SEEMS LIKE A DREAM

To be now entirely free from Asthma after eight years' suffering. That is what a Vancouver lady says, after being cured by Clarke's Kola Compound.

If the person who suffers from Asthma could only see the thousands of letters on file at our different offices he would no longer doubt that Asthma can be cured by Clarke's Kola Compound.

Mrs. J. Wise, Mount Pleasant, Vancouver, B.C., writes: "I have been a most unfortunate sufferer from Bronchial Asthma for the past eight years, and I don't think any person with this disease could have suffered more during that time. Many times for weeks I could not lie down at all. My doctor told me I could never get better. Just then I heard of a Vancouver gentleman who had been cured by Clarke's Kola Compound, so I tried it. The first bottle did not relieve me much, but soon I began to improve, and before I had finished the fourth bottle the attacks ceased altogether, and during the past six months of damp, cold and foggy weather have not had a single attack. It seems like a dream to be free from this worst of all diseases after so many years of suffering. I have since regained my lost strength and weight and don't think I ever felt better than now. I consider Clarke's Kola Compound a marvellous remedy, and would urge any person suffering from this disease to try it.

Sold by all druggists. Dr. Clarke's book on Asthma mailed free. Address The G. & M. Co. Limited, 121 Church St., Toronto, Canada.

IMPROVING THE BALLOT.

A Government measure which has been carefully considered, passed through committee and now stands for a third reading provides for important improvements in the ballot paper to be used in Dominion elections. As is well known many hundreds of ballots are rejected at every general election on account of being improperly marked owing to the ignorance or misunderstanding of voters who so place their mark as to not clearly indicate for whom they intend to vote. Frauds in connection with ballot papers have also sometimes occurred. The new ballot is designed to simplify the work of the voter and also to prevent frauds.

The new ballot will have absolutely nothing on its face but the names of the candidates printed below one another and separated merely by broad black lines. The cross may be placed anywhere within the space allotted to the candidate's name —before, above, below or after the name and the vote will still be good. This ought surely to give latitude enough for the most stupid elector. Some in times past have set the cross opposite the name of the constituency. This will be impossible with the new ballot as the name of the constituency will not be on the front but on the back of the ballot paper.

Precautions against fraud will be taken by having all ballots printed by the King's Printer on specially prepared paper. The printer's name will also be on the back of the paper. There will be a corresponding number on the stub and counterfoil to prevent substitution, and all ballots will be stamped by the returning officer when he receives them from Ottawa in the first instance. In addition to these precautions each deputy returning officer must place his initials on the ballot before supplying it to the voter. Both parties appear to have worked together to perfect the ballot paper and it is hoped with good results.

A Pekin despatch tells that the first demands of the powers as the amount of indemnity which China shall pay have been considerably reduced. This despatch states that the amount agreed upon is $273,030,000. It is not stated in what manner or proportion this is to be divided amongst the powers. France, Germany, Russia and Japan agree that payment shall be secured by taking over the Chinese customs duties and the likin, or inland transit duties as well. The United States and Britain, it is said, unite in opposing any increase in the customs duties, and this excites surprise as the Republic was expected to join with Russia and France. It may yet take a good while to reach a settlement upon this and other points in controversy.

A London despatch of May 1st states that the Colonial office is in correspondence with the Government of Canada in regard to including Canada among the titles of King Edward. It seems to be intended that Australia shall also be included, so that the King's title may run something after the following fashion: His Majesty Edward, VII King of the United Kingdom of Great Britain and Ireland and of the Colonies and Dependencies thereof in Europe, Asia, Africa, America and Australasia, Defender of the Faith, Emperor of India, King of the Dominion of Canada and of the Commonwealth of Australia, &c. &c.

The multi-millionaire John D. Rockefeller is credited with a scheme for utilising many millions of his vast wealth to promote the education of the poor whites and negroes of the South. It is said Mr. Rockefeller has entrusted to his son and namesake the carrying out of his design, and the son is described as a young man of a deeply serious and philanthropic turn of mind and fully imbued with a sense of the responsibility which great wealth imposes. The Montreal Witness commenting upon this scheme says:

The disposition of millions in this way by men of great riches will go far to disarm hostile critics of American plutocracy, while it illustrates in a striking manner the public spirit, philanthropy and wisdom of northern millionaires in making so grand an effort to tackle what is certainly at the present moment the supreme national problem of the United States and to help the South out of the poverty, ignorance and industrial stagnation entailed as a legacy by slavery and a disastrous war.

The Grandest Treasure.

One of the fondest, happiest anticipations of a mother's heart is that by her husband's earnest toil, and by careful economy on both their parts they shall be able to lay by a little store which the baby when it is grown to manhood or womanhood shall have as its own private possession.

But every wife who expects to become a mother may provide a far more valuable treasure for her little one's future than can ever be contained in any savings bank if she will take the proper care of her own health and physical condition during the time when the baby is expected. And if every husband would feel it his bounden duty to see that all possible means are adopted to carry his wife safely through this critical time, he will help to bequeath to his offspring that health and natural vigor which is the grandest fortune a father can bestow.

"During the past year I found myself pregnant and in rapidly failing health," writes Mrs. W. J. Kidder, of Hill Dale Farm, (Enosburg Center) Enosburg, Vt., in a grateful letter to Dr. R. V. Pierce, of Buffalo, N. Y. "I suffered dreadfully from bloating and urinary difficulty. I was growing perceptibly weaker each day and suffered much sharp pain at times. I felt that something must be done. I sought your advice and received a prompt reply. I followed your directions and took twelve bottles of Dr. Pierce's Favorite Prescription, and also followed your instructions. I began to improve immediately, my health became excellent, and I could do all my own work (we live on a good sized farm). I walked and rode all I could, and enjoyed it. I had a short easy confinement and have a healthy baby boy."

"Favorite Prescription" is the only proprietary medicine in the world invented by an educated physician and scientific specialist for the one specific purpose of restoring health and strength to the distinctly feminine organism. It is a prompt relief and permanent cure for every form of female complaint or weakness.

No remedy relieves constipation so quickly and effectually as Dr. Pierce's Pleasant Pellets.
