REPEALING THE AUTOMOBILE ACT

The brief announcement in yesterday's issue of the intention of prominent and influential business men of this city to petition the Government for the repeal of the Automobile Act was the cause of considerable discussion in and around the city.

In nearly all cases it was favourably received and it is believed that the sentiment of the country in respect to this phase of P. E. Island's progress has materially changed and that the majority of the people who have hitherto opposed the running of automobiles have taken a different attitude—and one more in keeping with the progress of the age.

In Charlottetown itself there are many desirous of possessing automobiles not only for ordinary driving but for use in commercial work. The most prominent dry goods, grocery and other merchants who at present have teams for delivery purposes have expressed their intention of securing an auto truck as soon as the law is repealed prohibiting their use. Throughout the country the auto truck would meet with a ready sale.

Cheese and butter factories would employ them in hauling milk and other rural industrial concerns could make advantageous use of them and one of the first reasons advanced as to why they would do this would be that of economy.

The repealing of the act would open out a new field of industry which would be of great benefit to the city and the whole province. A company is ready to form, issue capital stock to the extent of $100,000 and commence the manufacture of automobiles subsequent to the return to the original order of things when a taxpayer was not so restricted as to the manner of vehicle be chose in which to drive or convey his goods.

This new plant would give steady employment to a large number of men and would undoubtedly prove a profitable and dividend-paying investment for stockholders. This is evidently felt to be the case for right in this city are those who are ready and willing—even anxious—to subscribe to the capital stock of the new concern and finance it over its initial stages. Automobiles can be built as cheaply and as well in this city as in any other part of the world.

It has perhaps been noted by many in this province that some time ago an industry of the above nature was started at Kentville, N. S., and that establishment is now doing a thriving and lucrative business. Peculiar enough, too, it is being managed by two P. E. Island men, McKay Bros. formerly of Souris, who once conducted a carriage building business at the latter place.

Nova Scotia's experience with automobiles is worth referring to. The people of that province have spent nearly three-quarters of a million dollars so far in motor vehicles and still they come. Included in the estimated total is Halifax, with about 125 motor vehicles, valued at $150,000 or $175,000.

There are now registered in Nova Scotia, 506 vehicles and additions to the register are made weekly. Latterly Halifax has not figured so prominently in the registrations as earlier in the season, and Yarmouth, Amherst and Pictou County have been more in evidence in this respect than of yore.

Notwithstanding the large number of motor vehicles now in use in Nova Scotia, the price of good horse flesh is as high, if not higher, than ever. This seems to have been the experience everywhere with the introduction of automobiles, and is somewhat difficult to explain. But the fact remains that today good horse flesh commands much money, and is none too plenty.

The little town of Saskatoon in Saskatchewan, which, only a few years ago, was merely a part of the western prairie, now boasts of its autos in speaking of its wealth. It goes further and in advertising booklets it refers to the fact that in and about the town are owned about two hundred autos, the majority of the owners being farmers.

It is felt that this year the agitation for a repeal of the act will meet with more support throughout the country districts than heretofore and that people will not allow matters of a personal nature to retard the progress of the country.

FOREST FIRES BURNING FIERCELY.

HALIFAX, Aug. 15—Tremendous forest fires are raging on the west shore of Nova Scotia, from Port Clyde to within eight miles of Liverpool. Fire has been burning for two or three days but yesterday burst out in greater strength. At Port Clyde twenty-five buildings were destroyed. The territory between points mentioned is not all in flames, but there is a continuous chain of fire which is doing vast damage.

PENOBSQUIS, Aug. 15—Forest fires which have been raging between this village and Sussex since last Wednesday assumed dangerous proportions again yesterday afternoon. People fear that unless rain follows the shifting of the wind, Penobsquis and Piccadilly may be swept by the flames.
