SHOT MOOSE SITTING ON TRACK

ST. JOHN, Sept. 28. — To sit on the railway track, call for moose just for fun, and kill two magnificent specimens was the experience of Messrs W. S. Carson and Walter Carson on Wednesday last. Messrs Carson were walking along the Intercolonial Railway track at Red Pine and thought that it might be advisable to call for a moose. The call was given only a couple of times when it was answered by a bull. The hunters had not long to wait before the head of the animal appeared through the bushed near the track. Walter Carson took a steady aim and the big bull lurched and lay dead.

A few minutes later this animal with a 44 inch spread and a beautiful head was low, the Carson brothers were amazed to see another bull break through the bushes as if in search of his brother. It was W. S. Carson's turn, and a bullet caused one of the finest heads in the New Brunswick forest to fall. The brothers had only about three hours to skin the game and get the carcases ready for the train. Having no distance to travel they had no trouble in getting the heads and carcases on the train.

The big head is one of the finest ever secured in the provinces. The palm of the horn measures 16 inches, while from tip to tip is 61½ inches, and the 27 tips are excellently divided. There is a record head in the government building at Fredericton, which measures 67 inches.

THE ROSS RIFLE SCORES AGAIN

HALIFAX, Sept. 28—Several of our local marksmen were out to Reserve rifle range on Saturday. The shooting was at 200, 500, 600 and 800 yards. The top score was made by J. C. Mills with a Ross rifle, and was we believe the highest made at this range this season, viz, 28 at 200, 30 at 500, 31 at 600 and 31 at 800. Thus it will be seen that the much belied Ross rifle was scored again while not in the hands of a professional.

A GOOD WORD FOR HUDSON BAY ROUTE

WINNIPEG, Man., Sept. 28. — Lieut. Col. E. T. Turnbull, of Montreal, who a few years ago went over the proposed route of the Hudson Bay Railway is in the city. "I am satisfied," said Col. Turnbull, "that Fort Churchill is bound to be a great factor in the shipping trade of this country. There is a great future ahead of the country, as there are agricultural possibilities there which are not generally appreciated.

Mr. Turnbull explained, that if the railway line were built, such a line would handle a vast amount of traffic, from Washington, Montana, Wyoming, Nebraska, Oregon, Dakota and Idaho, and some from as remote a state as Wisconsin. Cereals and cattle could be handled cheaper over such a line than at present by any known route. The temperature on the country is much in favor of cattle and live stock shipping.

He presided at a recent secreti conference of the Irish Reform Association, of which Lord Dunraven is president, and from which the devolution proposals originally emanated, and the officials of the new Imperial Home Rule Association, which lately sprung up the ranks of the Companions of . Patrick. Neither Lord Dunraven or William O'Brien, the Nationalist member of Parliament for Cork, was present at this meeting, but they met recently at the Galway conference which was called for the purpose of finding a common basis on which those believing in a more moderate form of home rule than that demanded by the Nationalists could agree.

The present movement is looked upon with suspicion by the Nationalists as an attempt to cut down home rule to a minimum when it comes to be practically considered. It is supported however, by powerful interests, including many converted Unionists.

CHOLERA CLOSES DOOR TO MANILA'S FESTIVITIES.

The United States Fleet Will Not be Received Until November.

MANILA, Sept. 28. — As has been predicted the formal welcome to the battleships of the American fleet has been postponed on account of the presence of cholera. The commission in charge of the reception after a conference with the Governor-General and a number of business men, decided that it would be the wisest and safest to cancel all preparations for the reception until the fleet returns from Japan in November. In honor of the fleet's presence, however, the committee decided to carry out the water parade on the day of arrival. Governor-General Smith is advising the Government at Washington of the development of strong criticism against the health authorities in the city because of the fact that Manila was not protected by quarantine and closed the districts where cholera has claimed the greatest number of victims. It is probable that an investigation will be ordered.
