Queen Marie Bitterly Reproaches America And its People

TORONTO, Ont., Feb. 7.—The Globe in an editorial on Queen Marie of Roumania and her sudden distaste for America, says: "Queen Marie of Roumania is nourishing bitter feelings toward the people of the United States and everything American as a consequence of her tour on this hemisphere last year. She begins to feel that she was subjected to a species of indignity by the American public."

"But for this she had largely herself to thank. If she was not treated with deference and respect because she had, comported herself without due dignity. She cheapened herself by the 'loudspeaker' publicity with which she announced her coming—a publicity which accompanied her throughout her tour. Queen Marie lacks reserve and lack of reserve is fatal to Queenly pretensions."

"We have been reading of the high tides, floods, etc., in other parts of the world, but only last week Mr. Percy Attkin, one of our most efficient mail couriers, who starts his route by taking a short cut down the ice, was compelled to return and take the road, the tide on the ice being up to the shins in places. And the following Friday the tide came up to the Street and around the general store of R. C. Clark and the warehouses at that part of the street."

On Wednesday the 2nd inst. a number of ladies met at the home of Mrs. James McCarthy to have a mat-hooking party. It has been five years since the ladies met there before and many were the yarns told as well as hooked. About 4.00 p.m. a delicious supper was served and thoroughly enjoyed as the hostess' culinary abilities remain unsurpassed. After supper hooking was resumed until the shades of evening brought a very pleasantly spent afternoon to a close.

Miss Peggie McDonald, nurse in the City Hospital spent a mid-week holiday with her parents Mr. and Mrs. Fred McDonald here.

Mr. George Pigott, Roxbury, Mass., who paid a brief visit to Mr. Stewart, returned Monday evening.

We regret to report the serious illness of Mrs. Donald D. McDonald Maple Hill, but hope she may be fully recovered soon.

Mr. Daniel Birt and Mr. and Mrs. Edwin McAssey drove to Mt. Herbert Sunday to attend the funeral of the late Mrs. Annabella McLean which took place Sunday afternoon.

The regular meeting of the Presbyterian Y. P. S. C. E. was held Sunday evening at the home of Mr. and Mrs. C. B. McLachlan, Hd. of Hillsboro. A number of nicely chosen hymns and psalm selections were sung and a number of nice readings given. Mr. Ray Smallwood was leader for the evening.

The regular services of the United Church was held at 11 o'clock a.m. followed by Sunday school at 2.30 p.m. The evening services were held in the Donaldson, Pastor Rev. M. K. Charman, P.

A large crowd saw some good racing at the Stanley Bridge Speedway Saturday afternoon. Lady Aquira keeping up her winning streak by defeating Disappointer and Nimble Lady. Semicol on won the 3 minute class in straight heats but a battle royal ensued between Abbie and CoEtta for second place the third in final being a dead heat between these two. Below is the summary:

2.40 Class

Lady Aquira (F. McEwen) 1 1 1 Disappointer (A. Taylor) ... 2 2 2 Nimble Lady (B. Hynes) ... 3 3 2 Best time—1.13.

3 Minute Class

Semicolon (B. Taylor) ... 1 1 1 Abbie (A. McLean) ... 2 2 2 CoEtta (S. Bigger) ... 3 3 2 Best time—1.20.

Officials: Starter, R. Chappelle; Judges, A. G. McKay, J. Reid, W. Keele; Announcer, Arnel Murray; Timer, J. J. Stewart.

Next race Saturday, Feb. 12th at 3 minute class, 2.50 class and 2.35 class.

Races start at 1.30 sharp. L.L.D., Toronto.

Geodetic Survey Does Useful Work Throughout Canada.

OTTAWA, Ont., Feb. 7.—That the Canadian Geodetic Survey is not in prosecuting works of considerable magnitude in the interests of and paid for by private concerns or municipalities, was revealed in the report of the geodetic surveys committee, presented by M. P. Moulton, D. L. S., at the convention of the Dominion Land Surveyors' Association here today.

He referred particularly to the work done for the Canadian International Paper Company and the City of Montreal in the wilds of northern Quebec, in the upper Gatineau river region and in the city of Montreal and surrounding district.

International co-operation was touched on by Mr. Moulton, when he told the convention of the use being made by the United States Coast and Geodetic Surveys of the triangulation surveys executed by Canadian surveyors along the international boundary in Western Canada.

During the past year the Geodetic Survey extended its operations in each of the provinces. An 1800 mile circuit in the Maritimes and Quebec, including part of the U. S. Coast and Geodetic Survey was completed. Ontario and Quebec surveys were projected up the Ottawa valley into the miniature fields of Ontario and the intention is to further expand this work and carry it through the Rouyn and Quebec in Quebec also.

Triangulation surveys were completed up the St. Maurice river as far as La Tuque, with the object of eventually continuing along the transcontinental railway to join with the Ottawa river loop. In connection with the Great Lakes water level gauges at Sault Ste. Marie, Thebes, Port Stanley and Collingwood. On Vancouver Island, preliminary work was done to furnish control for the British Columbia government surveys and for the Hydrographic Survey of the west coast.

This work will also furnish control for Geological Surveys which extend from Victoria about 130 miles north west to the glacier region.

At the annual meeting of the shareholders of the Provincial Bank of Canada, held at the head office of the bank yesterday, Sir Horliah Laporte, president, being in the chair, the annual statement and report were read by Tamcrode Biencour, vice-president and general manager.

The fiscal year ended on the 30th of November last, was notably favorable for the bank. The statement shows an increase of \$1,000,000 in the capital stock of the bank. This new issue was largely over-subscribed and was entirely paid up between the 1st of July and the 30th of November.

As is customary with this bank, liquid assets are kept at a high percentage; as at November 30, they amounted to over \$27,000,000 or nearly 65 per cent of the total obligations to the public. The total assets amounted to \$47,880,594.

The regular dividend of 5 per cent, was paid to the shareholders, and a sum of \$60,539 was set aside for the amortization in full of the cost of installation and maintenance of new branches, etc.

The Provincial Bank of Canada now has 131 branches and 185 sub-branches in operation in the provinces of Quebec, Ontario, New Brunswick and Prince Edward Island.

Further, according to the report of the board of directors \$37,731 new deposit accounts were opened during the year.

Profits for the year amounted to \$454,123 and premiums on new stock brought in \$220,155. This with the previous balance of \$25,463 placed a total of \$699,741 at the disposal of the bank for distribution. This sum was dealt with as follows: Dominion tax amortization, \$60,539. This left a balance of \$276,435 to carry forward.

DEPOSITS INCREASED

Liquid Assets Amount to Over \$27,000,000 or Nearly 65 per cent of Total Obligations To Public
