Shaving Brushes

If you shave yourself it is a great satisfaction to have a nice lather brush.

Many brushes which have so-called hog bristles or badger are frequently only imitation and poor ones at that. We have a special line made for us by one of the best English makers, which we guarantee to be either hog bristle or badger. We have both these kinds with nickle handles and selected bone. The prices in every case are very low as we imported direct. To barbers we give a special price.

Call and see them.

CHARLOTTETOWN GUARDIAN

FRIDAY, AUGUST 4, 1905.

HON. MR. FIELDING'S VISIT.

We are pleased to have the Finance Minister again in our midst, alike because of his genial personality, the prominent position he holds in the federal Cabinet, only second to that of the Premier himself, and also because of the feeling of good will toward this Island Province which we believe he holds. Were the Finance Minister against us our chance for favorable treatment at the hands of the Government would be poor indeed. Past experience has taught us that Mr. Fielding is not disposed to be lavish in promises, and therefore we do not expect him to promise great things at the present time. We believe however that he would like to see our difficulties in regard to steam communication in winter settled as satisfactorily as our telegraph troubles of the past were settled, largely through his good offices.

For his part in effecting the telegraph settlement the Island people of all political shades will long hold him in grateful remembrance. We trust that our gratitude and satisfaction in that regard may prove a strong incentive to induce him to undertake in genuine earnest the settlement of the larger problem which has so long been fruitful of discontent throughout the Province. Until we are assured of continuous efficient steam communication with the adjoining Provinces summer and winter that discontent and sense of injustice can never be removed. We give due credit for the better winter steamer promised for the fall and winter of 1906-7 but we greatly fear that no steamer will give us the continuous steam service stipulated for and so imperative demanded to place our Province on terms of fair equality with the sister Provinces.

For these reasons we earnestly hope and trust that the Finance Minister and the Government of which he is so influential a member will take early measures to remove any doubt that may remain as to the practicability of the proposed Tunnel at the Capes, and when such doubts, if any now exist are removed, to at once enter upon the construction of this great work, of such vital import to the Island and the Eastern Provinces generally. We cannot believe that any Government of Canada, much less one that has taken so deep an interest in the transportation service, will rest content while one Canadian Province is liable to be wholly separated from its sister Provinces and all traffic wholly cut off for two months at a time, as was the case last winter.

ECONOMICAL IN SPOTS.

A few weeks ago the Postmaster-General, some private members of Parliament and a lot of newspaper organs were rolling up their eyes in a fine spasm of economy when it was resolved to turn down the proposal to give the farmer free rural mail delivery. Such ruinous extravagance was not to be thought of for one moment, but the scene changed with lightning rapidity when a huge salary grab came to be rushed through in the dying hours of Parliament. It was a case of "Help ourselves, there's money to burn," and friends and foes (politically) joined in a generous saw-off, but the farmer was not in it. He comes in handy to grow the crops that foot the bills, but if he doesn't want to walk six miles three days a week for his mail after a harder day's work than most M. P.'s perfrom, he can hitch up the old gray mare to the buckboard.

FARMERS ADVOCATE,
LONDON, ONT.

July 27th, 1905.

EDITOR'S MAIL.

A HINT TO FARMERS.

SIR:—The following information I obtained from a progressive farmer. One season his wheat became affected with rust. He immediately cut a portion of it, and left the remainder to a later date. The result was that the wheat which he cut on the first appearance of rust yielded him 8 bushels to the one sown. The wheat cut later yielded only two to one. After this experiment being fully convinced of the efficacy of cutting the wheat on the first appearance of rust, he invariably cuts the wheat, if it be damaged by rust, even if the stalks are quite green; the grain will ripen and become quite plump in stook, any nutritious matter in the stalk, of value to the grain, being gradually assimilated by the latter. Harvest will be coming on soon and those not acquainted with the above fact would do well to make use of it as occasion arises. Last year this same farmer, acting on his accustomed plan, cut his wheat long before many of his neighbors and consequently had a much better return. His example however is now being followed pretty generally in his immediate neighborhood with satisfactory results. This topic is now opportune and might profitably be discussed by farmers desiring good crops of wheat. The rule seems to be in case of rust: Cut when ever it appears. Don't leave it until you think it will fill and ripen better. The rust usually will not appear till it is nearly ripe, in any event.

Springton, July 31, 05.

WHEN RUN-DOWN, "DRAGGY," USED UP

You Lack the Vigor, Courage and Staying Power that "Ferrozone" Can Supply.

Night comes and it's hard to sleep. Morning dawns and the anxious, tired feeling is still there. Don't neglect this gradual decline; it can't cure itself. But by forming rich, pure blood, Ferrozone will quickly supply the nutriment and building material your system craves.

Instantly you are aware that some powerful force is building up your depleted energies. At once you feel braced, toned, strengthened. Search the world over and you won't find anything to tone up a weak system like Ferrozone. Physicians claim it is the most strengthening, uplifting medicine ever discovered.

No more spells of tiredness, but bounding, joyful health when you take Ferrozone, of which Mrs. H. S. Gold, of Bowsman, Man., speaks in the following words of praise:

"I state my case because I think it may assist other women to health. A year ago I was almost a wreck. I was pale and emaciated suffering from nervousness and hysteria. Little things going wrong in the house bothered me. The doctor advised different treatments but they didn't help. He said my low condition was due to weakness that might never be cured. Ferrozone had a peculiar grateful effect and built me up quickly. The ills I suffered from are cured. I am now strong and vigorous and was made so by Ferrozone."

Why not cast aside the chains of sickness and enter the bright, happy life of robust health. Let Ferrozone help you—let it cure you once and forever. Price 50c. per box or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

STORM KILLS MANY PEOPLE.

BEAUMONT, Texas, Aug. 1.—Word reached here tonight that one white boy and two negro boys have been killed outright and twenty others more or less seriously injured during a heavy wind storm which struck Bessmay, La., this afternoon. The town is situated in a forest of pine timber, and the wind uprooted several trees, which fell on houses, killing or injuring the occupants.

Colic and Diarrhoea—A Remedy that is Prompt and Plaesant.

The prompt results produced by Chamberlain's Colic, Cholera and Diarrhoea Remedy together with its pleasant taste have won for it a place in many households. Mr. W. T. Taylor, a merchant of Winslow, Ala., writes: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy myself and also with men on my place, for diarrhoea and colic and it always gives relief promptly and pleasantly." For sale by all druggists.

A STORY OF OLDEN TIMES.

One beautiful morning, in the month of August, 1835 there was something very unusual noticed floating leisurely with the incoming tide, up the picturesque Seal River, Lot 50, P.E.I. The object apparently seemed to be some specimens of a large fish and were quickly detected by two wide-awake farmers, who hastened down to the shore. They watched for a short time, and were joined by three or four boys, who, were sent to notify the neighbours.

The two men then jumped into a dug-out canoe, and got behind the monsters, which proved to be a school of young grampus, that were disporting themselves to their heart's content, little knowing or thinking of the disaster that awaited them.

The men in the canoe made a great noise, shouting and splashing the water with their paddles, and as far as Edward Fraser's Kiln spring, the shores of both sides of the river were lined with as eager and valiant a band of men, women and children, as accompanied Admiral Nogi at the slaughter of Rojestvensy's fleet. They were armed with all manner and descriptions of weapons, old Queen Ann muskets, axes, pitchforks, hoes, and anything that came handy. One Octogenarion was on hand, with a reaping hook, as eager for the fray as any of them. They kept the monsters there, until the tide ran out pretty well. Then at the word of command in they plunged men and boys, and such a commotion was never seen or heard for some time. It was miraculous that somebody was not killed. However they managed to secure quite a number of the animals, although some escaped.

Then the question arose how to get them ashore. Finally, it was decided to get ropes (birch ones at that) fastened to them and drag them by hand through the mud to the shore, and then get horses and traces and land them. When this was done they started fires to boil the blubber, and get the oil. They drove crotch stakes on each side of the fire and placed a pole on them, on which they hung the pots. There was a large quantity of oil, and it was difficult to find vessels to hold it. One old woman, in her excitement, brought out the churn and Donald, her husband, says "Oh, Jessie, what we'll do for butter". However the churn was discarded for weeks after. The stench was notorious. It could with favourable wind be detected a mile away. Thus ended that day's sport and it never was repeated there since.

L. LOVAT.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists.

RESULTED IN MURDER.

FRESNO, Cal., August 1.—Emmet Higgins, contractor, yesterday shot four times and killed Robert E. Dean, a vineyardist, living near Clovis. Dean was once editor of a Philadelphia paper. The shooting grew out of a trivial quarrel.

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere, and nine out of ten will give their customers this preparation when the best is asked for. Mr Obe Witmer, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by all druggists.
