THE VATICAN ORGAN CONDEMNS FASHIONS

It Declares Present Women's Costumes Immodest, a Danger to Good Morals and Menace to Virtue. A Change Demanded.

NEW YORK, July 9—(Special)—A Paris despatch says the Observatore Romano, organ of the Vatican, contains a scathing denunciation of feminine fashions.

The Observatore says: "We cannot but deplore the danger to good morals which comes to us from other countries and against which women might well unite.

"Those who profess with ardor their Catholic faith and morals should not be indulgent toward women who walk about the streets wearing immodest garments.

"All the present day fashions are designed to excite the passions and it is a shipwreck of virtue.

"Fashions are prejudicial to the health, which is a reflection of the bounty of God and therefore fruitful in morals and well being.

"Cleanse these unholly wardrobes; rid them of the dresses which make the wearers' guardian angels weep.

"Let wives and daughters make their own clothes, rather than wear dresses which grieve the Holy Spirit and the Father of Truth."

His Bones Found Stripped of Flesh by the Horrid Monsters.

PENSACOLA, July 9—(Special)—With his bones stripped of flesh by alligators, the body of Herman Wilcox of Chicago was found in the Good Times Lake Summer resort where Wilcox had been residing with his mother.

Not knowing that the Lake contained hundreds of alligators, Wilcox went for a swim.

TROOPS NOW GUARDING CAPE BRETON COLLIERIES.

GLACE BAY, July 8—Martial law now prevails in Southern Cape Breton. Troops are guarding the collieries of the Dominion Coal Company and an attempt has been made to operate the mines under military protection.

The militia are divided into detachments and distributed among the various collieries, and now the general feeling is that the disturbance which attended the first three days of the strike are at an end.

Sentries with fixed bayonets guard the approaches to the collieries and at No. 2 and No. 6, where most of the trouble has been, machine guns command the approaches.

ANNUAL DISTRICT CONVENTION.

The annual convention of the Charlottetown District of the F. M. S. was held in Pownal Methodist church, July 7th. The first session was opened by devotional exercises led by District organizer Mrs. Roper took the chair and made a few opening remarks. Bright and encouraging reports were given by the auxiliaries and band delegates, showing a decided increase in funds and a deepening work of missionary work. The afternoon session the devotional exercises were read by Mrs. Harrison and Miss White. Papers written by Mrs. John Newton, Mrs. Albert Mutch and Mrs. E. C. Turner, were read by Mrs. Johnson, Mrs. Roper and Miss Laura West, York. A public meeting in the evening was one of great interest. Rev. Hugh Miller, Cornwall, gave an instructive address on mission work in Newfoundland. The choir furnished good music. The hospitality of the Pownal people were highly appreciated by delegates and visitors.

AN AGED RESIDENT GONE.

There departed this life at his home in Canoe Cove, on June 2, 1909 one of the oldest residents of that place, in the person of Archibald Campbell. He was born in the year 1826, on the Campbell farm, where he constantly resided during his life of eighty-three years. In 1855 he married Catherine MacEachern, who preceded him thirteen years. In occupation a farmer, in politics a liberal and in religion, a member of the Church of Scotland, Archibald Campbell ever walked in the straight path of duty, dealing honestly with all whom he met and so died leaving a host of friends to lament the loss of a sincere friend, a kind neighbor and a true Christian, in every sense of the word. To him death was gain, coming as the messenger of peace to mourn the loss of a loving father, two sons, Neil, Canoe Cove and Archibald on the homestead, a sister, Mrs. Alex MacPhail, Argyll, Shore, and a brother Alex Campbell, Canoe Cove, also survive him. To the bereaved is extended the sympathy of all. The funeral which took place on June 4th to Canoe Cove Cemetery, was very largely attended. Rev. Jas. MacDougall officiated. The pall-bearers were: Lauchlin MacKinnon, Colin MacDougall, Neil MacKinnon, John Gillis, John MacDougall and John C. MacEachern Com.—(Patriot please copy.)

DAUGHTERS OF EMPIRE AS JOURNALISTS.

It was an altogether pleasant experience for The Guardian staff to have the ladies of Royal Edward Chapter, Daughters of the Empire, in charge of the Empire Day edition of this journal. The Daughters of their part acquitted themselves most cleverly and creditably. In newspaper work and appeared to enjoy it. They have also some reward for their work, the net receipts of their credit being \$57.33 for papers sold and \$119.13 for advertisements, a total of \$176.46. A most cordial and sincere vote of thanks was unanimously passed by the Chapter to The Guardian Publishing Company and its staff for the uniform kindness and courtesy extended to the Daughters in their journalistic venture, which vote is much appreciated. The Anti-Tuberculosis Society will be assisted in its noble work by the proceeds of this pleasant and interesting experiment, which, it is hoped, may some day be repeated.

MINER'S STRIKE IS CONTINUED

WHISKEY SENT HIM TO DEATH

Hard Drinking, Followed by Delirium Led to Drowning in Newcastle.

NEWCASTLE, July 9—(Special)—James Murphy, a native of Newcastle, for some time working in Maine, returned home this week, drinking heavily and came to the Harris House.

He took delirium tremens yesterday, became violent and the proprietor sent for a policeman. Then he quieted down.

Dr. Desmond went out to get the police to send a man to stay with the sick man.

Murphy, when left alone, jumped out of an upstairs window, ran to the ferry wharf and drowned himself.

RESULT OF BIG STORM.

WOODSTOCK, July 9—Heavy rain accompanied by thunder and lightning did considerable damage in this neighborhood last night. Martin Allan of the C. P. R. was quietly reading a newspaper at his home when a flash of lightning passed down the flue and out in the kitchen picked Allan from his chair, throwing him into the sink and tearing off his shoe. He was burned severely but will recover.

SMALL POX IN NOVA SCOTIA.

HALIFAX, July 9.—An epidemic of smallpox is reported near Clements-Port. A number of cases have been reported and placed under quarantine. The disease is supposed to have originated in the lumber camps. One of the most serious features is that the disease is of so light a character that many affected fail to properly diagnose it, and, thinking it merely an attack of the flu, went freely about amongst their neighbors. In this way the disease may spread and assume more serious proportions.

BOY DROWNED AT ANNAPOLIS.

ANNAPOLIS, N. S., July 9.—A drowning accident occurred here today by which Cecil Jordan, aged 12, boys were playing on a raft. The raft tipped over, throwing young Jordan into the water. The other boys were too frightened to do anything and time was lost before his cries attracted the attention of a sailor who dived after the drowning boy but was unable to locate him.

HELD ON MURDER CHARGE.

NEW YORK, July 9.—Two shoeless men, one wounded in the arm and thigh are held charged with murdering Mrs. Sophia Staber, in whose residence a fight with burglars early today occurred. They are Carlo Giro and John Smith. The latter was wounded and had admitted that it was a bullet from his pistol which killed Mrs. Staber. George Staber has identified both men as those who entered the house.

LORD STRATHCONA'S PAWKY HUMOR

LONDON, July 8—Lord Strathcona, the Canadian high commissioner in London, has humor of what Scotchmen call the pawky variety. Four or five months ago an old man called at the offices of the Dominion of Canada in Victoria street, and asked to see Lord Strathcona, saying that he was the cabman who drove young Donald Smith down to the docks and his ship when years ago he left Canada to make his fortune in Canada.

Lord Strathcona gave orders that he should be shown in at once. And eight pleasantly the two old men gossiped of "old lang syne" and "bonnie Scotland." Suddenly the cabman heaved a portentous sigh. Lord Strathcona asked its meaning. The cabman explained.

He had not been prosperous but had fallen on evil days. He had to support two grandsons, and one, to his grief, had just died. He had lit enough to bury him with and next to nothing with which to maintain himself and the other. Lord Strathcona passed a five-pound note quickly into the waiting hand of the fearful grandfather.

And now the cabman has just made his second call, and the high commissioner, not forgetful of the first visit, my own things to the ship in a wheelbarrow.

Few Men Returning to Work, But Quiet Prevails Under Martial Law.

GLACE BAY, July 9—(Special)—Today was expected to mark a critical turn in affairs, but this prediction has failed to materialize.

The claim made by the Coal Company that as soon as military protection was provided for the men, many would return to their work, remains to be proven.

The Coal Company explains the delay of the men in returning to work by the fact that the soldiers have not yet been properly distributed and that men who have been on duty since the beginning of the strike are taking a much needed rest before getting down to business again.

They predict that the Company will show an increased output in a very short time.

The U. M. W. claims the Company has gained nothing by having troops on duty.

They claim a decrease in the number of men employed and believe there will be a further continued decrease. Genl. Drury is now in command of the troops.

A CRITIC'S OPINION OF THE EDEN MUSEE

NEW YORK, July 8.—The Moving Picture World of New York City, recently published a long article, upon which the following is taken: "The Eden Musee, on Twentieth-third street, New York City, furnishes about as good an environment for the moving picture as one could wish. The Musee, as all the world knows, is a high class show place, situated in one of New York's most popular, prosperous and best frequented centres. It is the favorite haunt of Mrs. and Miss New York when in search of the daintiest things in clothes, and so there is always a floating clientele on hand to patronize the Musee; its wax groupings, its pictures, its music, its stereoscopic views, and other attractions. The moving pictures are shown in a large and spacious theatre at stated hours of the day, and there is always a constant ebb and flow of good class audiences. The place is beautifully equipped, the attendants courteous and altogether the management may take credit for its administration of one of New York's high class and most refined places of entertainment. The Musee, moreover, boasts what is probably the largest moving picture screen in the city or elsewhere. I have never heard of a larger picture than 30 feet. That is the size of the Musee screen. There is a skilful operator, who knows how to show the pictures; the results therefore is satisfaction to the audience. On the occasion of my visit this week, I was entirely pleased by finding myself one of an audience of refined and interested lovers of the moving picture. Such an audience as any theatre or opera house might be proud to have."
