

Too Risky
 "A hard chill, pain through the chest, difficult breathing." If this should be your experience, send for your doctor. It may be pneumonia! To doctor yourself would be too risky. If your doctor cannot come at once, give Ayer's Cherry Pectoral. When he comes, tell him exactly what you have done.
 Ask your doctor if he does not think it would be wise for you to keep a bottle of Ayer's Cherry Pectoral in the house.

Retinoscopic Eye Examination

The cut accurately shows this method in operation. It is probably, the most reliable test known today.
 By its use the expert optician accurately measures the amount and kind of error in the patient's eyes, completely removing the uncertainty of the old system, and reducing to a minimum, the possibility of prescribing the wrong lenses.

We use this System
 and rely on its readings, almost entirely; The results in past years have been remarkably satisfactory, and if you are in need of Glasses you cannot do better than allow us to examine your eyes.
