### PAGAN LEADERS ATTACK CHRISTIANITY

#### MASS MEETING IS HELD IN SPORTSPALAST

Claim Christianity Not True Religion Of Germans — Objectives Are Ousted.

By Louis F. Lochner, Associated Press Foreign Staff (By Guardian's Special Wire) BERLIN, April 26.—Leaders of the rapidly growing German pagan faith movement boldly rejected Christianity tonight at a Nazi-sanctioned rally and said God had "revealed himself to us" through Adolf Hitler.

Jacob Wilhelm Hauer, spiritual leader of the movement, told an overflow audience at the gigantic Sportspalast that Christianity is not the true religion of Germans, but the united under Adolf Hitler because of their longing for the "Germanic" faith. Dissenters were ejected.

"Christianity says there is only one way to God and whoever does not believe in it is lost," Hauer asserted. "Such a claim leads to confusion, from which is sprung all evils that afflicted the religious history of the German people in the past."

"God has not revealed himself in the so-called chosen people alone," Hauer declared, "but also to us through our Fuehrer (Hitler), to enable us to accomplish our great mission in the world."

When another speaker, Count Ernst Reventlow, one of the oldest Nazi fighters said churches year by year are being destroyed.

ANNOUNCEMENTS  
COMING EVENTS  
MEETINGS, ETC

\*Rummage sale, Christian Church Schoolroom, Saturday, April 27, 2:30 p.m. L-6092-4-26-27

#### PUPPET EMPEROR AND MASTER

Their majesties, Emperor Hirohito (LEFT) of Japan, and Emperor Kang Toh of Manchukuo, photographed in the royal Japanese carriage as they passed between long lines of Jap troops at Yogi when they reviewed a tremendous display of Oriental strength. More than five thousand of the finest Japanese troops, as well as over 100 airplanes of the Tokorozawa and Shimishima military aviation schools, flew over the parade ground.

### Claim Germany Building Subs

Further Violation Of Versailles Treaty Is Alleged.

(A. P. By Guardian's Special Wire) VANCOUVER, April 26.—Relief camp workers on strike here today continued their demands that their grievances be settled before they return to the camps from which they walked out April 4, in protest against camp conditions. Nearly 3,000 left camps in the province.

The strikers have announced several unions have been invited to participate in general one-hour protest strike Monday afternoon.

The general Ministerial Association of greater Vancouver has appealed to Dominion authorities to care for the physical needs of the men pending the findings of the royal commission now investigating camp conditions.

Several unions, including the seamen's, longshoremen's and street railwaymen's, considered the present one-hour sympathy strike tonight. A meeting of the strikers' action committee will be held Sunday with all sympathetic organizations invited to send delegates to discuss the proposed sympathy strike.

### Greek Royalists See Return Of Ex-King George II

(By Guardian's Special Wire) PARIS, April 26.—A few short weeks, jubilant Greek royalists said here tonight, will see ex-King George II back on the Throne he lost 12 years ago.

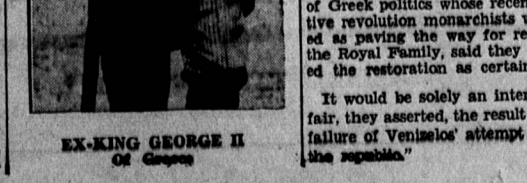

The former monarch of the Hellenes passed through Paris en route to London and heard royalists explain their plans to restore him, if monarchists score the victory they expect in Greece's elections May 19.

Lending still more substance to the royalists' hopes was the explanation Nicholas Politis, Greek Minister to France, gave the French Government after King George departed for London.

A distinct possibility exists that the King will be recalled after the May elections. Politis asserted, though no coup d'etat is contemplated and any restoration must be voted by the Assembly.

Even supporters of the ex-Premier Eleutherios Venizelos, the "old fox" of Greek politics whose recent abortive revolution monarchists welcomed as paving the way for return of the Royal Family, said they regarded the restoration as certain.

It would be solely an internal affair, they asserted, the result "of the failure of Venizelos' attempt to save the republic."

EX-KING GEORGE II Of Greece

### GEOLOGICAL SURVEY PLANS ARE LAID

Vast Program to Complete Geographical Mapping of Prospective Mineral Bearing Regions.

(C. P. By Guardian's Special Wire) OTTAWA, April 26.—Any doubt that the Dominion Government will be able to organize and place in the field this summer a highly-efficient corps of geologists to prospect Canada's prospective \$1,000,000 special geological survey program, a part of the proposed public works undertakings, vanished today as a flood of applications for positions continued to descend upon the Mines Department. Interviewed in regard to progress of the plans, Hon. W. A. Gordon, Minister of Mines, stated many of the applicants are graduates and under-graduates in geology at Canadian universities and no better type could be desired to give a lead to prospecting for minerals. He emphasized that the work will be geological investigation and not actual prospecting.

#### PROGRAM PLANNED

The program is planned to hurry on to completion the geological mapping of prospective mineral-bearing regions and as well to give employment to university students for whom opportunities are not being provided in other phases of the public works undertakings. Unfortunately the impression seemed to have gained ground, stated Mr. Gordon, that in making provision for expansion of the geological survey work, the government had in mind creating immediate employment for hundreds of men without technical training. This is not so. Actually the non-technical help, such as cooks, will form a comparatively small part of the personnel which will take the field when Parliament gives its assent to the supplementary Public Works Construction Act, 1935.

#### NO DELAY

The intention is to proceed rapidly with organization so that there will be no delay in starting out the 180 parties whose investigations will take in the provinces of Nova Scotia to British Columbia, also the Northwest Territories and Yukon Areas with good possibilities will have particular attention and the attack on the geology of mineral-bearing regions generally will be a scale hitherto unprecedented in Canada.

### Demand Of Former Island Pastor Granted

(A. P. By Guardian's Special Wire) LYNN, Mass., April 25.—A 22-year-old minister has succeeded tonight in denying the use of his church to an elder colleague because the latter was not "spiritual" enough and persisted in discussing economic, political and the Rev. Charles E. Coughlin.

The young cleric was the Rev. Clayton H. Gray, recently of Prince Edward Island, who only last night became minister of the Essex Street Union Baptist Church, where he had been acting minister for a month.

His first act on being elected was to recommend to the deacons that they deny to the Rev. Laurence B. Walker, 29, prominent Liberal minister, the use of the church vestry for meetings of the East Lynn Brotherhood, a discussion forum. The deacons concurred and formed Walker, who was formerly minister of a Congregational Church in Saug, Me., that he must find another meeting place after next Sunday.

### Former Mayor Sentenced To Jail Term

(C. P. By Guardian's Special Wire) MONTREAL, April 26.—Sentence of three years in the penitentiary was passed today by Judge Jules Desmarais on J. A. S. Ashby, notary public, who pleaded guilty to misappropriating money totaling \$2,125 entrusted to his care by various clients. Mr. Ashby was formerly Mayor of Lachine and one-time member of the Quebec Legislative Assembly for Jacques Cartier division.

#### NAZI AMBASSADOR

General Joachim von Ribbentrop, who has been promoted to a high portfolio in the S. S. (Schutz Staffeln) or black-shirted Nazi guard by Reichsfuehrer Adolf Hitler. From high Nazi circles it was learned that Ribbentrop is soon to be given the rank of "ambassador-at-large with special duties." From there, they say, it will only be a step to his being appointed state secretary of the foreign office to replace Bernard von Buelow, a hold-over from the Stresemann and Brüning regimes.

### BRITAIN TO STRENGTHEN DEFENCES

Germany Outstrips Britain in Number Of Fighting Planes.

LONDON, April 26.—The British Government is getting ready to announce further strengthening of the country's defences, well-informed observers here said tonight, calling attention to the fact that Prime Minister Ramsay MacDonald's article on Germany and the Daily Telegraph's publication of the fact that German air strength data both appeared on the eve of the Parliament's resumption of activity.

#### For Defence Measures

Four million pounds sterling (\$12,000,000) were reserved on the budget without any mention of the use to be made of it except that they might be allotted to "public services," it was recalled. The possibility this sum was intended for additional defence measures has been suggested unofficially.

The Daily Telegraph's announcement that Germany actually possessed more first-class fighting planes than were in the United Kingdom, though the British Empire, though the British Empire, and that since the British had to keep about one-third of their planes in various outposts of the colonial Empire, Germany was actually much stronger in Europe than Great Britain.

Parliament, it is believed, may strengthen the country's defence measures either by taking new steps or by speeding up the 1934 aviation program.

### Business Houses Optimistic Over Easter Results

WINNIPEG, April 26.—Easter business of greater volume than last year spurred merchants this week to a more optimistic view of the coming summer.

Constitutional work is expected to increase in the next 10 days, according to the weekly report of the Canadian Credit Men's Trust Association issued here today for the past week, and with this activity is expected a general business improvement.

On the prairie only moderate sales of women's finery and men's goods were noted, but at Vancouver and in the Eastern Provinces spring was bringing out new attire.

As shown in the Canada Gazette the week ending April 20, had 28 business failures compared with 36 for the same week a year ago. Thus far this year 464 failures are recorded against 502 last year.

### 10 LABORERS BURNED, THREE NEAR DEATH

Trapped In Sewer As Carelessly Thrown Match Ignites Oil-laden Waters.

(A. P. By Guardian's Special Wire)

ST. LOUIS, April 26.—Ten laborers were burned, eight of them critically, as flames shot along the oil-laden waters of a sewer in which they were working near the Grand Boulevard viaduct industrial section today.

City hospital attaches tonight said that the victims had only a slight chance to recover while rescue crews searched for one man who was unaccounted for.

The sewer was enveloped in flame as a discarded match ignited oil that had seeped into the chamber. Two muffled explosions followed the fire and hurled manhole covers from their seats over a mile radius. Windows in the neighborhood were shattered.

Confusion broke out in the sewer as the crew of 13 laborers, trapped by the flames and smoke, tried to reach the exit. Several of them slipped from the narrow runway in which they had been working and fell into the waist deep water which was capped with running fire.

#### Six Imprisoned

Five made their way out of the shaft unaided, blackened by flames and in a state of collapse. Six others, imprisoned below the surface, were rescued by firemen who equipped themselves with gas masks and tanks of oxygen to descend into the tunnel.

Angelo Vella, 21, one of the workmen, said an oily substance appeared on the sewer water yesterday. "I lighted a cigarette and threw the match into the water, not thinking it might light the oil," he said. "The minute that match hit the water here was a big burst of fire, and a hissing sound."

### 500 Lives Lost In Persian Earthquakes

TEHRAN, Iran, April 26.—Twenty eight villages were destroyed and 500 lives lost in the province of Masanderan during an earthquake in the past fortnight. It was announced today. An undetermined number of persons were injured.

The quakes destroyed 500 houses and government buildings. In the Lurestan district of Sinaloh, 900 miles away, 30 villages suffered from the shocks and two were razed. Twenty persons died there and many were injured.

The government rushed physicians and other relief workers to the stricken areas.

### Parley Approves Establishing A Commission

Ministers Complete Survey Of Public Health Field In Two-day Conference In Ottawa.

(C. P. By Guardian's Special Wire) OTTAWA, April 26.—A Royal Commission on which there will be representation from various medical and nursing associations, labor, financial and insurance interests next fall will investigate the whole field of Canada's medical services with a view to acquiring data on state medicine and health insurance. This emerged definitely from the conference on public health which, under the chairmanship of Hon. D. M. Sutherland, Minister of National Health, closed today.

The conferees were the public health ministers of the provinces, the only absentee being Quebec which did not send a representative due to the Provincial Legislature still being in session.

#### MEMBERS PRESENT

The members were Hon. F. R. Davis, Nova Scotia; Premier W. J. P. Macklin, Prince Edward Island; Hon. J. A. Faulkner, Ontario; Hon. R. A. Hoey, Manitoba; Hon. J. M. Ulrich, Saskatchewan; Hon. George Hoadley, Alberta and Hon. C. W. Wells, British Columbia. Also in attendance was Dr. T. C. Routley, Secretary of the Canadian Medical Association, and Dr. W. Warwick, Deputy Minister of Health for New Brunswick. Dr. Warwick represented his province in the absence through illness of Hon. H. I. Taylor, his Minister.

The vast field of public health in all its complex ramifications was surveyed during the two days. At the suggestion of Mr. Hoadley, the ministers constituted themselves a Dominion "Cabinet of Health," pledged to work in closest cooperation and to enlist the aid of the best medical brains of the country.

The conference discussed the common interests of all the provinces, keeping directly in front of it the general good of the Canadian people. Notwithstanding the varying political complexions of the conferees no spirit of partisanship obtruded itself into their deliberations.

Mr. Clendennin was confident that within a year two huge United States-built sea planes would be flying a regular service across the North Atlantic, carrying mails and passengers. Only the matter of terminals and feeder services remain to be completed. They would make the 1,500 nautical miles between Ireland and Newfoundland in slightly over eight hours, he said.

While in Ottawa Mr. Clendennin interviewed Dr. O. D. Skelton, Under-secretary of State for External Affairs, P. T. Colleen, Assistant Deputy Postmaster General and J. A. Wilson, head of the civil aviation branch of the Department of National Defence. He left this afternoon to visit relatives in Renfrew, Ont., and will continue his negotiations in Montreal next Monday.

#### TUBERCULOSIS PROBLEM

During its sessions the conference was addressed on the problem of tuberculosis among the Indians by the Hon. T. G. Murphy, Minister of the Interior, and Dr. H. W. MacGill, Deputy Minister of Indian Affairs.

The narcotic situation in Canada was outlined by Col. G. H. L. Sherman, director of that section in the National Health Department, while suggestions to obtain uniformity of provincial statistics on hospital matters were presented by J. H. Brady, of the Dominion Bureau.

Throughout its deliberations the conference turned time and again to the matter of cancer, and the necessity of educating the public to the need of consulting their physicians regularly in order that any ailment might be detected early and eradicated. This could be achieved best through addresses given to service clubs and women's associations, through normal schools and by the activities of public health nurses, the conference agreed.

The conference was opened by Mr. Sutherland, Minister of National Health, and closed by Mr. Clendennin, Minister of the Interior.

(Continued on Page 7)

### Premier Bennett Week-end Guest At Windsor Castle

R. B. BENNETT Prime Minister

LONDON, April 26.—Prime Minister R. B. Bennett arrived here today to attend the Silver Jubilee celebrations.

Mr. Bennett has been asked to be the week-end guest of His Majesty and will go tomorrow to Windsor Castle.

The Canadian Prime Minister was met at Paddington Station by R. A. Butler, Parliamentary Under-secretary of the India Office, representing Prime Minister Ramsay MacDonald, and Rear Admiral Abomey, representing J. H. Thomas, Secretary of State for the Dominions.

Mr. Bennett, apparently benefited by his sea voyage, was in cheerful spirits. Upon landing at Plymouth in beautiful weather, he said, "It is always a pleasure for me to see foot on the shores of England. It is doubly so on this occasion because I come to bear expressions of loyalty and devotion from Canada to our beloved Sovereign."

He declared the sole object of his visit was to attend the Jubilee celebrations.

"But of course," he added, "when people get together from overseas they naturally discuss their common problems. We shall talk over our difficulties but in an unofficial way because no conference of Dominion Premiers is planned."

### Trans-ocean Air Service Next Year Seen

OTTAWA, April 26.—Declaring a prominent United States air transport company was ready to open and maintain a regular schedule of flights between Galway, Ireland and Notre Dame Bay, Nfld., C. H. Clendennin of Dublin, director of the Irish Transatlantic Corporation, left here today after what he described as most satisfactory interviews with government and flying officials.

Mr. Clendennin was confident that within a year two huge United States-built sea planes would be flying a regular service across the North Atlantic, carrying mails and passengers. Only the matter of terminals and feeder services remain to be completed. They would make the 1,500 nautical miles between Ireland and Newfoundland in slightly over eight hours, he said.

While in Ottawa Mr. Clendennin interviewed Dr. O. D. Skelton, Under-secretary of State for External Affairs, P. T. Colleen, Assistant Deputy Postmaster General and J. A. Wilson, head of the civil aviation branch of the Department of National Defence. He left this afternoon to visit relatives in Renfrew, Ont., and will continue his negotiations in Montreal next Monday.
