NECK RUCHES KEPT DAINTY

To keep neck ruches fresh and dainty, instead of sewing the ruche into the neck of the dress, sew snaps two or three inches along the facing of the ruche and the corresponding parts at equal distances on the neck of the dress. In this way the ruche may be used on several dresses. It should be taken off when the dress is hung in the wardrobe or packed in a dress suit case. The ruche may be put in a small pasteboard box, where it will be kept fresh and dainty. Modern Priscilla.

A DEAD FLY

May Be As Dangerous As A Live One

It is certainly more repulsive, and, if left, will breed far more disease than ever it did when alive. It is not sufficient to kill the fly. You must destroy the germs as well. These, if allowed to multiply, will spread disease and death. Give up using the fly swatter and the unsanitary sticky fly paper. Buy WILSON'S FLY PAIS—the only really effective method of exterminating the death-dealing household fly. They fill all the crevices in the house in a few hours. No dead flies left lying about. Be careful to follow directions found in each package.

PRINCE EDWARD ISLAND AS A SUMMER RESORT

THE LAND OF PURE DELIGHT FOR TOURISTS AND HEALTH SEEKERS

SOME OF P. E. I. ATTRACTIONS

A LAND OF BEAUTY.

Prince Edward Island is the best spot on earth in which to spend a vacation. It is more, it is the ideal land we've all heard and sung about in the halcyon days of childhood and youth, "The Land of Pure Delight." Some of its outstanding features are

A DELIGHTFUL SUMMER CLIMATE.

Three hundred and seventy-eight years ago Jacques Cartier wrote: "All this land is low and the most beautiful. . . . This is a land of the best temperature which it is possible to see." Thousands of tourist visitors attest that it is more beautiful today, and the most attractive summer resort in the entire Dominion of Canada.

A LAND OF HEALTH.

In no other country does so large a proportion of the people live to a green old age. Only about one per cent. of the population dies each year. The report of the Registrar of Vital Statistics for the year 1913 shows that of a total of 983 deaths there were: 130 over 60 years of age; 118 over 70 years of age; 110 over 80 years of age; 27 over 90 years of age. The infant mortality of other countries is almost unknown here. There is no other land under the sun where 40 per cent. of the population live to pass the seventy year span of life!

A LAND OF ABUNDANCE.

In no other country is there greater abundance of the best food and of clear, sparkling water in town and rural districts alike. Lamb of finest flavor; Eggs, milk, butter and cheese; The most luscious oysters in world; Lobsters in great abundance; Sea and brook trout, mackerel, cod, etc.; Wild geese, brant, plover, duck and partridge in their season; Strawberries, raspberries, blue berries, cranberries; Apples and plums of rare excellence; cherries and small fruit are plentifully produced. 1913: Wheat, 29,500 acres; oats, 176,200; barley, 4,200; peas, 70; mixed grains, 7,500; hay and clover, 184,100; buckwheat, 2,600; potatoes, 31,400; turnips, etc., 7,400; corn for fodder, 260. Prince Edward Island live stock (June 30th, 1913): 36,000 horses, 48,600 milch cows, 64,300 other cattle, 85,700 sheep, 43,800 swine. P.E.I. farm crops, exclusive of fruits, in 1913, were valued at, as follows: Wheat, \$450,000; oats, \$2,420,000; barley, \$80,000; mixed grain, \$203,500; buckwheat, \$42,500; roots, \$625,000; hay, \$3,000,000. Total, \$8,186,000. P.E.I. has \$246 worth of farm implements per farm, as against \$157 in N. B., and \$87 worth in N.S.

AGREEABLE SOCIAL CONDITIONS.

The Island is socially a land of the golden mean. Few are very rich and almost none are poor. The great majority enjoy comfort and prosperity. Sobriety and order everywhere prevail. In no part of the American Continent is there proportionately so little serious crime. There are no tramps and beggars are unknown. Churches and schools are abundant.

POSTAL AND OTHER FACILITIES.

There are 468 post offices—one to every 4 1/2 square miles. Throughout a large part of the Province there is free delivery of the mails daily at the farmers' road gates. The Prince Edward Island Railway intersects the Island in every direction, bringing four-fifths of its area within five miles of the rails. Telephone lines all over the Island connect 175 towns, villages and settlements.

SOME SPECIAL ATTRACTIONS FOR TOURISTS

ON THE NORTH SHORE.

The rampart of sand dunes, fifty miles long, thrown up by the waves. The long shallow lagoons inside the dunes, the haunts of fish and waterfowl. Scores of miles of bread, clean hard sand beaches, the delight of IN GENERAL: Surf bathing and sheltered sea bathing; Shooting wild geese, duck, brant, partridge and plover in their season. Fishing brook and sea trout, mackerel and other sea fish. Clam baking, picnicking, oyster digging. Boat sailing and rowing. Hundreds of motor boats. Victoria Park, 60 acres within ten minutes' walk of the Post office. Beautiful walks and drives, tennis courts, cricket and baseball. The Bellevue Golf Links. Amateur Athletic Grounds. An excellent Free Public Library. The Legislative Building, seat of a Legislative Assembly older than the United States Congress. The Mimac Encampment at Rocky Point. The old French Fort at the Harbor's mouth. Seventy miles of land-locked waters for boating, bathing, oyster shing and clam digging. Charlottetown has one of the finest harbors in Canada, entirely land-locked, with a shore front of over four miles. Charlottetown has broad macadamized streets, with concrete sidewalks, lined with lawns and shade trees. Charlottetown's water supply system, is pure, cold, spring water in abundance. There is none better in and around Charlottetown, there is within a radius of 25 miles in and around Charlottetown, there are 50,000 people. Charlottetown has one of the finest market buildings in Canada.

THE FOX RANGES.

Tourist visitors and investors will find great interest in seeing the scores of fox ranches that are thickly dotted over the western and central portions of the Island. An expert Free Public Library. The Legislative Building, seat of a Legislative Assembly older than the United States Congress. The Mimac Encampment at Rocky Point. The old French Fort at the Harbor's mouth. Seventy miles of land-locked waters for boating, bathing, oyster shing and clam digging. Charlottetown has one of the finest harbors in Canada, entirely land-locked, with a shore front of over four miles. Charlottetown has broad macadamized streets, with concrete sidewalks, lined with lawns and shade trees. Charlottetown's water supply system, is pure, cold, spring water in abundance. There is none better in and around Charlottetown, there is within a radius of 25 miles in and around Charlottetown, there are 50,000 people. Charlottetown has one of the finest market buildings in Canada. The FOX RANGES. There is none better in and around Charlottetown, there is within a radius of 25 miles in and around Charlottetown, there are 50,000 people. Charlottetown has one of the finest market buildings in Canada. Sixty-four fox companies were incorporated in P. E. I. during last Legislature besides oyster farming, industrial and trading companies. Selling prices for P.E.I. silver foxes, at close of 1913, were \$20,000 to \$30,000 per pair for provided breeders, and for young foxes born during the year, \$15,000 per pair. P.E.I. fur farming includes the breeding of three varieties of foxes, also racoon, fisher, beaver, otter, mink, muskrat, marten and Russian sable, as well as Persian lambs. Eighty-five per cent. of all the valuable foxes in captivity throughout the world are within P. E. Island. P.E.I. has 187 lester-canning establishments.

ANNOUNCEMENT. Mr. and Mrs. Frank Perry, of Summerside, announce the engagement of their daughter, Nellie E., to Mr. Warren H. Pope, of Pictou, N. S. The wedding takes place on June 2nd, J.

THE STORE of Sinclair, Stewart, Limited will be closed on Saturday, May 23rd., owing to the sudden and much lamented death of Mr. Keith Stewart, (son of the President of the firm), whose body is expected to arrive from New York this evening, J. 2495.

NEW POLICE. As was mentioned in this column some days ago Mr. John Todd, warehouseman, with Holman's, Ltd., has been appointed to the vacancy on the Summerside Police force occasioned by the resignation, owing to ill health of officer Steele. Mr. Todd takes up his new duties on June 1st. Mr. William McInnis having been sworn in for night duty until that time.—J.

CASTORIA

For Infants and Children. The Kind You Have Always Bought. Bears the Signature of Dr. J. C. Watson.

Do You Want a Big Hay Crop This Year?

If you want a big bumper hay crop this year, the only way to prepare for it is to treat your soil systematically, properly, scientifically—and that means building it up with our Unmixed English Fertilizers. You already know that a mixed hay crop of 2 1/2 tons, takes 77 pounds potash, 18 pounds phosphoric acid and 70 pounds nitrogen from the soil and unless the land is replenished with these necessary plant foods, you cannot secure the crop you should.

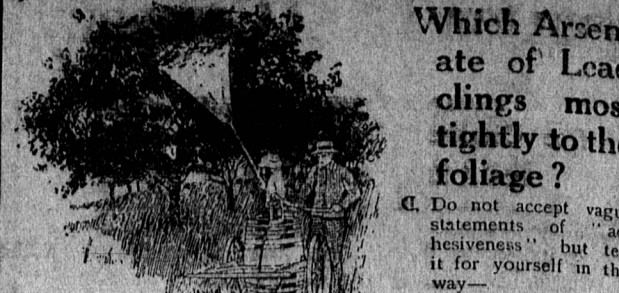

Eliminate Guesswork by Using UNMIXED Fertilizers

There is no guesswork uncrop with minimum trouble what you are getting for your certainty or doubt when you use these Unmixed English Fertilizers, provided your land is in any way arable or fertile, by mixing at home. You know you can secure a maximum just what you are using and of bumper returns.

Results Secured by A Simple Hay Fertilizer Formula

A farmer at Alberton secured a net profit of \$32.24 per acre, clear gain, by using our unmixed fertilizers. Fertilizer formula for one acre without manure. 1 1/2 bags xxx superphosphate \$3.75 75 lbs. nitrate of soda 2.44 100 lbs. muriate of potash 2.65 Total \$8.84 On heavy soil two bags of basic slag should be used instead of the superphosphate, price \$1.80 a bag.

Write for Free Booklets Auld Bros. Lower Queen St.

Which Arsenate of Lead clings most tightly to the foliage? Do not accept vague statements of "adhesiveness" but test it for yourself in this way— Dry upon glass a few drops of spraying mixture made from Berger's Arsenate of Lead, and do the same with any other Arsenate of Lead spraying mixture. Then brush lightly with a camel hair brush. All other brands of Arsenate of Lead will dust off with ease—but Berger's Arsenate of Lead will adhere very firmly to the glass. When "adhesiveness" is claimed—remember this test.

Berger's "Mercury Brand" ARSENATE OF LEAD is death to all leaf-eating insects.

Berger's Arsenate of Lead is inexpensive; 50 Gallons of Water only require 1 to 3 lbs. of Lead, according to quantity and quality of insect to be destroyed. Do not neglect your trees. They are a big asset to you. Berger's Arsenate of Lead per 1 lb. Cans.....20c ea. " " " " 5 " " .....70c " " " " " 10 " " .....\$1.40 " Sprayers for applying Arsenate of Lead .....50c "
