LONDON, Feb. 16 — (Reuters) — A London dentist has invented a new type of denture in which the upper and lower teeth are kept in position by magnetism. Both plates, made of steel, have been polarized alike so as to repel one another, ensuring that they keep firmly in place — one pushing upwards and the other downwards.

The offering was then received which amounted to \$1.60. Dedication, Lance Hardeen, played by Lynn, he all but drives the express company out of Northern California.

The characters played by Lynn and Kilbride are fictional. The mild-mannered, philosophical Kilbride as a western badman is a casting that makes for high comedy. Miss De Carlo's gay Spanish dances, the breathtaking western vistas and the suspenseful holdups, rides and gun-fights highlight the drama. The excitement points to a flashing climax in the ambush of the highwaymen in a burning building.

The Technicolor film stars Yvonne De Carlo, Dan Durvea and Jeffrey Lynn with Percy Kilbride heading a brilliant supporting cast. Miss De Carlo portrays Lola Montez, internationally famous dancing beauty of the nineteenth century. The story deals with an episode in the triumphant tour of the dancing star during her sojourn in California under the management of P. F. Barnum.

The providential meeting of the lovely Lola with California's dashing gentleman, Black Bart, played by Dan Durvea, brings about the romantic action of the fast-moving screen story, "Black Bart," alias Charlie Boles, was the scourge of the Wells Fargo Company's stage-coach express service. With his
