

Man Sleeps Like Log, Eats Anything

"After taking Adlerika I can eat anything and sleep like a log. I had gas on the stomach and couldn't keep food down nor sleep." (signed) R. C. Miller. ONE spoonful Adlerika removes GAS and often brings surprising relief to the stomach. Stops that full, bloated feeling. Often brings out old waste-matter you never thought was in your system. Excellent for chronic constipation. Hughes Drug Co. Ltd.

WELLINGTON CENTRE SCHOOL

The semi-annual examination of Wellington Centre school was held in the school house on the afternoon of Dec. 23. The school room was tastefully decorated for the occasion by the teacher, assisted by her pupils. In one corner stood a large Xmas tree loaded with presents. Despite the very inclement weather the school room was filled to overflowing, there being more than thirty visitors present. The pupils were examined in the various subjects by their teacher, Miss Elsie Smith, assisted by Miss Elsie Murphy, teacher of Boys' School and showed by their prompt and accurate answers that they had been carefully and painstakingly taught by Miss Smith. During the examination an excellent program was rendered by the pupils and much enjoyed by all. At the close of the program Santa Claus appeared in the person of Parnell Cosgrove and was invited to the front of the room to unload the large Xmas tree. He was assisted by the teacher. Each child received a gift and a bag of candy. The teacher was the recipient of a handsome silk scarf from her pupils. Candy was then served to the visitors. Complimentary remarks were made by the visitors. A vote of thanks was tendered Miss Murphy for her assistance. Miss Smith in a few well chosen words thanked her pupils for the gift and also the people for their co-operation. The singing of the National Anthem brought a very successful examination to a close.

DROMORE SCHOOL.

One of the most successful semi-annual examinations and Christmas trees which was ever held in Dromore took place on the afternoon and evening of Dec. 23rd, 1925. The Christmas tree and decorations were under the supervision and direction of Mrs. Stephen Simpson and she certainly excelled herself in carrying out these parts of a successful termination. The school room was a veritable fairy-land so excellent and profuse were the decorations. The examination began at 2 o'clock sharp and lasted until 5 o'clock. The pupils were examined in all subjects studied by the teacher, Mr. O'Brien, Mr. D. J. Hughes and Mrs. M. McGuirk. That the examination was a grand success was the opinion of the various speakers after it had closed. The speakers were: Mr. D. J. Hughes, Mr. M. McGuirk, Mr. J. F. Callaghan and others. Mr. O'Brien replied voicing the necessity of education in these days and punctual attendance at school. In the evening the entertainment took place. There was a very long program of recitations, songs, dialogues and violin selections which lasted until a late hour. Then amid the jingle of sleigh bells Santa Claus appeared in the midst of the audience. He was in rare good humor and tripped along wishing everyone a Merry Christmas. He immediately took his place near the Christmas tree and began bestowing gifts to the children and Teacher. Costly presents and generous bags of candy were distributed to everyone. The teacher was the recipient of an armful of presents and a present of \$20.00 in cash which he put in his pocket. A vote of thanks was tendered by the chairman to Mrs. Simpson for the time and care she took in making the entertainment a success. The general verdict of it was that it was the best entertainment they attended for a long time.

KIDNAP WOMEN MISSIONARIES

LONDON, Jan. 6.—It was reported here today that two American women missionaries had been kidnapped at Pochow, Anhwei province, China, and listed as missing three weeks.

—SOCIAL GATHERING.—A jolly evening was spent at Kelvin when about forty-five members representing Kensington Young People's Society, gathered on New Year's night at the commodious home of the president, Mr. Percy McMurdo, for a social time. The joy of the evening was enhanced by the presence of the pastor and his wife, Rev. W. A. and Mrs. Robertson. Games and contests occupied most of the evening, and while Mr. McMurdo entertained with some pleasing selections on his new phonograph, the hostess passed out a sum of over \$20.00 realized, which goes to missionary work. After lunch and singing, "For we are jolly good fellows," the party dispersed to their homes feeling a most enjoyable evening had passed all too quickly. Among those present were Thomas Humphrey and Samuel Proffitt, students at Dalhousie, and Mr. Chal. of Korea, who is also a student at Dalhousie.

—ANOTHER GIFT OF £1,000 EASES BRITISH WAR DEBT LONDON, Jan. 6.—As a sequel to the action of an American citizen, born in England, who a month ago sent £1,100 to the Chancellor of the Exchequer as a contribution to the reduction of the British debt to the United States, a British citizen, born in the United States, now has sent £1,000 as a contribution to the reduction of the same debt. He has added an expression of admiration for those in the United States, who, even at a personal sacrifice, have understood and endeavored to assist the efforts made by Britain to bear her great financial burdens.

Garnet Wheat Still Under Supervision

(Canadian Press) CALGARY, Alta., Jan. 6.—The satisfactory results of tests to which Garnet wheat has been subjected, has aroused keen interest throughout Western Canada. Garnet Ottawa 652, is the latest variety of wheat developed at the Central Experimental Farm at Ottawa.

According to reports, Prairie farmers, anxious to try out the new wheat, are flooding the government experimental stations serving their respective districts, with applications for test seed. Although preliminary milling and baking tests have been made, more thorough tests will be conducted before the seed is released for general distribution. A limited quantity of seed has been sent to a number of the experimental stations, which, however, has failed to meet the demand.

Giving details of the development of Garnet wheat, G. E. DeLong, B.S.A., assistant superintendent of the Dominion Experimental Farm, Lacombe, Alta., states that the new wheat has been grown at the Alberta station since 1919. During that period, he says, it required an average of 113 days to mature, while the average for Marquis wheat was 123 days. In further comparing these two varieties, Marquis gave an average yield of 44 bushels, 7 pounds, an acre, against 45 bushels, 17 pounds an acre for Garnet Ottawa 652.

Continuing, Mr. DeLong says: "Garnet Ottawa is somewhat similar to Baby Ottawa 623, in length and strength of straw. Garnet straw also shows a tendency to develop the rub coloration, distinctive of Ruby. The shape of its head gives the standing crop the appearance of being a very heavy yielder."

"Garnet appears to be about midway between Marquis and Ruby in tendency to shatter if allowed to become too mature before harvesting."

"The experimental station at Lacombe has never had Garnet Ottawa 652 subjected to frost during the six years it has been grown. For this reason no definite information is available concerning the frost resistance of this variety as compared with the others."

In the opinion of Mr. DeLong, Garnet Ottawa has a place in Central Alberta and other districts where Marquis is subject to injury from early fall frosts. Whether advancing the harvest one week in districts where Marquis is not menaced by rust or early frost, would justify growing Garnet in preference to Marquis, has not been demonstrated.

"Those farming in such districts should keep in mind that Marquis is accepted as the standard milling wheat throughout Canada and the United States," Mr. DeLong advises. "They should also remember that Garnet is a new variety and has yet to prove its worth under varying conditions to the same extent Marquis has."

"There is little doubt Garnet Ottawa 652 will replace Ruby Ottawa 623. These two wheats mature in approximately the same time, but Garnet will outyield Ruby by several bushels per acre and does not shatter to the same extent."

TEXTS LONG OBSCURED REVEALED BY VIOLET RAYS PARIS, Jan. 6.—A new and valuable use for ultra-violet rays was revealed at the Academy of Inscriptions and Belles Lettres today by M. Samaran, who said it had been possible to read the original texts in palimpsest documents with them. Many books and scrolls during the Middle Ages were obscured by scribes in order to write the records and chronicles of their own time instead. Thus many priceless documents were lost, among which were the missing books of Livy. By inspecting the palimpsests with the ultra-violet rays the inferior layers can be easily read, where chemicals have been tried and failed to produce results.

Recommended By Doctors Many doctors consider Minard's the best Liniment made and recommend its use for many ills.
