FROM THE FIRING LINE

Mrs. Donald McIntosh has received the following letter from her brother: Somewhere in France, Feb. 10, 1916.

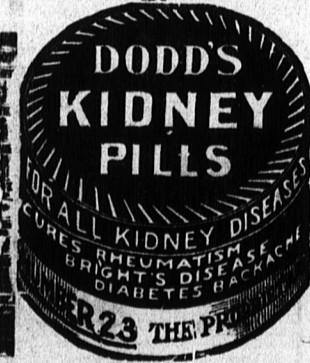

Dear and loving sister— "I received your kind and welcome letter and the parcel and the gloves were O.K. but I did not get the letter and pound of tobacco you sent. I think you had the wrong address.

The weather out here is getting nice and warm but the mud is very deep yet and I guess it will be for a while. I saw a German and an English aeroplane having a scrap in the air a few days ago and it was some scrap to believe me, but our plane forced him to the ground a few miles away from our quarters. You asked me to tell you something about the trenches. There isn't much use for you wouldn't believe half I could tell. When we are in them and the Germans start to shell us they send over a few Wisbangs and then they send over a few coal boxes and when they come look out and keep your head down for if one hits you on the head you won't have any hair left. I can tell you a coal box is a six inch shell and it makes a hole in the ground about six feet deep and about ten feet across. Some hole a well. One of my old pals, Donald Hume by name, has been wounded but will recover alright as his wounds are not very serious. Well dear sister as it is getting late and my news is getting short I will close sending you and your husband my love and may God be with you and I till we meet again.

Your ever loving brother Pte. C. A. McDonald. 26th Batt. D. Co., 14 Platoon, 5 Inf. Brigade, 2nd C. E. F., No 69709, France.

—ENJOYABLE EVENING.—A very enjoyable evening was spent at the home of Mr. Ed. McWilliams, Cape Traverse, Monday evening, March 6th when a number of young people gathered to spend the evening in dancing under the instructions of Wm. Millington.—N.

—PRESENTATION.—Corps Bertram and Nicholson of "A" Company 105th who have been in Summerside for some weeks on instruction work returned yesterday to Charlottetown. Previous to their departure they were each presented by the N. C. O.'s and with a beautiful wrist watch as a token of the respect in which they were held by the men.—C.

—BIRTHDAY PARTY.—Mrs. Ed. Urech, Kensington, gave a birthday party for her daughter Edna on Feb. 29th. This being the first anniversary of Edna's birth, Mrs. Urech took advantage of the occasion and sent invitations to her little friends. The children all had a beautiful time and as they grow older and are tried and perplexed by the hard problems of life, if a thought of the birthday party should come to them, it will be as an Oasis in a desert of despondency, and they will be boys and girls again for a short time at least.—K.

—MILITARY HOSPITAL.—Lieut. Knight of the Militia Dept. Engineers Branch, who has been on the Island for some months in connection with the fitting up of the buildings in which the troops are being quartered is at present in Summerside arranging for the fitting up of the Dunn building on Cedar Street as a Military Hospital. Orders to proceed with the work have been received Tuesday night. It will be fitted up as a twenty cot Hospital. It is expected the work will be completed within two weeks.—C.

—KENSINGTON WHIST AND DANCE.—An enjoyable whist party and dance was held in the C. M. B. A. Hall at Kensington on Monday night, March 6th. An extra glamour was added to the occasion on account of it being the first "affair" held in the C. M. B. A. Hall, since the installation of the electric lighting system which (by the way) will not be completed till after the moving picture machine is put in next week. Mrs. James Lynds took the role of "Laid Bountiful" and dispensed coffee and many kinds of cake with a lavish hand.—K.

—DRAMATIC CLUB.—On Thursday evening, March 2nd the Tyne Valley Dramatic Club presented the five act play The White Mountain Boy to a large audience in the hall at Tyne Valley. The different parts were well carried out by those who took part and the play throughout was much appreciated by the audience. Mrs. Hubert Phillips and Mr. Ephraim Phillips sang between the acts; while Mr. Preston Ellis gave a rousing exhibit. The following is the Cast of Characters:—Salem Towne, from the White Hills of Old New Hampshire. "As plucky as they make 'em." H. B. Boates; Mark Duploy, cool and cruel J. A. Boates; Martin Beckwith, a New York Banker—H. F. Phillips; Shad Kershaw, the tavern keeper—C. I. Liddstone; Algy Fitzallen, a fragile dude—E. S. Reid; Billy, "handy to have around"—W. I. Stewart; Tough Ben, a hard citizen—E. Phillips; Policeman—W. P. Ellis; Daisy Beckwith, Martin's daughter, a truehearted live. —Miss L. M. Rowe; Madeline, a derted wife—Mrs. H. F. Phillips; Mrs. Hulda Towne, not young but still charming—Mrs. H. B. Boates; Old Kinchen, a terrar—E. S. Reid Time—The present day.—P.

—MONTREAL, March 7.—At the Montreal General Hospital yesterday F. M. Richardson, of Class '17 of Medicine of McGill, gave 600 c. c. of his blood for a transfusion to a public patient. Last week L. J. Stewart of the same class, gave nearly as much of his blood for the same purpose. Dr. Henry carried out the operations, and reports that in the last case the patient is doing well. It is too soon yet to make any pronouncement about the one who was operated on yesterday.

—STOPPED SHORT.—Taking Tonics, and Built up on Right Food. The mistake is frequently made of trying to build up a worn-out nervous system on so-called tonics. New material from which to rebuild used up tissue cells is what should be supplied, and this can be obtained only from proper food. "I found myself on the verge of a nervous collapse, due to overwork and study, and to illness in the family," writes a young mother. "My friends became alarmed because I grew pale and thin and could not sleep nights. I took various tonics, but their effects wore off shortly after I stopped taking them. My food did not seem to nourish me. "Reading of Grape-Nuts, I determined to stop the tonics and see what a change of diet would do. I ate Grape-Nuts four times a day with cream, and drank milk also, went to bed early after eating a dish of Grape-Nuts. "In about two weeks I was sleeping soundly. In a short time gained weight and felt like a different woman. Grape-Nuts and fresh air were the only agents used to accomplish the happy results. "There's a Reason." WELL MERITED PRAISE TO CAPT. "DAN" MCKINNON AND FELLOW OFFICERS

—HALIFAX, Feb. 28.—When there is set for one the very pleasant duty of writing of Captain D. A. MacKinnon, O. C. of "The Eleventh," it becomes necessary to couch one's language in what may appear superlative and adulation to those who have small knowledge of the work and worth of this admirable officer. Nevertheless no less must be said if something near to appreciation of what Captain MacKinnon has done and is doing is to be set down. Captain "Dan" MacKinnon is a young man as years go, but a decidedly old man in experiences and achievement. That one individual could crowd so much into a life that is yet in its thirties, is almost unbelievable. One month ago Captain MacKinnon appeared on the horizon of overseas service as a messenger. Today his name, as well as his name, is a household name in almost every community in these Maritime Provinces. But this excellent officer is NOT a "flash in the pan." Don't be deluded by any such idea. Captain "Dan" MacKinnon had made a deep and abiding mark in military, years before the Hun attacked a solemn treaty as a "scrap of paper."

Captain MacKinnon came from the ranks. Today he is regarded as one of the finest of Canadian artillery officers, with a record of which a man of twice his years might well stand proud. And he has held 12 years out of the ranks—that is, twelve years as an officer. Today he is qualified, and well qualified, in the three branches, siege, coast-defence and heavy artillery work. He is a qualified signaller, and to add to this is qualified in musketry and machine gun work. During the twelve years, he has been an officer, Captain MacKinnon has figured eight different years as a member of the battery winning the general efficiency of Canada. An enviable record in itself. He has twice (1908 and 1912) been an officer of the All-Canadian artillery team competing for the King's honors with the British, and to him went a splendid share of the credit for bringing the cups to Canada in the competition overseas.

Six times in the past seven years, Captain MacKinnon (who is with all the rest of his accomplishments, a crack rifle shot) competed as a member of the inter-maritime teams, and out of that six times, he was the winning team four times. Of Captain MacKinnon's record in sport and in business there is little need to write. He is a successful business man, and while having interests that ramify in innumerable directions, he is best known to the business world as the president of the MacKinnon Drug Company, of Charlottetown. In sport his success has been no less marked. He held running records in the Maritime before Hans Holmer burst into the sport, and did a lot of other valuable athletic work for his home province of Prince Edward Island. In days that are gone, a maritime meet wasn't just exactly right if "Dan" MacKinnon wasn't down on the cards. During late years he has been best known for his almost uncanny facility for including in his stable horses that nosed out the other fellow at the wire. To such an extent has this been true as to make him the biggest money-winning driver on the Maritime circuit for the past two years. He took to horse-racing as a hobby, but is regarded today, in casting it aside, as a hobby, and sacrificing lucrative

a son of the late Colonel J. A. Longworth, of Charlottetown, and it is enough to say that his grandfather was also a life-long member of the Canadian militia.

An here we have an alert, clear-eyed young officer who is well equipped to uphold family traditions, because, as was the case with his forebears, he has won through on sheer merits. Lieutenant Longworth deserves to be Lieutenant Longworth, because he came from the ranks as did his brother officers.

Enlisting as a gunner, this popular young officer, has had seven full years of artillery life with some of the best men who ever laid a gun. When war broke out, Lieutenant Longworth was a sophomore at McDonald College, Montreal. He headed the call, and has been since that time a member of the Ives Point Battery, under Captain MacKinnon's command. The real chance came when Captain MacKinnon was asked to raise "The Eleventh."

In time of peace, Lieutenant Longworth was a consistent athlete, and in heavy and coast artillery, is regarded as one of the most capable young officers trained in our own provinces.

of which he was a member. But like his fellow officers, he dropped sport for entry into the bigger game. And his wide circle of admiring friends will know that what he does overseas he will do well. Lieutenant Longworth is qualified in heavy and coast artillery, is regarded as one of the most capable young officers trained in our own provinces.

Marvellous Value in a Guaranteed Range Beautifully Nickeled 35.95 Freight Paid

GUARANTEE We guarantee the quality material, workmanship and finish of the Reliance Steel Range to be flawless and high-class in every respect. We will ship the Reliance Steel Range to any railway station freight charges paid upon receipt of price, and if it does not even exceed our claims and prove itself marvellous value we will gladly take it back and refund every cent of the purchase price.

We Guarantee the RELIANCE to be a Perfect Range - -

Simple—substantial—strong—elegantly finished—beautifully nickeled—an excellent cooker and baker. These are just a few of the distinctive features of the RELIANCE STEEL RANGE. What makes these features "ring true" is the fact that RELIANCE RANGE is guaranteed absolutely and unequivocally. The handsome glass finished bright burnished top, the charming nickel plating, wide roomy working top, full size high warming closet, duplex reversible grates that will burn wood or coal, heavy copper boiler, are outstanding features that will make RELIANCE STEEL RANGE the one for your home.

CONSTRUCTION—The Reliance Range is made of specially rolled heavy blued steel plate correctly proportioned and build; graceful and neat in design, artistically trimmed with an abundance of beautiful plain nickel plated trimmings; easy to keep clean. There are no useless frills nor nonsensical contraptions about this range to get out of order or to give more work. It is just the style and size that will fit into any home—it is the housewife's idea of a "real range." Has full size working surface, the warming closet is the proper height, making every inch of the top accessible and available for cooking utensils. The smooth bright burnished top, handsome plain nickel trimmings; nickeled feet, aluminized steel oven, the size, style and construction are virtues that are outstanding. TOP—The smooth, bright burnished top is easy to keep clean and always looks nice; designed on the non-warping key plate principle with interchangeable sections, sufficient space is allowed to provide for the expansion and contraction of the metal. Has six 8-inch covers.

ASH PIT—The Ash 'pit is protected on all sides by ash guides which direct the ashes into the pan. DRAFTS—There are full size adjustable front and end drafts, as well as main draft which keep the heat under perfect control at all times for cooking and baking. WARMING CLOSET—The Warming Closet is just the proper height for convenient use, and the proper size to contain utensils and foodstuffs. By using the warming closet vituals can be kept at the right temperature. NICKEL TRIMMINGS—The nickel trimmings are heavy and the plain plating adds materially to the beauty of the range, and makes it a piece of furniture of which any woman will become justly proud.

DRYING RAIL—The Adjustable Nickel Drying Rail is massive, and is situated at the proper place to be of the greatest possible usefulness, service and attractiveness. RESERVOIR—The Reservoir is on the right side for convenience, and at the same time leaves the front of the range perfectly accessible for feeding fuel, cooking and regulating drafts; it also insures uniform combustion on account of a more improved system of drafts. The Reservoir is made of heavy copper, tinned inside, supported by good strong brackets, and nice nickel trimmings. While the main draft is so regulated that the heat on the water is uniform, the copper is protected from the fire by a partition adding materially to its length of life.

FIREBOX—The Firebox is so designed and the drafts specially arranged ensuring at all times an even fire from end to end, uniform heat and proper combustion. The grates are of the improved duplex pattern; the linings are of the very best material known. Size of firebox for wood 23 inches; for coal 17 inches. OVEN—The oven is large and roomy, size 18 inches wide and 21 inches deep, lined throughout with aluminized steel, which is easy to clean, has adjustable centre rack, is a splendid baker.
