CHARACTER IN MEDICINE.

There is character in Dr. Chase's Ointment—just such character as has made Dr. Chase esteemed and admired the world over. Dr. Chase's Ointment had stood the test of time and remains to-day the only actual cure for Piles and itching skin disease. It is the standard Ointment of the world. You can rely on it just as you rely on Dr. Chase's Receipt Book, because you know that it is backed by the sterling character of Dr. Chase, America's Greatest Physician.

Mr. John L. Deacon of North Wiltshire, who has been spending the last two months in the western part of Canada visiting friends and relatives in Winnipeg and Regina and several other places, returned home Saturday night looking well and in his usual good spirits after his trip.

THE GUARDIAN understands that the Water and Sewer Commissioners have asked Engineer Coffin to prepare a report setting forth the best way in which to increase the water supply of the City. It is a well-known fact that during the past summer the extra tax caused by the placing of sewerage and the extreme dryness, the consumption was almost equal to the resources of the well.

MR. D. SCHURMAN has forwarded to THE GUARDIAN from Montague half a dozen bunches of cultivated strawberries which were picked from the garden of Mr. F. G. McIntyre near that village. They are in all stages of growth from the smallest berries up to the largest matured ones which are highly colored, firm and beautifully flavored as if grown in July or August. This is certainly unprecedented in the history of vegetation in this Province. They have been placed in the show window of Messrs. Haszard and Moore that GUARDIAN readers may see them.

By the death of John Edward Stewart on the 6th inst. Danstaffage has lost one of the most respected and industrious residents. After a long and painful illness which he bore with great patience and resignation he passed away to return no more to earth except in the fond remembrance of his widow and little daughter. The disease seemed to baffle the skill of his physicians but a post-mortem examination revealed an abscess on the liver, the breaking of which caused sudden death. He was a consistent member of the Presbyterian Church, a man of sterling character and will long be missed by a large circle of friends. Deceased was 33 years old.

I sigh for the touch of a vanished hand And the sound of a voice that is still.

MR. JOHN LEA, son of Mr. Paul Lea had an exciting chase after a burglar last evening which terminated unsuccessfully. Mr. Lea had gone to the office in the factory shortly after seven o'clock and as he was unlocking he noticed that the glass had been broken out of the door. Upon entering the office he caught a glimpse of a man standing behind the door, but as the door swung back the intruder made a dash for the outside. Mr. Lea caught him, but the lad seemed to be rather slippery and managed to get away, from justice. Mr. Lea was accompanied to the office by his wife and it is needless to say they received quite a surprise when upon entering the door the burglar hiding within made a dash to get past them into the open air.—Moncton Times.

SOMETHING ABOUT FAITH CURES.

What a great variety of faith cures there must be some have faith in so-called divine healers others in the medicines they use. Every person who has tested Dr. Chase's Kidney Liver Pills has faith in them, but faith or no faith they cure just the same, for they act directly and specifically on the kidneys, liver and bowels and make these organs healthy, active and vigorous. Judging from the enormous demand for these Pills there must be hosts of people that have faith in them.
