THE Frank C. Batt is ready for the season's work and will probably start on the Summerside Bedeque route today.

A CLATTER of excitement was caused Friday afternoon by a report that the Stanley was seen coming up the Straits and heading for Summerside. Several believers among them one of our local Editors whose column of local happenings is usually short, climbed into the attic of one of the water street sky scrapers and swept the horizon with their eyes but "the steamer that they longed for never came."

EXCEPTING that there is no excuse for the town to walk to the end of Railway wharf to meet the Northumberland, things generally are beginning to look summerlike. Gardening is fairly well underway in many parts of the town; crocuses are blooming in several gardens, gentlemen of leisure are able to spend more time in the sunny nooks when they can be most in the way, and the seafaring part of the community is getting its sea legs on. Many schooners have their canvas on, and are ready for sea, waiting for the notorious bridge beyond the lighthouse to break up.

### NEW AND ORIGINAL ADVERTISING

It is interesting to watch the new ideas always to be found in the advertising of Hood's Sarsaparilla. The present line of advertisements is especially unique, each beginning with a familiar proverb and leading up to the good qualities of this famous medicine. The argument in every case is clinched by condensed testimonials from people the medicine has cured. It is gratifying to see the continued success of an article of genuine merit. While other preparations come to the surface and after a time disappear, Hood's Sarsaparilla has steadily maintained its place in public confidence.
