MARITIME B. OF T. MET N MONCTON

Freight Rates And Express Traffic Problems Taken Up — R. E. Mutch, Representing P. E. I.

(Canadian Press)
MONCTON, N. B., May 7.—The transportation committee of the Maritime Board of Trade met here this morning for the purpose of discussing freight and express traffic problems as they affected this section of the Dominion. D. R. Turnbull of Halifax, chairman of the committee presided and E. A. Saunders of Halifax was secretary. In addition to these officers, others present were H. H. Bligh, C. H. Read, Lambert, and Col. A. Montgomery, Halifax. From New Brunswick there were A. Page of Woodstock; A. F. Peterson, and J. D. McKenna of St. John. P. E. I. was represented by R. E. Mutch of Charlottetown, H. A. Porter of St. John, solicitor for the committee and F. C. Cornell, of Montreal. The committee's freight rates report also was present.

Matters discussed this morning were principally freight and express rates, touching a great number of commodities shipped from these provinces and with some products shipped into this part of the country, such as mill feeds etc. The report of the freight rates expert on the matters now before the Board of Railway Commissioners, which will be heard during the coming summer, was discussed. It showed that the Committee will be very busy since there are five or six freight rate questions which have been referred to the board. At the present time there are fourteen different subjects on the agenda for the present meeting. Mr. Saunders announced, and these in turn are divided into subjects dealing with different commodities on which the question of freight rates has a distinct bearing.

Exiled Prince Wants To Return

Dissolution Is Not Likely Till Late This Month

Conservatives And U. F. A. Members Are Against Reckless Haste In Dissolving Parliament—Budget And Main Estimates Should Be Examined Into More Carefully.

(Canadian Press)
OTTAWA, Ont. May 7.—Parliament will not likely dissolve until late in the month if dissolution is to be brought about by the suggestion of Mackenzie King for an arrangement with all parties to expedite the Budget and all other Legislation introduced. Dissolution in two weeks time was suggested by Conservative and U. F. A. members foregathered in separate caucuses to day to discuss the proposal of the Government. The consensus of opinion at these meetings was that there would be no reckless haste. In both of these political camps the feeling was expressed that the Budget and some of the main estimates should be examined into more carefully. The Conservatives have a number of speakers desirous of addressing the House on the Budget, while four or five U. F. A. members are on the speakers list of that group. If by any possible chance the Government should force dissolution immediately, it is very improbable that the Budget will pass before the general election. A rumor current in Liberal circles earlier in the morning suggested, Monday, July 28 as the probable date for appeal to the people.

Toronto Will Borrow Over Thirteen Million

(Special to the Guardian)
TORONTO, Ont. May 7.—Finance Commissioner Wilson announced today that the city will go on the market to borrow \$13,396,000. Tenders for the five percent serial bonds to be received up to noon on May 14. The issues are as follows: 10 years, local improvement consolidation, \$3,261,000; 15 years, local improvement north Toronto Sewerage system \$5,328,000; 20 years, Toronto Hydro Electric System, \$1,960,000.

The Emerald Dramatic Club will present their three-act comedy "The Young Men's Dilemma" in Emerald Hall on Friday, May 9th. Dance after. Proceeds for the Women's Institute. 3655-5-8-21

SITUATION IS NORMAL IN INDIA

Four Deaths Reported In Rioting — Authorities Making Every Effort To Create a Feeling of Confidence.

(Canadian Press)
SIMLA, India, May 7.—C.P. Cable in official announcement to the press tonight gave a new total of four deaths in the rioting at Delhi yesterday, and stated the situation today was normal. The authorities were making every effort to create a feeling of confidence among the law-abiding section of the population.

U. S. PLANS BILLION DOLLAR NAVAL PROGRAM

To Cover Period of Ten Years — Parity With Great Britain The Idea.

(Special to the Guardian)
WASHINGTON, May 7.—A \$1,000,000,000 ten year naval building program to bring the U. S. to parity with Great Britain, was announced today by chairman Britten of the House Naval Affairs Committee, who will propose it to the House in bill form tomorrow.

GOVT. ACTION HINDRANCE TO EMPIRE TRADE

Declare Members of New Zealand Press Conference Party Speaking With Regard To Increased Butter Tariff.

(Special to the Guardian)
TORONTO, Ont. May 7.—Although members of the party of New Zealanders enroute to the Imperial Press Conference in London, who arrived in Toronto this morning are guarded in their comment on the Dunning Budget provisions as they affect their country, it was evident that they feel a blow has been struck at trade between the two dominions. In view of the imminent general election in Canada members of the delegation have agreed not to discuss the effect of the increased tariff on butter and the cancellation of the New Zealand Treaty with Canada, but there was more than a suggestion that several members of the party regard the King Government's actions as a hindrance to the extension of Empire trade. One member pointed out that whereas New Zealand purchased \$2,000,000 worth of goods from Canada, her exports to Canada totalled only \$45,000,000 and of that amount \$18,000,000 was butter.

NEW ANNEX TO ROCHFORD SQ. SCHOOL OPENED

Event Commemorated By Excellent Literary Entertainment By Pupils of the School.

The Literary Entertainment held last evening at Rochford Square School on the occasion of the opening of the new annex was largely attended by parents and interested friends of the pupils. Careful attention to detail in training, and genuine dramatic ability were evidenced in every number of the delightful and instructive program.

Mother Kills 12 Children

(Special to the Guardian)
COLUMBUS, Ohio, May 7.—The bodies of seven of Mrs. Ethel Yeldem's 12 children lay side by side in a morgue today clad in the night clothes in which their mother had dressed them, after she killed them one by one with a rifle. Mrs. Yeldem lay on a hospital cot with a wound in her shoulder. The eighth bullet she fired intended to bring rest to her weary body after years of ceaseless toil, was the only one that missed its mark.

Supporting her family was even a more difficult job, after her second husband was sent to the Ohio Penitentiary, Mrs. Yeldem found. She did her best to provide the necessities and keep the children at school by tending a newsstand at night and taking in washing during the day.

QUAKE PLAYED HAVOC WITH THE PAGODA

Famed Buddhist Shrine In Burma, Damaged To Extent of More Than Million Dollars — Vane Studded With Jewels Crashed 370 Feet to Ground.

(Special to the Guardian)
RANGOON, Burma, May 7.—The earthquake that shook lower Burma Monday and killed hundreds of natives and injured thousands, damaged the famed Shwedagon Pagoda, one of the greatest Buddhist shrines to the extent of more than \$1,000,000, it was learned today. The Pagoda, located at Pegu near here was surmounted by a weather vane richly studded with jewels and valued at \$1,250,000. The quake sent the vane crashing to the ground from the tower and smashed it.

Built in 885 B. C., the Pagoda was octagonal, 370 feet high. Few alterations have been made on it since the 16th century and despite the decline of Pegu, important Buddhists from all parts of Asia flock to it on their pilgrimages.

N. B. Will Have About The Same Potato Acreage

(Canadian Press)
FREDERICTON, N. B. May 7.—It is estimated at the present time that the New Brunswick potato acreage of 1930 will approximately equal that of last season, judging from the quantity of fertilizer imported and distributed throughout the province since March 1. There passed through St. John a quantity of about \$1,000 tons of fertilizer which constitutes an average turnover. Carleton and Victoria counties as usual have been the heavy purchasers with York, Sunbury, Queens and Kings also absorbing their respective shares. The bulk of the chemical fertilizer has been imported from Baltimore, Md. with some \$200 to \$300 tons also being purchased in Holland. This year is the first in which fertilizer has been purchased from the latter country.

NOT AFRAIDS LOST TO ACES AT MONCTON

(Canadian Press)
MONCTON, N. B. May 7.—The Charlottetown Not Afrids, lady bowling champions of Prince Edward Island met defeat here tonight in an exhibition game with the Moncton Aces, the score being 1200 to 12-61. The Islanders, who are on a tour of the Maritime Provinces, will conclude their engagement in Moncton with another game with the Aces tomorrow night.

\$100,000 FIRE IN LIVERPOOL NOVA SCOTIA

Thirty Farm Houses Burned To The Ground By a Series of Forest Fires.

(Canadian Press)
LIVERPOOL, N. S., May 7.—Upwards of thirty farm houses in the villages of Milton and Brooklyn and nearby settlements on the east side of the Mersey River, had been burned to the ground early tonight by a series of forest fires, believed to have started from a single blaze back of the village of Milton. Crowds of men were fighting the fires in an effort to prevent further destruction. The loss in damage to dwellings and personal property alone was conservatively estimated at \$100,000 early tonight. The plant at Brooklyn of the Mersey Paper Company was not endangered. Residences burned at Milton were owned by Arden Hartlett, Arthur Funece, J. W. Anthony, Mrs. M. Townshend, Seward Coombs, John Foster, and Mrs. H. Hazlette.

Late tonight the worst forest fire in the history of the County was believed to be under control, after every man and boy and every piece of apparatus in the district had fought the flames for hours, but the blaze had already taken toll of forest areas valued at \$50,000, caused destruction to dwellings estimated at \$60,000 and cut a \$10,000 gap in the hydro transmission lines of the Mersey Paper Co. The paper plant itself was endangered.

The Weather, etc

One hundred people are homeless tonight. Two barns and three small houses were burned to the ground at Beavertown before the flames jumped two miles to Moonshill, where five homes with adjacent buildings were destroyed.

Fanned by a northwesterly gale of forty mile velocity, the fire swept down to Sandy Cove and Great Hill, raising twenty farm houses with out-buildings before halting at the water's edge. In most cases furniture and personal effects were destroyed as well, so rapid was the advance of the flames every able bodied man and boy in Liverpool and surrounding districts were employees of the paper mill, and the Bridgewater fire department fought the fire over a period of more than six hours before the blaze was brought under control. Many of the men whose homes were burned were already weary from fighting forest outbreaks in other parts of the country, when their own dwellings were threatened.

A BORE WHO INSISTS ON TALKING WHEN YOU WANT TO TALK!

May 8.—Moderate to fresh winds, mostly north west, fair and cooler.
High tide this morning at 7:37 and tonight at 7:28.
Sun sets this evening at 7:14 and rises tomorrow morning at 4:37.
Full moon Monday, May 12, 1:05 P. M.
