It Pays To Get The Facts

A large proportion of all the nerve energy generated in a normal body is expended in the act of seeing.
Eyes are often found to be defective so that although vision is still good, they are consuming twice or three times their allotted portion of nerve force, thus robbing other vital organs of their motive power.
The result is serious physical disorders—often in remote parts of the body.
Two out of every ten people are in this fix, yet the real cause of their trouble is often not even suspected until a thorough examination discloses the facts.
If there is any reason whatever to suspect eye strain, the common sense thing to do is to have a thorough examination and GET THE FACTS ABOUT YOUR EYES.

NEW FROCKS In Summery Prints

Summer Modes and Merchandise Featured for the Hot Weather

Simplicity and smartness characterize these new frocks, developed in one and two piece effects. Some of the most interesting models have been sketched above. Styles are most appealing, because of their careful tailoring and clever uses of tucks and pleats. Narrow belts and yoke effects make some of these models specially interesting. The materials are celenase, double fugi, figured crepella, rayon silk, etc., in all the leading seasons shades. Prices from \$4.25 to \$15.00.
Now is the time to buy these frocks which will prove wearable on so many Summer Occasions.

Midsummer Hats

In this large assortment you will find hats suitable for every summer need. Below are some of the materials that give these hats distinction.

- Hairbraid
 - Bangkok
 - Grosgrain Ribbon
 - Crochet Cloth
- Prominent among the colours are Blues, Soft Greens, Lemon, Yellow and white. Prices from \$3.50 up.

—ROBIN HOOD FLOUR — All sizes wholesale and retail. Holman's, Summerside. 4-21-dft.
—COMING, STATION YYYYY. Roy H. Kennedy of Kensington, has commenced the practice of medicine in O'Leary and has leased the residence of Mr. Wm. Kennedy for a term of years, where his offices are located. Dr. Kennedy graduated from McGill College, Montreal, in class of 1925, and since then was a year in one of the best Hospitals in New York State, and the people of O'Leary are fortunate in securing a doctor of his ability to locate amongst them. We wish him success. 7071-14-31
—PLAY ENJOYED.—The ever popular Young-Adams Company glowed in the splendor of the Strand footlights in Kensington on Wednesday night in the highly dramatic production "Why Men Marry." From the introductory prelude to the conclusion of the finale, the attention of the audience was held and the potency of the actors was proportionately strengthened. Nice dramatic situations were cleverly portrayed, mysterious complications artfully unfolded, and the climax in a most gratifying manner reached. The orchestral selections were truly animating and agreeably filled in the short intervals between the acts.—Y—
—NEW DOCTOR LOCATES.—Dr. Roy H. Kennedy of Kensington, has commenced the practice of medicine in O'Leary and has leased the residence of Mr. Wm. Kennedy for a term of years, where his offices are located. Dr. Kennedy graduated from McGill College, Montreal, in class of 1925, and since then was a year in one of the best Hospitals in New York State, and the people of O'Leary are fortunate in securing a doctor of his ability to locate amongst them. We wish him success. 7071-14-31
—NEW POTATO HOUSE.—An excavation, 80 feet long, 38 feet wide, and twelve feet deep, evident on the western border of Kensington and north of the C. G. R. track, naturally attract the attention and stimulates the curiosity, and impels to inquiry. From the superintendent of the work one learns that the depression is only the base of a structure that is to be erected thereon. Mr. James McNell, architect, seems to be the animating spirit in the work, and the importance of the powers supporting is evident in the magnitude of the edifice. His many friends wish him every success in the enterprise, and all are confident that the farming interests of the county will be well served. It is a just recognition of the business enterprise of the Town and the progressive activity of the supporting rural sections that, by education and experience, recognize the true concept of such institutions and guarantee support to encourage planters must see in this province indications of thriving permanence in the potato industry and should so control the output of their agricultural products as to derive the greatest possible benefit. The project surely sees in this area indications of continuous production in all agricultural commodities and all wish him the most gratifying success. Y.
In making a boiled custard always put the salt into the milk after the milk has been scalded. Never put it into the cold milk, as it will cause the custard to separate as though curdled.
A little quick lime placed where ants frequent will drive away any kind of ants.
