INTERESTED VISITOR. Mrs. W. E. McIntyre who is one of the earnest workers in the U. B. W. M. S. has not returned from Moncton, but has gone to Albert County to make a short visit and will proceed to Prince Edward Island to see the "Garden of the Gulf," after which she will decide definitely her plans for the winter. Mrs. McIntyre has given up her flat on King St. East, St. John Standard.

OIL MAN VISITS P. E. I.—Mr. R. C. Fitzsimmons of Spokane, Wash., is visiting his old home in Kildare, P. E. I. He has been in the West eighteen years. Mr. Fitzsimmons spent about two months in the Fort McMurray oil districts of North Alberta on his trip home. He holds several sections of the famous oil tar sands on the Athabasca river. Those sands cover the whole face of that district over 2,000 square miles, running a depth of from 60 to 200 feet, containing 33,000,000 gallons of kerosene and lubricating oil, besides a small percentage of other chemicals. Mr. Fitzsimmons believes that this will be the greatest oil producing center in the world.

WILL GIVE INFORMATION.—Carroll Bros. report still further increased sales of "Regal Flour." They also advise that fresh supplies are constantly arriving. "Regal" is fast becoming the most popular flour in Charlottetown, a city where people are inclined to be very particular about the quality of their bread. Housekeepers find too, that "Regal" is an economical flour, it makes a great many loaves of bread to the barrel. And furthermore, that it is easy to bake with because of its exceedingly fine granulation. Carroll Bros. will be glad to answer all inquiries about this excellent flour, either from the trade or from those who merely wish to know further details about its bread making quality.

Shredded Wheat

Children like the tasty crispness of the baked whole wheat. It gives them all the nourishment they need in Summer, is so easily digested and fortifies them against those distressing ailments that are peculiar to Summer. It is salt-free and unsweetened—you season it to suit your taste.

Two Biscuits with milk or cream make a complete, nourishing meal. Eat it for breakfast with sliced bananas or prunes; for lunch with berries; for dinner with sliced peaches, apricots, stewed raisins, or fresh fruits. Ready-cooked, ready-to-eat.

REPLY TO MR. R. W. TUFTS (Continued From Page 4)

The statement that this migratory bird law aims to give us better shooting for all time. Such a statement is misleading and should not go unchallenged. In conversation with Mr. Tufts about a year ago I asked him if the terms of the Migratory Bird Treaty did not allow our American neighbors to shoot wild game up to March 10th. He admitted that it did but explained that the State laws in the different States prohibited shooting after Jan 31st in any part of the United States. Each state has its own laws and there is nothing to prevent any of those States from changing the season and although Jan 31st is the end of the open season this year it is quite possible it might be March 10 next year. When we look at the rank injustice of such a bill, and also note that many of the best and streams in our province are leased by a few avaricious moneyed men, is it to be wondered at that the young men are leaving our province, that our population is decreasing every year when even the natural sport which should belong to all our people is gobbled up by a favored few in the autumn and protected for our American neighbors' benefit in the spring.

LOBSTER SEASON

Sir.—It may be that we fishermen are "dense" but we really wish for an explanation of the enclosed clipping from your issue of the 19th inst. — Dr. Knight, of the fishery department, Ottawa, is in Summerside, where he is conducting an investigation in regard to the Lobster fishery. He is having a number of lobster traps put out by Mr. P. C. Gallant to investigate whether or not it will be possible to change the season for fishing on the south side of the island.

Is the experiment with a view to changing to fall fishing on the eastern part of the south side of the island, or to spring on the western part? If the latter, why the experiment by placing a few traps? Will the season not be open there on the 15th?

I am, Sir, etc.

EASTERN FISHERMAN.

(Referring to the above we are advised by the Fisheries Inspector, Mr. Gallant, that the investigation being made by Dr. Knight on the western shore, are to ascertain whether it would be advisable to change the fishing season. Necessarily the decision arrived at, if any, has not yet been announced, but will be in due time. The lobster season on that coast is now open and there is excellent fishing.—Ed. G.)
