PARLIAMENTARIANS NOT TALKING JUST NOW

MONTREAL, July 24.—There was a part of tactlessness among the British parliamentarians who arrived in this city tonight for other parts of the Dominion and over other parts of the Empire, and both on the vessel and on arrival at the Ritz-Carlton Hotel they all maintained a dignified reserve which was so insistent that had it been reported that any members of the party had passed a courteous "good evening" to a newspaper man, there would doubtless have been an official denial forthcoming. One member of the party, Will Crookes, the well-known labor representative, was drawn into a conversation, though he refused to give an interview.

GERMANY FACING SHIPPING WAR

BERLIN, July 24.—It is stated on high authority that a bitter and gigantic shipping war is brewing between Germany's two greatest navigation companies, The Hamburg-American and the North German-Lloyd. Relations are already highly strained, and the controversy has passed into a stage in which recriminations are being exchanged, although the actual outbreak of hostilities is deferred until the end of the year. The lines are compelled by contract to work together in harmony until that time.
It is admitted on both sides that unless a settlement is arrived at which there seems at present no prospect—intercourse warfare in the German shipping world will ensue with the dawn of the new year.

NO AMENDMENTS TO TARIFF BILL

WASHINGTON, July 24.—Republican Senators continued to offer amendments to nearly every paragraph of the Underwood-Simmons tariff bill, when its reading was resumed to-day, and Democrats, in solid phalanx, voted them down. As a result of the prolonged discussion on rate after rate, little progress was made during the two hours consideration of the measure, after general debate had proceeded throughout the afternoon, Senator Works of California, and Senator Beaves of Massachusetts, criticizing the Bill. When adjournment came the Senate had barely made an impression on the chemical schedule, the first schedule in the Bill.
An amendment by Senator Smoot to transfer saffron and safflower from the dutiable list at ten per cent. to the free list, upon which he demanded a roll call, was voted down, forty to twenty-seven, by a strict party vote. Another amendment by Senator Smoot to increase the rate on formaldehyde from one cent to two cents per pound encountered Republican opposition, when Senator Cronmer of North Dakota, declared one cent high enough because formaldehyde was very essential to farmers. Senator Smoot withdrew the amendment.
When Senator Smoot sought to restore amber gum to the free list, striking out the proposed duty of one dollar per pound, Senator Stone wanted to know why the Government should not get revenue from pipe stems made from amber as well as from tobacco.
Senator Lodge protested against the proposed duty of five cents a pound on camphor, and declared he would demand a record vote later on an amendment to place it on the free list.

GLOOM SETTLES ON LIBERAL CAMP

(Canadian Press.) OTTAWA, July 25.—Additional gloom settles upon the Liberal horizon. During the last few weeks Sir Wilfrid Laurier has been doing quite a lot of missionary work at a time when this could have been done by one of the lesser leaders while the white plume remained at home and the chief fixed his gaze on higher things.

Sir Wilfred Laurier's Pilgrimages Have Not Been Successful. Sydney Fisher Is Not Accepted As Candidate For Chateauguay And May Not Run In His Own District

make a number of further visits in order to make explanations which were required in order to get the party men together.
Before the last of these visits there was a sort of semi-official announcement that Hon. Sydney Fisher was going after the Liberal nomination for Chateauguay where there was a vacancy. Apparently the Liberals of Chateauguay and the party leaders in Montreal were not disposed to throw away any Liberal chances for the riding of Chateauguay to feed the ambition of the ex-Minister of Agriculture to whose council they attributed much of the disaster that has lately come to the party.
Sir Wilfrid Laurier chilled Montreal. During his last visits he came to Ottawa. Now word comes from Montreal that Mr. Fisher is not likely to run for Chateauguay and may even abandon his cherished hope of Montreal. It was found necessary to

BIGAMIST'S WIFE ADOPTS FIRST WIFE

CHICAGO, July 23.—"She was such a child, compared to me, and I knew she was a good woman. I took her in my arms, kissed her, and asked her if she would bring her babies and come home and live with me. She hesitated, but finally she said she would, and she did. The babies are here now, and oh, we are going to be so happy living all together. Aren't the babies nice big fellows?"
In these words, coming manifestly from a full heart, Mrs. Wilfred B. Frost, one of the widows of a bigamist, told why she and a second widow, who was deceived by Mr. Frost, are living together with their four children at No. 1335 School street.
Mr. Frost's dual life was disclosed just before his death, on Feb. 2, in this same home. Each widow had two children, of whom Mr. Frost was the father. They believed that having done no wrong themselves they could best cherish the honor of their children by taking an interest in each other.
