Ayer's Sarsaparilla is a tonic. It does not stimulate. It does not make you feel better one day, then as bad as ever the next. There is not a drop of alcohol in it. You have the steady, even gain that comes from a strong tonic. Ask your doctor all about this.

Eye mastery

The eye is so intricate in its mechanism, so delicate in its structure, so full of complexities that none but experts should attempt the treatment of eyes.

For years past we have kept pace with the demands of this optical business and now we have the most up-to-date system of eye examination in this Province. Our optical department is equipped with a lens grinding plant, which enables us to supply glasses to meet the exact requirements of the eyes.

We grind the lenses to suit your eyes individually—it's not a matter of selecting from a stock of ready-made glasses. We subject your eyes to a scientific, sensitive examination, then grind glasses that will suit your eyes and yours alone.

If your eyes are not "just right" you had better call.
