**YOUR TROUSERS!**  
Do your trousers fit and set correctly?  
To the observant mind, to the man of clear intellect, facts speak much more eloquently than words.  
It is not the claims I make that give my trousers their perfection of detail and consequent favor among critical dressers—it is not my words, but the facts that underlie my words.  
I have risen to my present prominence—have achieved success—not by argument, but by effort.  
If you are particular in having your trousers set and fit correctly, give us a trial.

The live lobsters which were shipped by M. Neville from Halifax on Thursday morning, June 8th, arrived in Vancouver on the 15th. Those which were shipped in the fish carrier, patented by John A. Neville, arrived in splendid condition, but those shipped in the ordinary crates were not in good order when they arrived at the Coast. A telegram conveying this information was received from Halifax from Superintendent Stewart of the Dominion Express Co. This is perhaps the most successful attempt that has ever been made to transport lobsters from the Atlantic to the Pacific.
