POSTMASTERS ASK 'TASTIER' STAMPS

TORONTO, June 24.—At the closing session of the Canadian postmasters' convention in the King Edward hotel yesterday, a resolution was advanced recommending a change in the taste of the muellage on sticker No. 2. It was suggested, amid laughter, that the printer who handles postage stamp manufacturing glue should personally taste each kind of glue used. Many whose daily duties include the licking of stamps have also testified to the distasteful flavor of the present muellage, according to further information given.

Toronto has been chosen for the 1932 convention. W. W. McGuire of Tillsonburg was re-elected president.

Condemns Ventilation In Commons Chamber

OTTAWA, June 23—Members of a doctor I object. The engineer, the House of Commons last night insisted on sticking to a ventilation system which has never been any good. I think that if the upper windows were opened it would help.

Dr. Manion paused. "The ventilation in this Chamber never was worth a hoot," he concluded, and the House roared.

Hon. P. J. Veniot rose and said the ventilation in the grill room of the Chateau Laurier was the best in Canada.

Ruth Wants To Fly Back

(Canadian Press)

ST. JOHN, N. B., June 23—"Wire for another plane," are said to have been her first words when she crawled out from the wrecked Avika and with the assurance of her physician Dr. G. A. B. Addy, that she could leave for her home in New York in a few days, her remark was: "I don't want to go by train, I want to fly home." The injuries to her back and right leg are painful, but not serious.

Clarence Chamberlain, of New York, trans Atlantic flier, who has coached Miss Nichols for her contemplated flight to Paris, and with his wife is in Saint John to be with Miss Nichols, said tonight that the reconditioning of the plane would depend on to what extent the engine was damaged.
