Annual Rally Of S'side United Church W. M. S.

The annual rally for the W. M. S. of the United Church in Prince County was held on Friday afternoon and evening at O'Leary. There was a very large attendance from all parts of the county. Mrs. Hammond Toombs, President of the Presbyterian of the W. M. S. of P. E. I. occupied the chair. The meetings were held in the church which was tastefully decorated with ferns and snow balls.

The afternoon session was opened with a devotional period, followed by a splendid address by Mrs. Toombs.

A question box conducted by Mrs. Weir and Mrs. Arthur Green of Alberton answered some very interesting questions on the work of the W. M. S.

The Mission Band of the O'Leary branch gave a pleasing little vocal chorus, entitled "The Motion Song". Miss Sterling, daughter of Rev. Sterling of West Point, sang very sweetly, "Beautiful Land on High".

A duet by Mrs. A. M. Baker and Mrs. G. M. Mathews was much appreciated. The closing half hour was conducted by Mrs. L. R. Allen, Miss Mildred Allen and Miss Eleanor Harris of Summerside.

The special speaker of the evening was Miss Stewart, who is on furlough from the Mission fields of China. Her address dealt chiefly with the changed attitude of the Chinese Government towards the Christian Missionaries. She explained that they at first resented the missionaries but that now they welcome them, as they realize the tremendous amount of good they are doing.

Rev. Mr. Weir of Alberton and Rev. Mr. Sterling of West Cape conducted the devotional part of the evening meeting.

A missionary pageant by nine little girls from the Mission Circle was very well put on and depicted the call of the Church for workers in the Mission fields. Four of the girls were dressed as Canadian Missionaries and four in costumes representing, India, China, Japan and Korea.

The male choir under the direction of Rev. A. M. Baker rendered some excellent music during the evening.

Resolutions were passed at the close of the evening session asking for the prayers of all members of the W. M. S. for the furtherance of the teaching of Christ in our own lives and in all lands and requested by the Dominion Board at their recent meeting in Toronto;

Also that the W. M. S. with prayer and work do what they can to retain the Prohibition law in our Province, and to keep our young people from the evils of cigarette smoking.

A vote of thanks was extended to Miss Stewart for her excellent address, to the male choir for their music and to the ladies of the local W. M. S. for their kind hospitality.—S

WELL PLANNED ASSASSINATION IS FAILURE

WATCHUNG, N. J., June 24—An alert employee on the estate of Charles A. Eaton, Canadian-born representative for the fifth congressional district of New Jersey, today investigated a strange noise in the garage and there found a 20-pound dynamite bomb attached to the ignition of the Canadian's automobile.

The Congressman was at a loss to explain the evidently well-planned assassination. Experts at the Du Pont powder plant in Pompton Lakes said the maker of the bomb was no novice.

Only the keen ears of Joseph Balent, employee on the large estate in the Watchung Mountains, experts agreed, prevented large scale destruction and certain death for those in or near the automobile.

Eaton is a native of Nova Scotia and a cousin of Cyrus S. Eaton, Cleveland banker and industrialist who was born in Pugwash, N. S. After leaving Canada at an early age Eaton had a wide career. He was educated at Newton Theological Institute in Massachusetts, and was ordained a Baptist minister in 1893.

At the turn of the century Eaton returned to his native Canada and there was correspondent for two large metropolitan dailies, the New York Tribune and the Boston Transcript. In 1909 he was appointed pastor of Madison Avenue Church in New York and there remained until 1919. Later he became editor of the Leslie's Weekly and finally entered politics. During the war he was a member of the United States Shipping Board.

During the day police questioned seven men. They declined to give out the names of the seven or to state the outcome of their questioning.

"It seems to be a gesture against the United States rather than one against me personally," Eaton said. The Federal Government at Washington promised assistance to the state police in the investigation.

PETER'S ROAD
Mr. Joseph McLean of Gibbons, Alta., after a absence of twenty-one years from the province is enjoying a merited holiday season with his many relatives and old friends in P.E.I. At Charlottetown he visited his brother John and sister Mrs. Bessie Graham. Accompanied by his nephew Mr. Merrill Graham he motored to Peters Road where he is the guest of his brother and family, Mr. and Mrs. Wm. J. McLean, to Murray Harbor North where he visited at the home of his sister and relatives, Mr. and Mrs. Benjamin Clow. Mr. McLean is pleased to again enjoy the charms of his native home, and while the West claims him as a progressive citizen, he will never be dissociated from the friends of his youth and the scenes of his boyhood days. Answering to the call of "Westward Ho" he has steadily, by thrift and perseverance, achieved success. He is the proprietor of the largest general store in the thriving town of Gibbons, a large landowner and stockman and takes a prominent part in the civic affairs of that province. With other islanders of this province who have made good in an adopted land, we have no scruple in placing Mr. McLean's name beside others who have carved for themselves a niche in the "Hall of Fame" as distinguished islanders aboard. The Guardian and his many friends wish Mr. McLean a happy holiday season in the Garden of the Gulf—down east.

Mrs. Reid with her little grandson visited relatives in different parts of Mass. during her extended visit, to her daughter and family, Mrs. Frank Kennedy, Boston, Mr. and Mrs. Robert Adams, Worcester, and Mr. and Mrs. Harry Jenkins, Everett, and others. Mrs. Reid also spent fifth time in Springfield, Mass., where her grandson was being treated in

CHAMBERLAIN ASSAILED IN HOUSE

LONDON, June 24—(C.P. and A.P. Cables) — Neville Chamberlain, Chancellor of the Exchequer, was attacked from both sides of the House of Commons tonight when members assailed his policy on commodity prices. The Chancellor was warmly supported from the treasury benches, however, and cries of "No no," punctuated the speeches of the recalcitrant members.

Mr. Chamberlain was present when the attack was launched in the closing stages of the budget debate. At the conclusion of the debate approval was given the Finance Bill by a vote of 290 to 42, thus putting the budget provisions into effect.

The annual school meeting was well attended. Mr. D. Stewart retired, and Mr. George was elected Trustee. Supplement \$75.—P.

THE STORM
Low rumblings from the caverns of the west,
Pressage the advent of the gathering storm,
While slowly blotting out the sun's bright form,
Dark billowy clouds roll upward like a crest.

An ominous hush descends upon the air,
Not even the songbird, break the stillness mute
Unless, perchance, the robin with his flute
A mournful cadence dares to utter there.

Now breaks the storm in fury o'er the world,
The heavens rend with forks of dazzling white;
As Vulcan's hammer, striking in his might,
So roll the thunders from his anvil hurled.

Released as though from bondage comes the rain
Wind-driven, blotting from the sense of sight
Things unfamiliar in the waning light—
A gloomy scene, 'tis true, but look again!

The storm has spent its ravages at last;
Again the sun breaks through the silvery veil
Of cloud and mist enshrouding hill and dale;
Earth's visitant has come and now is past.

Flexstone

(Approved by Underwriters Laboratories, Inc.)

Make sure the roofing you buy will stand the fire test

JOHNS - MANVILLE Flexstone Roofing will show many other roofings CAN!

And it meets a double test, for not only does it withstand the destructive force of fire, but Flexstone lasts indefinitely under the action of time and the elements. What is of equal price, it sells at a popular price. Costs practically the same as the better rag-felt roofings but unlike them Flexstone is fire resisting and being all mineral, it cannot rot, disintegrate or dry out.

Lowest Cost-Per-Year Roofing

Flexstone is a mineral fabric, composed of imperishable asbestos fibre, waterproofed with natural asphalt. Furnished in rolls—smooth both sides or with a surfacing of red, green or blue-black crushed slate, or feltpaper. Also in the form of individual or strip shingles. Can be laid by anyone; only a hammer is necessary. On a cost-per-year basis Flexstone is the most economical roofing you can buy.

Registration—Our Service Obligation

Flexstone is also covered by the liberal terms of the Registration policy of the Johns-Manville Company which means that their responsibility does not end until you get the service promised. You can register your roof with them through us. Let us explain this protective policy.

Hay and Straw Inspection

The Hay and Straw Inspection Act, 1933, which received Royal assent the other day, empowers the Minister of Agriculture to: (a) Establish regulations prescribing standards of class, quality and condition for hay and straw; (b) By inspection certificate to certify the class, quality and condition; and such inspection certificates issued by officers appointed by law shall be accepted in the courts as prima facie evidence of the particulars therein set out; (c) To prescribe the places where and the conditions under which hay and straw shall be inspected and the charges made for such inspection. Sections 158 to 165 of the Inspection and Sale Act, 1927, are repealed. These sections dealt with hay grades for the eastern provinces, western provinces and N. W. T.; standard weights for hay and straw in Quebec; grading of straw, reasons for grading, inspection of scales; imported hay, penalty for not affixing tag to bale of hay or straw, and penalty for putting foreign matter into bales of hay or straw. The Act declares that such inspectors may be appointed as are required for the purposes of this Act.
