Confesses To Slaying Of Eight By Poison

Says Killings Gave Him "Funny Sort Of Mental Satisfaction."

DETROIT, Mich., Feb. 21.—James Baker, 25, a former employee of the Guggenheim Laboratory, New York, was being held here today for New York police after he was said to have confessed the killing of eight men in the past four years.
Baker's eight victims were despatched by the methods of the Borgias—poison and their homes were widely scattered about the world: Bombay, Hamburg, New York, Houston, the Philippines, and aboard a ship en route to South America, according to the confession said to have been obtained by Detroit police.
Baker was arrested last night on a farm, three miles west of Farmington, a suburb. He had been working on the farm since last summer and was arrested when police learned that he was wanted in New York. Taken to police headquarters, Baker made his confession to John D. Watts, assistant prosecuting attorney.
The killings, Baker stated in his confession, gave him "a funny sort of mental satisfaction."

OTTAWA, Feb. 21.—A proposal for placing an embargo or exportation duty on pulpwood will be discussed in the House of Commons this session. The debate will be initiated by George Parent, Liberal, Quebec west, who has prepared a proposed resolution asking the Commons to go on record that the time has come for Canada to impose an embargo or exportation duty on pulp wood coupled with such legislation if necessary, as would assure settlers a fair remuneration for the wood taken from their lands.

LATEST DOINGS AT THE NAVAL PARLEY

(Special to the Guardian)
WASHINGTON, Feb. 21.—Administration troubles over the London Naval conference were increased today by the discovery that the American delegation has about used up its \$200,000 appropriation for expenses and by the latest and most violent attack yet made by representative Fred A. Britten, chairman of the house-naval affairs committee. Britten told the Illinois Manufacturers Association at a dinner here tonight that the conference probably will fail; that the talk of protecting neutral rights is flappdoodle and that the proposed Anglo-American cruiser agreement is ridiculous. This further stirring up of opposition by the Illinois big navyist bears on the exhaustion of the delegations funds because the administration dislikes the prospect of having to ask Congress for more money lest the "Brittens" of the house and the big navyists in the Senate use it as an excuse for airing their grievances. Nor does the State Department relish the idea of trying to account for the rapidly ex-

EXPECT BIG POTATO SHIPMENTS

(Canadian Press)
FREDERICTON, N. B., Feb. 21.—Increased shipments of New Brunswick potatoes to the Canadian West with the breakup of the winter are expected by shippers and producers of this Province to more than make up for the dull conditions on the Boston market, which are largely due to enormous quantities being placed there since last fall from the Aroostook County in Maine. For several weeks carloads of New Brunswick tubers have been moving out for the markets on the Prairies with some consistency and the present period of wild weather has accentuated the trend to unusual proportions.
The new idea of beach rugs, brightly colored, and Turkish towelling done in huge sunflower and other designs are attractive. The success of boleros or cape effects obtained either by blousing or by separately cut capes, originating with Jean Patou, seems assured. Other dressmakers are hastening to include them in their collections.

NO FOUNDATION TO RUMOR OF FINDING BODY

Calgary Police Contradict Report Emanating From Charlottetown.

(Canadian Press)
CALGARY, Alta., Feb. 21.—There is no foundation to the story that the body of William Joseph Morrissey, of Millburn, P. E. I., had been found here, police officials declared today. A Charlottetown, P. E. I., despatch last night stated the body of a man thought to be Morrissey had been found in the High River district of Alberta and that foul play was suspected. Morrissey, the despatch stated, had been missing since 1920 and it is said a description of Morrissey given by his mother corresponded with the body.
Calgary police today stated that an unidentified body of a man had not been found in the High River district within the past six months and they were emphatic that there was no foundation to the Charlottetown despatch.

STYLES FROM PARIS

PARIS, Feb. 21.—With millions of American dollars flowing into the pockets of the fashionable showpoppers of Paris the season already is a financial success.
Aside from the fact that the dressmakers effected a compromise in the dress argument and got a 3 three inch extension, other changes and novelties in fashion have contributed to the years prosperity.
Modistes appear to have gained an important point. Hats will be large, the popularizing of the expensive straws is expected to restore riches to many tropical lands which suffered during the era of tight fitting hats.
The season is outstanding also for its novelties including many beach accessories such as cork shoes in tan
