UNITY OF BRITISH COMMONWEALTH

Theme at Government Dinner in Ottawa in Honor of the Visiting Delegates of Empire Parliamentarians.

(Special to The Guardian) OTTAWA, Ont., Aug. 30.—Unity of Empire was the keynote of the speeches delivered last evening at the dinner, given by the government to the delegates of the Empire Parliamentary Association in the Parliamentary restaurant. This was reflected not less by the Hon. Ernest Lapointe, acting prime minister and the Hon. Rudolph Lemieux, speaker of the House of Commons.

"We are all," he said, "travelling different roads under different skies, but we are all under the same guiding star of British freedom and democracy. Lemieux said that we are showing that partnership and cooperation do not mean absorption. Imperial relations, as we have them, lay largely in unwritten conventions some of them unintelligible to those who are ignorant of the traditions and background of British history."

Seconding the acting premier's welcome to the delegates, Hon. R. E. Bennett spoke for those "on the left of the speaker." He told of a happy dream in which he saw the British Empire as the greatest economic unit in world history. By united effort, Britain could show the world not only what a great agent for peace it was, but, also, how it could develop its own resources. On their trip across Canada, the leader of the opposition said the best service the delegates could render was to think in terms of the Empire rather than of their own particular countries.

U.S. Lacrosse Unsuccessful

BOSTON, Aug. 30.—Local sporting writers are in agreement that in order to secure a sizeable group of spectators for a lacrosse game it must be played in Europe. Heavy Rain Storm Sweeps Province

Prince Edward Island was last evening swept by a heavy rain storm which for intensity rivals any which has occurred for years. Opening at 5 p. m. with a light shower, the storm burst in full fury upon the city half and hour later, deluging the streets with water from six inches to foot deep in many places. At many street corners, the man-holes became choked with leaves and other refuse while the water poured over the curbing, almost causing a cessation to traffic. At Worthy's Corner such was the case when a car became stalled, all traffic being jammed. At the Railway Station and other points the streets were veritably flooded by the collection of garbage and mud about the man-holes.

So fierce and heavy was the rain-fall that many car-drivers reported being unable to see a few yards ahead of them and one honest gentleman called at the Police Station to say that he had knocked over a silent policeman because he hadn't been able to see it. In the city no severe damage has been reported. The rain was accompanied by thunder and lightning which was exceptionally heavy in some sections of the province while in others very light.
