—The Empress made her first trip from Summerside to Point du Chene yesterday, leaving on arrival of the morning express from Charlottetown. She had on board considerable freight including two horses shipped by John McDonald, one car potatoes, two cars oats, one car hay, one car household effects, 200 bundles hides, 400 bags quahaugs and 35 cases of eggs. Among the passengers were: Fred and Mrs. Schurman, Summerside, enroute to Boston where they purpose residing; Miss Jennie Cunningham to Scranton, Pa., where she will visit her brother; Miss Gladys Holman to Point du Chene. There was considerable ice in the straits and it was found necessary to go considerably south of her regular course. He purposes leaving at daylight this morning for Summerside and if conditions permit, will make the round trip.

—A lecture by J.H. Bell Tuesday night in the Presbyterian Hall under the auspices of St. Mary's congregation, was well attended. Rev. M. Webster presided. Before the lecture was introduced a short musical program was very pleasingly rendered in which Mrs W. B. Mills, Miss Freda Compton and F.H. Leard took part. Mr. Bell then gave his lecture. He referred to his experiences in the South, showed how and why the colored line was drawn, described the negro of the black belt—his cabin, his daily life and his desperate struggle for existence. Then he pointed out the differences between the white man and the black, physically, mentally, morally. At thirteen years of age the skull of a negro hardens, and the growth of his brain and his mental development are permanently arrested. The negro was predisposed to certain crimes—for petit larceny, arson, homicide and assaults on women he carried off the palm. His religion was a jumble of Christianity and heathenism He believed in ghosts, witchcraft, in a personal devil. The fear of the devil was the main propelling force driving him into the churches. Every negro was converted, but conversion did not make him moral or lessen his criminality. The lecturer than gave a vivid description of the practice of witchcraft and the operating of a forest camp meeting. The masses are swept into the church by the excitement of the revivals which they are powerless to resist. The negro of the South is now practically disfranchised. He never should have been invested with the right to vote—till able intelligently to excerise it. Mr. Bell then referred to certain facts to the credit of the negro—how his children were being educated, how he was accumulating property and how he was being gradually but slowly raised from barbarism to civilization. The progress of the negro was associated with the life and labors of Booker T. Washington. His institution at Tuskegee was doing splendid work for the uplift of the colored race. Its founder had larger influence and was doing more good for humanity than any man in the United States apart from President Roosevelt. The lecture was interspersed with illustrations and anecdotes and was highly appreciated. At the close of the lecture a vote of thanks moved by H. J. Massey and seconded by Dr. A. A. McLellan was tendered the lecturer.

NOTICE !

We have sent out our Quarterly Accounts, and respectfully request a prompt settlement of same.

M. TRAINOR & CO.,

IT BRIGHTENS the home as nothing else will do, by renewing the finish of furniture and woodwork. It is highly beneficial to the finest finish, even that of a $1,000 Piano, and its price is low enough to admit of its use on the cheapest, down to a 50c kitchen chair. It will improve the most beautiful furniture, including Mahogany, Rosewood, Golden Oak, White Enamel, Gilt, Silver. Equally well adapted to any color paint.

LIQUID VENEER
MAKES OLD THINGS NEW

Liquid Veneer is not a varnish but a surface food and cleaner. It removes scratches, stains, dirt and dullness. Applied with cheese cloth. Leaves no coating or streaks and is not inflammable.

It nourishes and builds up the finish instead of ultimately destroying it as do all preparations containing benzine or similar ingredients. Test Liquid Veneer for yourself; it will not ignite. It is wonderful for dusting. Try it and you will always buy it.
