich man, a millionaire in fact, as well as a man of talent and expert qualifications in forestry. It is natural that such a man should be more or less independent in his attitude. Not to go into details Mr Pinchot gave offense to President Taft, and the latter peremptorily dismissed him from office. A committee of both Houses of Congress is to be appointed to sift the matter. In the usual course of events the House of Representatives would have appointed a committee, but the House by a narrow majority of three has taken the appointment out of the Speaker's hands, evidently fearing that he would appoint a committee favorable to the
