

Had Pains Around The Heart

AND SMOTHERING FEELINGS.

The terrible smothering and choking up sensations and sinking turns, that come to those whose heart and nerves are deranged or disordered call for prompt relief.

There is nothing that brings with it such a fear of death as to wake up in the night with that awful feeling of smothering.

Milburn's Heart and Nerve Pills are the only remedy that can give prompt relief and effect a complete cure in cases of such severity.

Mrs. Wm. Lee, Uthoff, Ont., writes: "I have taken three boxes of Milburn's Heart and Nerve Pills, and am now well. I had such pains around my heart and such smothering feelings that I thought I would surely die. My head used to be propped up with pillows to keep me from smothering. One day I read in a paper about your Milburn's Heart and Nerve Pills, and three boxes cured me."

Price, 50 cents per box; 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

LIFE'S COMMON THINGS.

The things of every day are all so sweet,
The morning meadows wet with dew,
The dance of daisies in the noon
The blue
Of far-off hills where twilight shadows
The night with all its tender mystery
Of sound
And silence, and God's starry sky!
Of life—the whole life—is far too
Sweet,
The things of every day are all so
Sweet,
The common things of life are all so

dear,
The waking in the warm half-gloom
To find again the old familiar room,
The scents and sights and sounds that
never tire,
The home work, the plans, the lit
Of baby's laugh,
The crackle of the open fire;
The waiting, then the footsteps com
ing near,
The opening door, the hand-clasp and
the kiss,
Is heaven not, after all, the now
and here?
The common things of life are all so
dear.

ABSORBINE A

VEGETABLE COMPOUND.

Absorbine is scientifically compounded of the best ingredients you can buy—it is purely vegetable containing no poisons or minerals. Careful laboratory tests conclusively prove its antiseptic and germicidal properties. Notwithstanding its powerful results, absorbine is a mild and pleasant liniment to use, does not blister, strain or remove the hair, and horse can be used during treatment. It is economical as only a few drops are required at an application. A bottle of absorbine diluted as per formula on label, makes three gallons of efficient liniment at a cost of 80 cents a gallon. Write for detailed laboratory reports on the germicidal value of absorbine or absorbine, Jr., Absorbine at druggists, \$2.00 a bottle, or sent direct, express prepaid, upon receipt of price. W. F. Life.

The poet's exclamation: "O Life! I feel thee bounding in my veins," is a joyous one. Persons that can rarely or never make it, in honesty to themselves, are among the most unfortunate. They do not live, but exist; for to live implies more than to be. To live is to be well and strong—to arise feeling equal to the ordinary duties of the day, and to retire not overcome by them—to feel life bounding in the veins. A medicine that has made thousands of people, men and women, well and strong, bestowing the richest blessings, and that medicine is Hood's Sarsaparilla. The weak, run-down, or debilitated, from any cause, should not fail to take it. It builds up the whole system, changes existence into life, and makes life more abundant. We are glad to say these words in its favor to the readers of our columns.

How to Destroy the Dandruff Germ

By a Specialist.

That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature gray hair, is a well known fact, but when we realize that it is also indirectly responsible for many of the worst cases of catarrh and consumption, we appreciate the importance of an agent that will destroy its power. We are therefore, particularly pleased to give herewith the prescription which an eminent scientist states he has found, after repeated tests, to completely destroy the dandruff germ in from one to three applications. It will also almost immediately stop falling hair, and it has in numerous cases produced a new hair-growth after years of baldness. This prescription can be made up at home, or any druggist will put it up for you: 6 ounces Bay Rum, 2 ounces Lavona de Composee, one-half drachm Menthol Crystals. Mix thoroughly, and after standing half an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger-tips. If you take it perfumed, add half a teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. While this preparation is not a dye, it is unequalled for restoring gray hair to its original color.

There is on display at the front counter a great line of pretty all-over nets and laces for 60c per yard. These would be good value usually at 1.00. A special low price purchase makes the bargain rate for you.

CAPT. READ'S VISION.

Writing to the Moncton Times under date of June 4, Mr. Lewis P. Tanton says:—The Transcript publishes details of an interview with Capt. Jos. Read of Summerside, upon the lost advantages to potato growers from the defeat of reciprocity, amounting to those familiar with the Captain's vagaries upon his favorite "spud" readers, yet liable to be taken seriously by New Brunswick readers unfamiliar with his tendency to visions and dreams. Like all great men, he is abundantly supplied with statistical information from which, like the magician's bottle, he can produce the special flavor best suited to his auditors' taste. From selected sources he produces prices indicating "sick," "weak," and "dead" markets, but he studiously refrains from publishing the quotations in his possession, from Newfoundland, and from the strong living Canadian centres of consumption. For instance on the basis of his own quotations, not one of the markets he refers to will today give a net return of 15c per bushel, yet Capt. Read's firm are now paying 20c to 22c for all they can get. This firm are not working for pastime, but on a profit basis. Why does he not take the honest course and publish his letters and prices from the places and the markets in which he is actually selling his goods. Newfoundland is to-day returning 27 to 28 cents net. He was also careful to reserve the information that Green Mountain, Rose, Hebron and shallow-eyed varieties, the kinds covered by his United States quotations, are not at this season available in quantity for export, and that our deep-eyed Cheneango is not only quotably lower, but almost unsalable.

SINKS

free from Grease and Scum use

The Captain is evidently inclined to be generous, whether to his Yankee friend or to the farmer seems to be a little hard to determine. He is so enamoured with reciprocity that he seems willing to perform some prodigious financial stunts to secure the boon. He is willing, so it appears, to pay the Summerside farmer 40 cents per bushel for potatoes, pay his men for handling, provide all implements of carriage, pay freight, commissions, insurance, shrink and loss, and sell them in Baltimore, south of New York, in the market which he quotes himself, "most (shipping) points selling at 40 to 45 cents a bushel," if he only give him reciprocity. He is either exceedingly kind time love for the "stars and stripes." If the latter, our neighbors across the line should surely amend their geography so that in future the spot of Capt. Read's habitation would be included as a part of their present conception of the universe. Potatoes are a commodity with va-

lues fluctuating according to locality and scarcely ever responsive to general conditions. With a very powerful machine and a watchful eye, I am free to confess that our island "spud" hobbyist might at times, by careful manipulation of foreign prices move out some kind of an argument in favor of reciprocity, provided he was willing to temporarily stop buying himself for home markets, at prices so severely discount his most roseate descriptions of gilded markets across the border. At present he is wading beyond his depth.

300 Men's Suits at a Bargain \$12.00 to 7.78

\$13.00 Suits for \$8.35

A leading manufacturer of the men's clothing offered us 300 men's suits at what seems to us a ridiculously low price, providing we bought the lot ranging in sizes from 34 to 44. After fully examining the suits, quality of lining and every point of finish, style and so forth we decided to buy and we fully believe that they are the best suit bargains offered here for many days. The material from which the suits are made consists chiefly of Scotch Tweeds and English Worsteds.

Every Suit bears a large round green tag, may be seen in our Clothing Room, Second floor to-day

The style of the suits are the new S. B. style. The shoulders are hand shaped and nicely moulded collars and lapels. The front of the coats are sufficiently rounded to give them a stylish appearance. The linings are of good quality satin. The canvas is a heavy elastic finished canvas well padded with wadding and hair cloth. The suits are sewed with silk throughout and are a dressy, classy suit in every respect.

Knickers

A great many parents have been complaining to us that they have been unable to get anything for the boys to stand the wear and tear, such as boys from 6 to 14 years of age usually require. We have secured for you now the best boys' knickers that we know of. It is not cheapness we are after in this instance but quality, we can guarantee them to stand the wear. The price is \$1.55.
